DAHLIA YELLOW SPIRAL

SQUASH GOLDEN PIPPIN

GILL Bros. Seed Go. 1953

*EDW. E. GILL

RAY W. GILL

JUST A LITTLE CHAT WITH YOU

Forty-three years ago we started this business. That was a very small beginning — just a little four-page circular offering a few items we had originated. Today, we number our customers by the thousands all over the United States and Canada. From boyhood, on our father's farm, we grew up in market gardener farming and that experience enabled us to understand the needs and problems of the vegetable grower.

Having been market gardeners ourselves, it was quite natural for us to specialize in market gardener requirements. All of our seeds therefore are grown or purchased to meet the quality required by these gardeners. This is also a distinct advantage to home gardeners and farmers, for we supply them all from the same sources. We supply seeds to several thousand market gardeners. On our farm near Portland, Oregon, we continually strive to develop new varieties and to improve many of the standard sorts. We always endeavor to secure the best rather than the cheapest. Cheap seeds are generally dear at any price. Seeds are a very small part of the cost in growing a crop and it pays every grower, small or large, to buy the best.

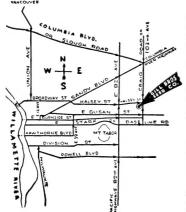

Our business is a partnership owned and controlled by Ray W. Gill and Mrs. Edward E. Gill plus members of both families. *Edward E. Gill died July 2, 1951. We believe in giving good service as well as good seeds. However, there are seasonal rushes which sometimes cause delays. We suggest early orders and this will reduce the rush periods.

We will always strive to do our best; however, if you do have a complaint, please write and be assured of courteous treatment.

GILL BROS SEED CO.

How to Reach the Farm

Retail salesrooms at warehouse and office.

Take Halsey Street bus to 92nd Avenue then walk seven blocks east on Halsey to office.

By auto to 82nd Avenue or 102nd Avenue thence to Halsey Street.

Office and farm at 99th Avenue and Halsey. (See diagram map).

Visitors are always welcome at our farm.

Our Fall Catalog

Our Fall catalog of 32 pages was issued last September. It lists many items still available for early planting in January and February. If you did not receive our Fall catalog, we will be glad to mail you one. During the last seven years we have issued a Fall catalog describing a very complete line of Fall bulbs and plants. We specialize in Oregon-grown Daffodils and we offer large, high quality Tulips and Hyacinths for Fall planting. We also have a very complete line of other flower bulbs and plants.

We suggest that when you are in need of these items that you keep our bulbs

in mind.

We send this Fall catalog to all our seed customers; however, if you did not receive one, please write us.

FORTY-THIRD ANNUAL CATALOG

GILL BROS. SEED COMPANY

DOWN TOWN SALES ROOM 827 S. W. 4th Ave. nr. Yamhill St. Portland 4, Oregon

MONTAVILLA STA., PORTLAND 16, ORE. Main Office, Farm and Retail Store N. E. 99th Ave. & Halsey St. - KEnwood 7593

SEATTLE STORE 1600 Pike Place SEneca 0431

Dear Customers and Readers:

This is not a large, pretentious catalog, yet it brings you an honest message about seeds, bulbs, etc. The high quality of our goods is favorably known throughout the Northwest, besides which we have many customers throughout the nation. For years we have been introducing special strains of seed here from our own farms and many new varieties of our own origin are recognized as leaders by market gardeners.

We specialize in Northwest grown seeds and where these are not obtainable we procure the best without regard to cost from the world's best growers. Seeds grown in moderate summer and winter conditions of the Northwest have great vitality and vigor. Northwest grown seeds are indicated in this catalog with a star. If you have not tried our seeds, please give us a trial order. Many of the largest growers and associations in the Northwest depend on our goods. Order early, as some varieties are short.

Our catalog has been prepared with the desire to have it sensible and free from exaggeration. The cuts used are mostly made from photographs taken from samples grown by ourselves and are reasonable illustrations of the results obtained from our seeds. We are opposed to filling our catalog with a long list of worthless novelties and are confining our list to the fewest possible varieties, and introducing only those new sorts which have some added value over other introductions. Those who receive more than one copy of our catalog will confer a favor by handing it to someone interested.

Our files show us the names of all who have sent us an order within the last two years. To these we mail our catalog each year, and we also mail our catalog again to all who received our catalog the first time last season, regardless of whether they sent us an order or not. However, we will send catalogs free upon request. All members of a family, living together, should order under one name.

WARRANTY

We give no warranty, expressed or implied, as to the productiveness of any seeds or bulbs we sell and we will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seed.

HOW TO ORDER

Send all mail orders and correspondence to Montavilla Station, Portland 16, Oregon.

Order early, as there is a heavy demand on some stocks and they may be exhausted.

Remittance must accompany your order. Stamps are accepted up to \$1.00. Money Orders, Express Orders, Bank Drafts and Certified Checks are preferred, although other checks are accepted for collection. Be sure to check your extensions and totals before mailing your orders.

If your remittance should be short, we will send you in accordance with the amount paid and thus avoid delay. We can send Vegetable and Flower Seeds C.O.D., but please remember this costs you extra for C.O.D. charges.

Prices in this catalog marked "Not Prepaid" do not cover shipping expenses.

Except where noted (Not Prepaid) all prices are postpaid.

All prices up to and including one pound include shipping expenses and for more only when indicated. Give shipping instructions and write your name and address plainly on your order.

Write your correspondence on a separate sheet from your order. The seed season is a rush season.

MISTAKES

We strive to avoid errors but like all human beings, we are apt to make mistakes in filling orders, and if an error occurs we will consider it a favor to be notified at once so that we can rectify the oversight.

If you have a complaint, tell us first. In the rush of spring business, mistakes may happen; if so, tell us pleasantly about it and be assured of courteous treatment.

SUBSTITUTION

IN VIEW OF THE FACT THAT SOME KINDS OF SEEDS ARE SHORT THIS YEAR, we would suggest that customers give as much as possible their permission for us to substitute the nearest variety to the one ordered in case we should be sold out. On items of small importance, or during the rush of planting season, when time is precious, we may send other sorts if out of the ones ordered, but such substitutions may be returned for credit if unsatisfactory to the purchaser.

VEGETABLE SEED SUBJECT TO CHANGE IN EXTREME CASES
Considering the many added costs of doing business our prices are reasonable. Parcel post has been increased. We hope to be able to maintain these prices, but they are subject to change in extreme cases.

HELPFUL SUGGESTIONS

We are always willing to offer any assistance in our power regarding culture, best varieties for your soil and market, etc. We will also be glad to consider any suggestions you may wish to make to us.

SAVE MONEY BY PARCEL POST ... PLEASE READ

In ordering seeds in quantity you can save money by using our prices, marked "Not Prepaid" in this catalog. Simply add postage to these prices at the zone rate. In case you do not know the zone to Portland, just include extra and mark order "postage allowance." Please send sufficient. Many orders are short on postage, causing delays and added expense. Any over-run will be refunded to you. However, on very small amounts, we often send extra seeds with liberal allowances.

PRACTICAL EXPERIENCE

As market gardeners and the many tests we have made for years has given us a thorough knowledge of the varieties best suited for our climate, and aside from those varieties which we grow, has enabled us to secure our seed from the best sources. In that respect we differ from the average seed store where the experience is more from a selling standpoint.

WE SPECIALIZE IN MARKET GARDENER TRADE

Thousands of market gardeners all over the United States look to us for high-grade seeds.

If you buy in large quantities, write us a list giving varieties and quantities and we will be glad to quote our quantity rates.

SEED TESTS

Our seeds are tested; all seeds on hand are tested before sending out and on those purchased during the rush season we secure the test from the seller.

PRESS OF RYDER PRINTING CO. 1027 S. W. Fifth Ave., Portland, Ore.

VEGETABLES

Artichoke

LARGE GREEN GLOBE—They stand considerable cold but should be mulched with straw against severe freezing. Plant three feet apart in the row and six feet between rows. The green buds are used. Start in hotbeds. They can be grown successfully in the Pacific Northwest. Postpaid. Pkt. 20c; oz. 75c.

*JERUSALEM — The tubers are used for stock feed and also in salads. We offer white and redish purple. Both are heavy producers. Postpaid. 2½ lbs. 50c. Not prepaid. 10 lbs. @ 11c lb.; 50 lbs., at 7c lb.; 100 lbs. for \$6.50.

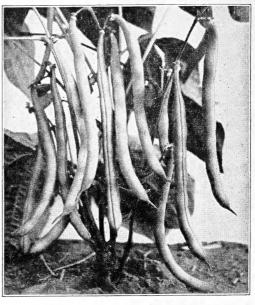

Asparagus Seed

CULTURE—The seed is of slow germination and should be planted early in the season. Plant roots in well drained soil about two feet apart in the row and 4 to 5 feet between rows. We offer free cultural directions.

MARY WASHINGTON — Heavy yielding with large green stalks of fine quality Practically immune to rust and other diseases. We carry a special selected strain. Postpaid. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$1.85. Not prepaid, 5 lbs. @ \$1.65 lb.

PARADISE—This variety has the same rich green color and delicious mild flavor as Mary Washington. It is very early, also resistant to rust and a heavier yielder. Postpaid. Pkt. 15c; oz. 50c; 1/4 lb. \$1.25; lb. \$4.00.

CALIFORNIA 500—A new strain of Mary Washington producing larger stalks and with very uniform heads. Earlier than Mary Washington. Postpaid. Pkt. 15c; oz. 60c; ¼ lb. \$1.50; lb. \$4.50.

Beans, Longreen

Asparagus Roots

MARY WASHINGTON — No. 1. Postpaid. Doz. 60c; 50 for \$1.70; 100 for \$2.75. Not prepaid, 1000 for \$14.00.

PARADISE—No. 1. Postpaid. Doz. 75c; 50 for \$2.00; 100 for \$3.00. Not Prepaid, 1000 for \$15.00.

Printed Radio Garden Talks

We can mail you a complete set of 13 Radio Garden Talks made in 1952. These are free upon request.

BUSH BEANS

CULTURE — Plant about May 1st for early beans, or as soon as the ground becomes warm, in rows $2\frac{1}{2}$ to 3 feet apart except pole beans, $3\frac{1}{2}$ to 4 feet. Cover from $1\frac{1}{2}$ to 3 inches deep according to weather conditions. Large seeded beans require warmer weather to germinate than small beans. Never cultivate or hoe beans when the foliage is wet from dew or rains, as it will cause rust. Where beans have not previously been grown on the land it is valuable to use NITRAGIN. Our radio talk on beans sent free upon request. All white seeded beans need careful planting for early crops as they do not stand cold ground like colored beans. Early bush beans can be planted up to August 1st in the western parts of Pacific Coast states.

PRICES—Unless noted at higher rates, are uniformly: Postpaid. Pkt. 10c; ½ 1b. 35c; 1b. 60c. For 4th zone and beyond, 1b. 65c. Not prepaid, 1b. 55c; 5 1bs. of one variety@50c 1b.; 10 1bs.@45c. Write for prices on larger quantities.

*LONGREEN—A more vigorous grower and with pods one inch longer than Tendergreen. Heavier producer than Tendergreen and equal in quality. This fine variety is becoming very popular. It is commanding great favor from both home and market gardeners. It is of highest quality and really stringless, when either young or old.

*RANGER—All-America bronze medal 1947. Noted for disease resistance and high yield. Can be used for green snaps or dry as baking beans. Pods round, 5 inches. Mostly straight, stringless, silvery green, the set largely concentrated in the crown. Seeds white, medium small. 56-60 days to maturity. Postpaid. Pkt. 15c; ½ 1b. 40c; lb. 70c.

BACHICHA (Italian Bush Bean)—This is one flat podded bush bean that is free from strings or fiber. A rich, mild flavored early bush bean with long, flat, green pods. A vigorous grower producing heavy yields. Here is a high quality bean sure to become very popular.

-2-

*WADE BUSH ('53 All America Gold Medal) — Long, straight, meaty, dark green stringless pods, 5½ to 6 inches long. Mosaic resistant and adapted for freezing and canning. Try this outstanding new bean. Postpaid. Pkt. 15c; ½ lb. 40c; lb. 75c.

*TENDERLONG — Plants erect and vigorous, pods similar to Tendergreen but longer. Pods dark green, round and entirely stringless and of fine quality. A splendid bean of the Tendergreen type. Postpaid. Pkt. 15c; ½ lb. 40c; lb. 75c.

*GILL'S RELIABLE—A pioneer bean found under various names throughout the Pacific Northwest. This strain has been grown in our family for over 60 years. A very popular bean with our customers. Remarkably hardy and prolific with very few superiors either as a green or dry bean. The small white seeds are also fine for baking. Green pods without fiber, meaty and fine flavored. In the older stages they need stringing. Outstanding for canning and freezing. Postpaid. Pkt. 10c; ½ lb. 35c; lb. 65c.

*SUPERGREEN—All-America bronze winner. Pods 7 inches long, slim, smooth, dark green and stringless in all stages. Vine is 17 inches upright with fairly concentrated pod set. Compared to Tendergreen the pods are slightly longer and more slender. This bean is ideal for home use, canning or freezing.

*TOPCROP (New)—All-America gold medal winner 1950. Pods medium light green, round, straight to slightly curved, 5½ to 6 inches long, fairly smooth, stringless, with no fiber. Vigorous plants producing heavy crops maturing in about 50 days. Immune to bean mosaic. Recommended for home and market use, also for canning, freezing and shipping. Postpaid. Pkt. 15c; ½ lb. 35c; lb. 65c.

*IMPROVED BURPEE'S STRINGLESS GREEN POD—One of the best early bush beans. The pods are green, of good length, entirely stringless, tender and brittle and remain so until nearly ripe. This brown-seeded bean is both early and hardy and one of the richest flavored beans of all. A popular market or garden bean and desirable for canning or freezing.

*STRINGLESS BLACK VALENTINE
—Very hardy; extremely early, withstanding cold, damp weather better then
most sorts. Pods dark green, long,
straight, stringless, and nearly round.

*RUBY DWARF HORTICULTURAL— Large, flat shaped pods valuab'e for green snap or shell beans. Seed and pods striped and blotched with bright red. Extra fine quality.

REASONABLE PRICES

Our prices are reasonable considering the quality; also increases in transportation, labor and other costs.

Wax Podded Bush Beans

PRICES — Uniformly, Postpaid. Pkt. 10c; ½ lb. 35c; lb. 65c. For 4th zone and beyond, lb. 70c. Not prepaid, lb. 60c; 5 lbs. @ 55c per lb.; 10 lbs. @ 50c lb.

PUREGOLD WAX—A bean of rich pure gold color, the deepest yellow. Tremendously productive with pods 6 inches long and nearly straight. The quality is very good, being nearly stringless at full development. Quite resistant to disease and ideal for market gardeners.

*PENCIL POD BLACK WAX—Hardy and prolific and of finest quality. Pods bright waxy yellow, long and round and entirely free from strings. Desirable for home or market and very valuable for canning. Deep yellow pods.

*ROUND POD KIDNEY WAX or Brittle Wax—Extra early; very vigorous and productive. Long, straight, round pods that are entirely stringless. One of the finest for canning and home use.

POLE BEANS

PRICES—Unless noted at higher rates, are uniformly. Postpaid. Pkt. 10c; ½ lb. 35c; lb. 65c. For 4th zone and beyond, lb. 70c. Not prepaid, lb. 60c; 5 lbs. of one variety @ 55c lb.; 10 lbs. @ 50c lb. Write for prices on larger quantities.

*GILL'S DELICIOUS GIANT — Every year this variety increases in popularity. In this cross between Oregon Giant and Kentucky Wonder, we originated a variety twice as productive as Oregon Giant, of better quality—and we believe the easiest bean of all to pick. The beans are produced in clusters of 4 to 6, the stems of which protrude outside of foliage. The pods are green, faintly striped with red lines which disappear when cooked. Ideal for the table or for can-ning or freezing, so do not fail to order this. They are very meaty, mild and stringless with pods often 10 inches long. Our sales now exceed the popular Oregon Giant for home gardens. Crop very short. Pkt. 15c; 1/2 lb. 40c; lb. 75c.

*BLUE VICTOR—A very popular bean. The pods are large, long and somewhat flat in shape. The meat is thick, of finest quality, and stringless. The pods are reddish purple but when cooked the color changes to light green. One of the finest high quality beans. You will like this. Crop very short. Pkts. only @ 15c.

*OREGON GIANT—Giant pods a foot long; light green striped carmine. This wenderful bean is now sold by market gardeners at high prices. The quality is good even in the largest beans. Its giant size does not detract from its splendid quality. Pods thick meated, mild and free from fibre but the fully developed pods can be strung like the Kentucky Wonder. Pods a foot long and with large seeds developed are still good to use.

*BLUE LAKE STRINGLESS — White seeded like the original Blue Lake, discontinued in favor of this better type. The pods differ from Blue Lake, being stringless at all stages, fully round, somewhat longer and of darker green color. White seeds, oval and small. Blue Lake beans are today rated as one of the finest commercial canned and frozen beans and this stringless type far excels the old strain.

*ITALIAN OR ROMAN—An old favorite with Italian people. It can be used as a green snap bean or as a shell bean. In either case it is very high in quality. Large, flat pods of medium length. Green, stringless pods of attractive appearance. A vigorous pole bean producing heavy yields.

*KENTUCKY WONDER — A standard variety often called Asparagus Bean. It produces exceptional yields of long, green pods of fine quality.

*BRILLIANT WONDER (New, 1951)—The White Seeded Brilliant Horticultural. Another introduction from Gill Bros. Seed Co. farm. This special selection was noticed and developed by Edward Gill. The ideal bean for use as a butter bean. Very mild white seeds, sometimes very faintly marked with light tints when near maturity. Pkt. 15c; ½ lb. 50c.

*BRILLIANT HORTICULTURAL (Cranberry) — This special stock has a much brighter stripe than the old strains. This type is becoming more popular each year. Two weeks earlier than the old strains. Pods green, streaked with red, changing lighter at shell stage with bright red stripes. Excellent used as a green snap bean or for shell or dry beans. Crop short. Pkt. 10c; ½ lb. 40c; lb. 70c.

STRINGLESS BLUE LAKE, BLACK SEEDED—The pods are stringless; about 7 inches long, straight and round. Hardy and vigorous and a heavy producer of the finest quality beans. For home gardens it is ideal and produces heavier crops than the White Seeded Stringless. Ideal for market gardeners.

*WHITE SEEDED KENTUCKY WONDER — Many gardeners prefer this to Kentucky Wonder. Earlier, more productive, stringless and good quality.

*KENTUCKY WONDER WAX — Vigorous and productive. Pods waxy yellow, large, stringless and of excellent quality. Best yellow pole bean.

YARD LONG—Vigorous vine 6' tall with rank, dark green foliage. Very slender pods, 18" to 26" long. Small seed of reddish brown. The pods are often sold in bunches. Pkt. 15c; ½ lb. 45c.

We supply several thousand market gardeners and florists with our seeds. If you have not used our seeds and bulbs why not try us this year.

Bush Lima Beans

PRICES—Unless noted are uniformly: Postpaid. Pkt. 10c; ½ lb. 35c; lb. 65c. For 4th zone and beyond, lb. 70c. Not prepaid, lb. 60c; 5 lbs. of one variety @ 55c lb. Write for prices on quantities.

FORDHOOK No. 242 — Plants tall as regular Fordhook but with greater spreading habit. Pods slightly curved with thinner walls than Fordhook, containing 3 or 4 light green beans of same excellent quality. Yields good under conditions of high temperature. Dry beans, greenish cream and light green. Pods 3½ inches long, 1 inch wide and 75 days to maturity.

*HENDERSON'S BUSH (Baby Lima) —Early, heavily productive. Thrives in ordinary soil. Adapted for home use, canning and freezing. Early, small lima of high quality. Pkt. 10c; ½ lb. 30c; lb. 55c.

IMPROVED BURPEE'S BUSH LIMA—Large seeded; very productive. One of the best large types.

CONCENTRATED FORDHOOD LIMA—Potato Lima type. Plants large and very productive. The seeds are very large and flat and are ideal as butter limas or for use when ripe.

Pole Limas

PRICES—Unless noted are uniformly: Postpaid. Pkt. 15c; ½ lb. 35c; lb. 65c. For 4th zone and beyond, lb. 70c. Not prepaid, lb. 60c; 5 lbs. of one variety @ 55c lb.; 10 lbs. @ 50c.

CHRISTMAS LIMA (See cut) — This unusual pole lima excels for quality and production. When cooked in either dry or green shell stage the seed turns to a pink-brown color and the stripe disappears. In the shell stage they are sweet as though they had been sugared lightly. In either dry or shell stage the skin is thin and tender. We have tested many lima varieties but none equals this for high quality and production so we be-lieve it is the best for our Pacific Northwest states where cool Summer nights usually prevail during the growing season. The seeds are very flat but quite large and every seed is white, striped with deep crimson as shown in the illustration. Vigorous vines 7 to 9 feet tall, foliage rather thin and of medium size. Pods 5 to 5½ inches long and about one inch wide, usually carrying 3 beans to the pod. We urge our home garden customers to try this grand lima.

KING OF THE GARDEN—A large, flat lima of great vigor and heavy production. Seed white in dry stage but creamy green in shell condition. It alsoproduces well in the Pacific Northwest. A splendid sort for canning or freezing. Vines 7 to 9 feet, pods 5½ to 6 inches long with 4 to 5 thick, flat seeds.

OREGON LIMA (White Seeded Runner)—A large pole lima, extra early and suited for Pacific Northwest culture. It ripens in about 75 days from planting. Excellent used as a shell bean or stored dry for winter use. Extra large, plump, pure white seed. In the milder climates it often lives through the winter and produces a crop the second year.

Soy Beans, Edible

ottawa—A new, extra early variety that will mature even in sections with short seasons. Fine quality. This new variety insures full ripening of the seed in the Pacific Northwest. After testing several of the earlier varieties, we consider this the best for the Pacific Northwest states or any of the Northern states where earliness is an important factor. Postpaid. Pkt. 15c; ½ lb. 35c; lb. 65c.

Garbanza

This plant is well known in Mexico and Southern California and it will do well in northern climates. Often called "Coffee Bean," "Chick Pea" and "Acorn Pea." Dwarf bushy plants, about one foot high, with round, puffy pods containing 2 to 3 large seeds. These are used when ripe much like beans for baking or boiling. Very nutritious, running high in protein. Postpaid. Pkt. 15c; ½ lb. 35c; lb. 60c.

Baking Beans

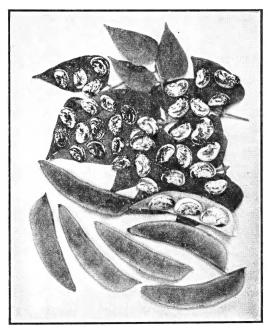

PRICES—Unless noted: Postpaid. Pkt. 10c; ½ lb. 30c; lb. 50c. For 4th zone and beyond, lb. 55c. Not prepaid, lb. 45c; 10 lbs. of one variety @ 40c lb.

*GIANT RED POLE—This grand new bean has long straight pods with extra large red beans. They are ideal as shell beans or for dry beans. Production is immense. Very early and resistant to dry weather. Large seeds, long in shape. An Ed Gill selection from Brilliant Horticultural. Pkts. only, 20c each.

*MICHELITE PEA BEANS — Small, pure white seed of rounded shape. It is early and ripens evenly. It produces heavily and is much better than Navy beans where seasons are short for ripening or curing. Earliest strain of commercial small white beans.

*GREAT NORTHERN — White beans, larger than Navy. Hardy, early and heavy yielding. Similar to Lady Washington.

*DARK RED KIDNEY—Easily grown. Excellent quality. Large red beans for baking. An early maturing prolific sort.

Lima Beans, Christmas-Page 4

Broad Windsor Beans

MAMMOTH LONG PODDED — The English Broad Beans or sometimes called "Horse Beans." Near the coast these can be planted in the Fall. Generally planted very early in the Spring. Green shell beans, large, broad, flat and light green. Postpaid. Pkt. 10c; ½ lb. 35c; lb. 60c.

Sugar Beet

KLEIN WANZLEBEN — The best for making sugar. It is also valuable for feeding purposes. Pkt. 10c; oz. 20; ½ lb. 45c; lb. \$1.50.

Swiss Chard

RHUBARB CHARD—Large, wide and tall leaves with fairly large ribs of deep crimson color. Foliage heavily toned red with purple tints. Very productive and of rapid growth. Brilliant foliage of high quality. Many home gardeners have rated this as the best of Swiss Chards. Postpaid. Pkt. 15c; oz. 40c; 1/4 lb. 95c; lb. \$2.50.

FORDHOOK GIANT — Larger, darker green with more wrinkled leaves than Lucullus. Stalks white. Outstanding for size and quality. Postpaid. Pkt. 10c; oz. 30c; ½ lb. 70c; lb. \$1.60.

LUCULLUS—Grows about two and a half feet high. The heavy stalks are over an inch wide and bare for more than a foot of their length. Can be served as you would asparagus. The leaves make very fine greens. Postvaid. Pkt. 10c; oz. 30c; ¼ lb. 70c; lb. \$1.60.

<u>—5</u>—

TABLE BEETS

CULTURE — Plant in rows 2 to 2½ feet apart, with drill. April 1 to July 15. Thin to 3 or 4 inches apart for table beets and 8 to 12 inches for mangels. For Winter beets the latest sowing is best.

PRICES—Unless noted are uniformly: Postpaid. Pkt. 10c; oz. 30c; ¼ lb. 65c; lb. \$1.60.

*GARDENER'S MODEL - This outstanding beet was developed here on our own farms. For over 30 years we have been selecting this strain. Every year an increasing number of home and market gardeners favor this beet. It has great uniformity. The interior color is much darker due to our selections. A splendid all around table beet for home or market. It is extremely early, of smooth, uniform shape. The flesh is dark red, entirely free from strings or core and unusually The tops stand tall and erect. Valuable for both greens and roots. This variety will stand longer than any and still keep tender. Generally immune to curly top disease. Very popular with market gardeners in many sections, especially for early bunching. Seed of our own selection. Postpaid. Pkt. 10c; oz. 35c; 1/4 lb. 85c; lb. \$2.00.

PERFECTED DETROIT — This produces taller tops than Detroit Dark Red with roots of more flattened turnip shape. On account of its nearly zoneless deep blood red flesh, it is popular for home and commercial canning.

DETROIT DARK RED — Splendid for market or home gardens and popular with canneries. Roots nearly round, very uniform and of medium size; flesh tender and blood red. We carry an extra select strain. Splendid for canning and the outstanding beet for deep red color.

CROSBY EGYPTIAN — Our special stock is ideal for market gardeners. Flatglobe or turnip shaped beets with small tap roots and dark red skins. Flesh purplish red with lighter zones. Matures quite early. Smooth beets free from side roots.

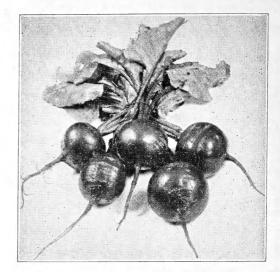

EARLY WONDER — Deep blood red, nearly globe shaped, with small, clean tap roots and small tops. One of the earliest and most uniform bunching beets that can be grown and also very fine for late planting. They mature very evenly.

EXTRA EARLY EGYPTIAN — The earliest; rather flat roots of fine quality.

GREEN TOP BUNCHING — Greenish red tops, ideal for beet greens, also fine for bunching. Deep red flesh.

Cardoon

LARGE SMOOTH—A perennial winter vegetable grown for the fleshy leaf stalks which are bleached like celery. Used for salads or in soups. Postpaid. Pkt. 15c; oz. 45c; ¼ lb. \$1.25.

Beet, Gardener's Model

Mangel Beets

PRICES ON MANGELS UNIFORM-LY: Postpaid. Pkt. 10c; oz. 25c; 1/4 lb. 60c; lb. \$1.50.

DANISH SLUDSTRUP—Long, reddishyellow; grows well above the ground. A giant in size and one of the most popular Mangels.

GIANT HALF SUGAR—Cross between a mangel and sugar beet. Flesh white and exceedingly rich.

MAMMOTH LONG RED — Selected strain. Very heavy cropper.

GIANT YELLOW ECKENDORF—Giant, smooth, long roots of cylindrical shape, weighing up to 20 pounds each and growing two-thirds above ground. Solid white flesh with high food value.

Celtuce

A vigorous growing vegetable for salad and greens. Plant early in the Spring or in mid-August. The leaves and young seed stalks are used for salad or greens. It is also an exceptionally fine plant for poultry feeding. It makes a very heavy crop even in warm weather. Plant the seed where it is to grow, thinning to one foot apart. Postpaid. Pkt. 15c; 1/4 oz. 35c; oz. \$1.00; 1/4 lb. \$3.00.

Chicory

LARGE ROOTED — Chicory does well in this climate and is an excellent substitute for coffee. Plant like carrots. Postpaid. Pkt. 15c; oz. 60c; ¼ lb. \$1.75.

WITLOOF or FRENCH ENDIVE—The roots are transplanted and the shoots are bleached for Winter use as a salad. Postpaid. Pkt. 15c; oz. 60c; ¼ lb. \$1.75.

--6-

CABBAGE

CULTURE — Early varieties should be sown in the open ground in early September or in cold frame in January or February. We do not recommend sowing in hotbeds, as plants will be too tender. For earliest cabbage, transplant Fall sown plants in late October or early November. For late, sow seed in open ground May 1st, transplant June 15th for Fall, and July 1st to August 1st for Winter cabbage, in rows 3½ feet apart, from 25 to 36 inches in the row, according to the richness of the soil, size and variety. Do not crowd them. They do best in rich, loamy soil, fertilized with barnyard manure of any kind and any good well-balanced commercial fertilizer. Early Jersey Wakefield, Large Wakefield, All Head Early, Danish Ballhead and Oregon Ballhead can be sown in the Fall for Spring and Summer cutting. They seldom run to seed. Golden Acre, Copenhagen Market and Glory of Enkhuizen will not Winter over without running to seed.

PRICES—Unless noted: Postpaid. Pkt. 10c; ½ oz.35c; oz. 65c; ¼ lb.\$1.60; lb.\$4.65.

*GILL'S OREGON BALLHEAD—The acknowledged leader in the Pacific Northwest for a main crop Winter cabbage. We have developed this strain until it excels all others for solidity, resistance to aphis and freeze injury. It is the best cabbage for crating or general market purposes. The outer leaves are deep green and will hold their color weeks after cutting. It is the best keeper of all. The outstanding commercial cabbage and the most popular Winter sort. We believe this is the most persistent heading of any Winter cabbage. Often when planted too late in the Summer for full maturity the heads develop hard and ready for market in February or March. Seed of our own growing. Postpaid. Pkt. 10c; $\frac{1}{2}$ oz. 40c; oz. 75c; $\frac{1}{4}$ lb. \$1.75; lb. \$5.25.

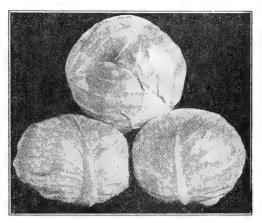

*SIEDL BALLHEAD — Small, solid heads weighing about 3 to 4 lbs. Stems short with round, uniform heads. Valuable for crating and local sales where small solid heads are in demand. This splendid cabbage has made a hit with market gardeners. The seed is in short supply. Order early. It is earlier than Oregon Ballhead. Postpaid. Pkt. 15c; ½ oz. 45c; oz. 80c; ¼ lb. \$2.00; lb. \$5.50.

EXTRA EARLY EXPRESS—The earliest cabbage, with small pointed heads. It can be sown in the Fall. Heads not as solid as Early Jersey Wakefield but earlier. Postpaid. Pkt. 10c; ½ oz. 40c; oz. 70c; ¼ lb. \$1.75; lb. \$5.00.

*DANISH BALLHEAD (Short Stem)
—This is the regular Ballhead type so long imported from Denmark. Somewhat earlier than Oregon Ballhead. This is a fine strain of Danish Ballhead of our own growing. Medium sized head, very solid and of good quality.

COPENHAGEN MARKET — Good sized, round heads, maturing with Large Wakefield, usually weighing 5 to 6 lbs. Postpaid. Pkt. 10c; ½ oz. 40c; oz. 70c; ¼ lb. \$1.75; lb. \$5.00.

DANISH ROUNDHEAD — Somewhat larger than Danish Ballhead. Valuable for kraut and for planting in the Spring for Summer cutting. Imported seed. Postpaid. Pkt. 10c; ½ oz. 40c; oz. 70c; ¼ 1b. \$1.75; lb. \$5.00.

Cabbage, Gill's Oregon Ballhead

*PORTLAND ROUNDHEAD — Developed by a local gardener. Heads larger than Danish Ballhead and Oregon Ballhead. Valuable for late summer markets and for kraut in the fall. A very popular sort for these purposes. Heads rounded in shape and very solid. Postpaid. Pkt. 10c; ½ oz. 40c; oz. 70c; ¼ lb. \$1.75; lb. \$5.00.

EARLY JERSEY WAKEFIELD — This is still very valuable for the earliest crop of hardy cabbage. We have secured a special strain with solid heads and few outside leaves. It also matured the earliest of some twenty strains we tested. Valuable to sow in the Fall for transplanting in the early Spring. In some sections this variety is sown for greens like collards. Use before the heads form.

GLORY OF ENKHUIZEN — Best variety for Summer or early Fall for its tendency is to produce large heads even in dry weather. It can be used for early Spring crops. It is not satisfactory as a Winter cabbage. Tender and sweet.

ALL HEAD EARLY — A second early, flat headed sort, very sure heading and little subject to bursting. Extra fine for kraut. Very desirable for Fall.

GOLDEN ACRE—Super Early Strain. An extra early round-headed fine quality cabbage, maturing with Early Jersey Wakefield. The heads are firm with few outer leaves and average about four pounds. Pkt. 10c; ½ oz. 40c; oz. 70c; ¼ 1b. \$1.75; lb. \$5.00.

CABBAGE PLANTS See Page 56 BONANZA (New)—A valuable shipping and market variety. Forms a small firm head early in the season and continues to grow to full size. Can be harvested early or held in the field for a considerable time after maturity without loss, if markets are unfavorable. Heads almost round, very firm and uniform. Has a very short core, therefore slow to run to seed. Average diameter 6½ in, weight 4 pounds. Days to maturity, 75. Pkt. 15c; ½ oz. 75c; oz. \$1.25; ¼ lb. \$3.50; lb. \$9.50.

*RED STONEHEAD—Very solid heads of Ballhead type. Deep red and of high quality. An extra fine Winter cabbage. Pkt. 10c; ½ oz. 40c; oz. 70c; ¼ lb. \$1.75; lb. \$5.00.

*PENN STATE BALLHEAD—Largest of the Ballhead types. Short stems and a late variety desirable for Winter storage. We carry a very fine strain of this variety in seed of our own growing.

WINTER KEEPER—A splendid Ballhead type ideal for late crops and Winter storage. Solid heads of medium size with medium green foliage. Pkt. 15c; ½ oz. 45c; oz. 80c; ¼ lb. \$2.00; lb. \$5.50.

GREEN ACRE—The type and general characteristics are the same as Golden Acre but it holds its green color longer. Valuable for shippers. Pkt. 10c; ½ oz. 40c; oz. 70c; ¼ lb. \$1.75; lb. \$5.00.

ROUND RED DUTCH or RED ACRE—Heads round, solid; about 6 inches in diameter, weighing 3 to 5 pounds. Deep red and a good shipper. Early, maturing in 80 days. Pkt. 15c; ½ oz. 45c; oz. 80c; ¼ lb. \$2.00; lb. \$5.50.

CHIEFTAIN SAVOY — The best main crop Savoy cabbage; quite firm, large heads with curly foliage.

Corn Salad

Used in Spring or Winter salads but usually mixed with more piquant herbs. May also be cooked like spinach. Pkt. 15c; ½ oz. 40c; oz. 75c; ¼ lb. \$2.00.

Cress

FINE CURLED (PEPPER GRASS) — Grows quickly from seed. Sow thinly in drills. Should be planted at intervals as it runs to seed quickly. Postpaid. Pkt. 10c; oz. 45c; ¼ lb. \$1.00.

WATER CRESS — Perennial aquatic plants. Small, thick leaves with pungent flavor for salads and garnishing. Pkt. 15c; 1/4 oz. 40c; oz. \$1.40.

We specialize in high grade cauliflower seed. We believe we can give you good satisfaction. Please try our seeds.

Green Broccoli, Medium Calabrese

GREEN BROCCOLI

A valuable Italian vegetable forming heads of deep green, just about the same color as the foliage. After the main head is cut, smaller heads branch out below. It is very tender, nutritious and delicious, and can be raised like cabbage. Plant the seed June 1st to 20th and transplant July 15th to August 10th, in the same manner as other cauliflower or broccoli. It is very hardy and is not injured by light or white frost, so needs no protection. Do not attempt to grow this for summer use except near the coast. It can be planted from seed in rows of 3 feet apart and thin to 12 inches in the row. In this case plant the seed about July 1st.

MEDIUM CALABRESE — This middle season variety is mostly planted for commercial crops. Dark green heads of finest quality. We carry a fine type and sell large quantities to processors and market gardeners. Postpaid. Pkt. 10c; ½ oz. 40c; oz. 70c; ¼ lb. \$1.75; lb. \$4.00.

EARLY STRAIN—A splendid early sort producing large compact heads ready for market in about 70 days from planting of the seed in the open. This can be planted later than the other later varieties and is useful for those regions near the ocean for Summer cutting. Pkt. 10c; ½ oz. 40c; oz. 70c; ¼ lb. \$1.75; lb. \$4.00.

MIDWAY—Mid-season with plant and head characteristics similar to DeCicco. Being slow to flower, is adapted for fall harvests. Prices same as Med. Calabrese.

WALTHAM No. 29—Ideal for commercial freezing. Compact, uniform heads. A new variety which has been given much attention. Postpaid. Pkt. 15c; ½ oz. 50c; oz. 80c; ¼ lb. \$2.00; lb. \$5.50.

Dandelion

IMPROVED THICK LEAVED—Far superior to the uncultivated plant. Valuable for early Spring greens. Postpaid. Pkt. 15c; ½ oz. 45c; oz. 80c.

CAULIFLOWER

CULTURE — For early cauliflower, start in cold frames. For Fall cutting, Green Broccoli and all Snowball types should be planted June 1st to 20th and transplanted July 15th to August 10th. Late cauliflower and Winter cauliflower can be planted the first week in May, transplanted July 1st to 25th. For Winter cauliflower plant the first week in May, transplanting July 20th to August 10th. Cauliflower and broccoli do best in a rich, loamy soil, not a cold, wet location. Plant 2½ to 3 feet in rows and 3½ feet between rows. Before the heads are large enough to be exposed to the light, tie or break the leaves carefully over the head to keep out the light. Great care should be used in growing plants of any of the Snowball type that they receive no severe check in their growth, as this will cause them to produce premature heads.

Snowball Types

PRICES—Uniformly unless noted are: **Postpaid.** Pkt. 15c; ½ oz. 75c; oz. \$2.85; ½ 1b. \$7.50; lb. \$20.00.

SNOWBLINK — A large, very solid, white head. Ideal for market gardeners and very sure heading.

HELIOS—Rated as especially good for Summer cutting. Large, solid, snowwhite heads with good foliage covering.

SUPER SNOWBALL—An outstanding early variety producing heads of uniform size, shape and type. The heads are almost round with pure white, smooth curd. Tall foliage protects the heads. A favorite for early crops.

SNOWBALL No. 16 — Early and produces large, thick, solid, white heads. Stands up well under rather unfavorable weather conditions. One of the best shipping varieties and ideal for canning or freezing. Good for Summer or Fall cutting.

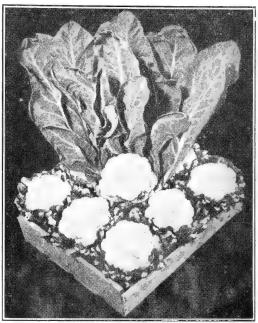

SNOWDRIFT—This fine strain matures with great evenness. The pure white heads are remarkable for their great depth and unexcelled white color. The curd is of fine texture and quite resistant to riceiness and fuzziness. The large, solid heads are well protected by the foliage.

master snowball—Very early with large heads, well protected with good leaves. This cauliflower has been well received by market gardeners. Pkt. 20c; ¼ oz. \$1.00; oz. \$3.00; ¼ lb. \$9.00; lb. \$25.00.

Late Cauliflower

NOVEMBER - DECEMBER — An improved Veitches Autumn Giant. Requires a long growing season. Especially suited to Pacific Coast states. This makes large solid heads of finest quality. For inexperienced growers this is the easiest to grow. Plants grow rather tall with long heavy ribbed leaves. It does not make premature or "fool heads." See cultural directions above. Postpaid. Pkt. 15c; ½ oz. \$1.00; oz. \$1.90; ¼ lb. \$5.25; lb. \$15.50.

PURPLE CAULIFLOWER (Sometimes called Purple Broccoli)—Beautiful purple head that cooks a light green. Plant same as November-December variety. The sweetest, most tender of all cauliflower types. Postpaid. Pkt. 15c; ½ oz. \$1.25; oz. \$3.50.

Cauliflower, Helios

Winter Cauliflower

(or Cauliflower Broccoli)

Due to confusion with green Broccoli we will list this according to the above. This type of Cauliflower is adapted to the West Coast and Southern States. They are usually killed by winter cold lower than 15 degrees above zero.

*ST. VALENTINE OREGON SPECIAL
—The best sort for Spring shipment; the solid white heads being of immense size and ready in February and March.

This special stock is well typed. Much seed offered is inferior, but you will find this strain well developed for commercial crops. Thirty years of selection, beginning with St. Valentine, has resulted in an outstanding type for market. Our selection gives excellent leaf protection for the heads. Selected seed of our own growing. Postpaid. Pkt. 15c; ¼ oz. 55c; oz. \$1.75; ¼ lb. \$5.00; lb. \$15.00.

LATE MARCH—A little later than St. Valentine Oregon Special, and is popular in California. **Postpaid. Pkt. 15c**; $\frac{1}{2}$ oz. \$1.00; oz. \$1.75; $\frac{1}{4}$ lb. \$5.00; lb. \$15.00.

APRIL—Another fine variety of Spring heading, white cauliflower. In Western Oregon transplant about Aug. 1st to 20th. The later maturity makes a good succession to follow St. Valentine Oregon Special and late March. Pkt. 15c; ½ oz. \$1.00; oz. \$1.75; ¼ lb. \$5.00; lb. \$15.00.

-9-

Brussels Sprouts

*CATSKILL—After growing this outstanding Brussels Sprouts we consider it the best variety we have ever grown. Plants of medium size producing an immense crop of solid, dark green sprouts set close together. The sprouts are larger than most sorts and very heavy. The best for home gardens or market gardens. Matures quite early. Seed of our own growing. Postpaid. Pkt. 15c; ½ oz. \$1.00; oz. \$1.85; ¼ lb. \$6.00; lb. \$17.50.

*OREGON SPECIAL—A special selection by an Oregon gardener. Hard heads of dark green color. One of our best varieties. Postpaid. Pkt. 10c; ½ oz. 40c; oz. 65c; ¼ lb. \$1.85; lb. \$5.00.

*KONDO SPECIAL — A well selected variety of medium height and deep green, solid heads. This is very popular with local gardeners. A splendid commercial variety. Pkt. 10c; ½ oz. 55c; oz. \$1.00; ¼ lb. \$3.00; lb. \$9.00.

LONG ISLAND IMPROVED — Grows 2 feet tall, thick set with solid sprouts about $1\frac{1}{2}$ " in diameter; dark green and of fine quality. Pkt. 10c; $\frac{1}{2}$ oz. 40c; oz. 65c; $\frac{1}{4}$ lb. \$1.75; lb. \$5.00.

Chinese Cabbage

WONG BOK PAOTING — A delicious vegetable from China, excellent for salads and cole slaw, and is sometimes used like Swiss Chard. The stems can be used like celery. Plant seed in Aug. as it will go to seed when planted in Spring. Thin to 18 inches apart. Use plenty of good complete fertilizer to secure a quick, strong growth. Postpaid. Pkt. 10c; oz. 35c; 1/4 lb. \$1.10; lb. \$3.75.

MICHIHLI — A newer variety, exceptionally sure heading and a great improvement over Chihli type. Foliage dark green; heads 4 inches thick, 18-20 inches tall, tapered near tip, well blanched, crisp and tender. Pkt. 15c; oz. 50c; ¼ 1b. \$1.35; lb. \$4.25.

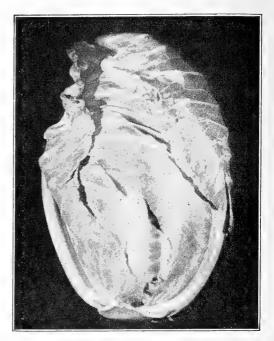

TRANSPLANTED SPECIAL SELECTION—A carefully selected strain producing very uniform, solid heads of medium height. A special development from the Paoting type. Pkt. 15c; ½ oz. 55c; oz. \$1.00; ¼ lb. \$2.50; lb. \$7.50.

Dil

MAMMOTH—Easy to grow and used for flavoring pickles. Postpaid. Pkt. 10c; oz. 20c; ¼ lb. 40c; lb. \$1.00.

RADIO TALKS

Radio talks by Ray W. Gill will begin about February 1 on 20 or more stations in Oregon, Washington, Idaho, Northern California, Western Montana, also in Salt Lake and Denver. Please check your station programs. Send for list of radio stations.

Caulicab, as a Spring Crop

*Caulicab

After years of selection we originated and offered this entirely new type of vegetable in 1949. It is the beginning of a new race. When planted in the Spring along with the first early cabbage it matures solid heads in the early Fall. When grown this way it is distinguished by the large ribs running nearly to the top of the heads and clear through the heads. When planted in the late Summer they head the next Spring, then the mature heads have an outer layer of cabbagelike leaves, but with the main part of the head filled with tightly folded sprouts and buds of amber color. In either case they are very tender and sweet and ideal for raw salads or cooking. It is a cross between cabbage and Winter cauliflower. The flavor is different from either and is very mild. The cross includes St. Val-entine Spring cauliflower and results in the most vigorous growth. Plants often stand 3 feet tall with large, long leaves, inclined to curl and twist. They will stand cold weather down to 10 above zero. It is claimed by customers that it does not cause gas like cabbage or cauliflower. Even if the heads burst in the Spring and become green they are superior to green broccoli, being milder and more tender. A very nutritious vegetable. In those parts of the nation where cabbage will not stand through the Winter, without severe damage, it should be transplanted in the Spring when early cabbage plants are set out. Postpaid. Pkt. 25c; ¼ oz. \$1.25; oz. \$3.50; ¼ lb. \$10.00; 1b. \$30.00.

CARROTS

CULTURE — Carrots may be planted from March to August 1. We prefer to plant from May 10 to 30; they will then miss many of the Spring weeds and will stand through the dry season better, making a better quality of roots. Plant in rows $2\frac{1}{2}$ feet apart covering one-half to one inch, according to weather conditions. Those who plant any quantity should use a good drill, as it lessens the work and gives a more even stand. As soon as they are up, use a wheel hoe, following this with a cultivator having small teeth.

PRICES—Unless noted: Postpaid. Pkt. **10c**; oz. 30c; ¼ 1b. 85c; 1b. \$2.00.

GILL'S OREGON CHANTENAY—A fine market carrot, either for bunching or sack, and sold by some seedmen as Long Chantenay and Greater Chantenay. We are the originators. A special strain of our selection producing very smooth roots about two inches longer than the regular strain and of more even diameter the whole length of the carrot. It is very popular with gardeners. The tops are of medium size, tough and wiry, hence the carrots seldom break from the bunches. The roots are rich red color with small core. Very high quality. Also valuable for planting late in the season.

GILL'S SPECIAL NANTES—The roots are bright orange, 6 to 8 inches long and very uniform. They have a very small core and are exceptionally tender and sweet. The roots are rather slender, of even diameter and of early maturity. Very desirable for market, especially for bunching, and also splendid for the home garden. We offer a fine, re-selected strain grown from our stock seed. This variety is very popular with market gardeners. The tops are larger and stronger than the regular stains of Nantes or Coreless and this has not reduced the quality. Postpaid. Pkt. 10c; oz. 35c; ¼ lb. 95c; lb. \$2.50.

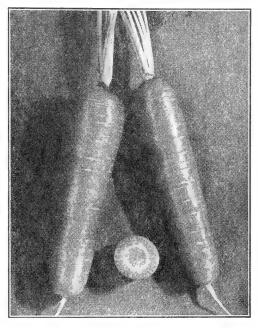

IMPERATOR, LONG TYPE—A new strain developed for bunching, also for dehydration. Tops medium, abundant and strong enough for good bunching. Roots long, slender in proportion to length, smooth and tapering to semiblunt ends. Flesh of rich orange color. It is noticeably longer and more evenly tapered than regular Imperator. Ideal for loose peat and sandy soils.

IMPERATOR—A good market carrot. Roots long, smooth and of rich red color with small core. Very popular for bunching and for late crops.

TABLE GEM or AMSTERDAM — We believe this to be the finest quality of all table carrots. The roots are 5 to 6 inches long, of even diameter and blunt ends. It is nearly coreless, exceptionally tender and sweet and is delicious eaten raw. It is very early and the tops are small. Suited for forcing or outside culture. High quality for home use but not suited for market except when forced. Postpaid. Pkt. 10c; oz. 35c; ¼ lb. 95c; lb. \$3.00.

DANVER'S HALFLONG, RED CORED—An improved strain of this old variety.

Deep orange red right through to the center. Heavy yielding; excellent quality.

Carrot, Gill's Special Nantes

MORSE'S BUNCHING—Long, almost cylindrical roots. Good color and quality. Popular bunching carrot for market.

TENDERSWEET—Very sweet and tender. Roots long and of deep red orange, tinged with red at the top.

CHANTENAY, RED CORED—This strain has a deeper red core and is popular with canners. Similar in type to regular Chantenay.

Stock Carrots

PRICES—Same as other carrots. See carrot prices at heading.

LARGE WHITE BELGIAN—Long white stock carrot; very heavy yielder.

LARGE YELLOW BELGIAN — Same as above, except color, a pale yellow.

Endive

 ${\it CULTURE}$ — Similar to lettuce. The outer leaves should be tied over the head to bleach.

LARGE GREEN CURLED—One of the best sorts. Postpaid. Pkt. 10c; oz. 35c; ¼ 1b. 95c; lb. \$2.50.

BATAVIAN BROAD LEAVED — Frequently called Escarolle. Postpaid. Pkt. 10c; oz. 35c; ¼ lb. 95c; lb. \$2.50.

We supply several thousand market gardeners and florists with our seeds. If you have not used our seeds and bulbs why not try us this year.

__11__

CELERY

UTAH No. 16—A splendid green type. Plants tall, stout and compact; blanches easily. Stems thick, solid, medium broad; of nutty flavor and fine quality with relatively few strings. Very satisfactory commercial variety. Pkt. 20c; ¼ oz. 65c; oz. \$1.60; ¼ lb. \$5.00; lb. \$18.00.

UTAH JUMBO—This remarkable late celery is the finest quality of any we have tried. Grown extensively near Salt Lake and wherever shipped commands high prices. Plants sturdy, compact and solid. Very free from strings. In Utah, soil bleaching is generally used, producing stalks that are pure white, nutty and crisp. Also immensely popular sold green without bleaching. Our strain is very popular all along the Pacific Coast. We now supply this strain to many large celery growers in various parts of the country. Postpaid. Pkt. 15c; ¼ oz. 50c; oz. \$1.35; ¼ lb. \$4.25; lb. \$15.00.

IMPROVED UTAH JUMBO—This new strain has thicker, more meaty stalks with longer stems. The mature plant is larger around and taller than Utah Jumbo. This is worthy of your trial. Postpaid. Pkt. 15c; ¼ oz. 65c; oz. \$1.60; ¼ lb. \$5.00; lb. \$18.00.

GOLDEN SELF BLANCHING, TALL STRAIN—The plants grow very tall and weigh very heavy. The stalks are wide and rather flat, while the quality is extra fine. This strain is very early and especially valuable in dry climates. Postpaid. Pkt. 15c; oz. \$1.00; ¼ lb. \$3.50; lb. \$12.00.

SUMMER PASCAL—While the plants are not tall the stems to the first joint are 8 to 9 inches long. It matures right after the yellow varieties and ahead of Utah Jumbo. Stalks thick and tender and of finest quality. Postpaid. Pkt. 15c; ¼ oz. 35c; oz. \$1.00; ¼ lb. \$3.50; lb. \$12.00.

UTAH No. 15—A tall Utah strain of mid-season maturity. Plants large; height 26 to 28 inches. Leaves dark green, deeply cut, moderately broad. Plants erect, compact, full hearted. Edible stems 8 to 10 inches long, numerous and of medium width, thick, rounded and quite smooth. Crisp and of fine quality. Very resistant to blight. Postpaid. Pkt. 15c; ¼ oz. 35c; oz. \$1.00; ¼ lb. \$3.50; lb. \$12.00.

UTAH 10-B—An outstanding strain of green celery that is slightly later than regular Utah. Plants tall, 26 to 28 inches, leaves large, medium deep green. Plants erect and compact with edible stems 8 to 10 inches long, of uniform length, rounded, thick and of waxy appearance. It blanches easily and is tender, crisp and of excellent quality. Pkt. 15c; ¼ oz. 35c; oz. \$1.00; ¼ lb. \$3.50; lb. \$12.00.

CELERY SEED FOR COOKING—2 oz. pkt. 15e; ¼ lb. 25e; lb. 75e.

EMERSON PASCAL. New celery with supreme quality. The rich flavor and tenderness, combined with resistance to blight, make this green celery outstanding. Medium early with long, thick, round stems of fine quality. Pkt. 20c; ¼ oz. 60c; oz. \$1.60; ¼ lb. \$5.25; lb. \$20.00.

UTAH SPECIAL—A large green celery similar to Utah Jumbo. This special strain is popular with large growers in California. Seed grown in Utah. Pkt. 15c; ¼ oz. 50c; oz. \$1.35; ¼ lb. \$4.25; lb. \$15.00.

Celeriac

TURNIP ROOTED CELERY, SPECIAL STRAIN—The roots are turnip shaped and are used for soups and stews. Very hardy and will stand in open all Winter in the Coast regions. Postpaid. Pkt. 15c; ½ oz. 40c; oz. 75c; ¼ lb. \$2.00; lb. \$7.00.

FIELD CORN

The growing of field corn in the Pacific Northwest has now reached a stage where it is past being an experiment, and with acclimated seed it is not difficult to obtain success. We do not handle any but Northwest grown seed of dent corn, and our customers may feel sure of getting acclimated seed. Do not plant field corn near sweet corn or they will mix.

Open Pollinated

*ALBANY DENT (formerly called Albany Hybrid)—A cross between Minn. No. 13 and Pride of the North. It has the earliness of the No. 13, and the deep grain and small cob of the Pride of the North. It has been given careful selection and is, we believe, one of the finest sorts for grain or ensilage. Postpaid. Pkt. 10c; lb. 40c. Not prepaid, lb. 35c; 10 lbs. @ 15c per lb.; 100 lbs. for \$13.50.

*MINN. No. 13—An early variety well suited to the Northwest. Grains golden yellow, deep and heavily dented. Prices same as Albany Dent.

HICKORY KING — Large flint corn with broad flat kernels. It matures early with large, long ears with white grains. Ideal for meal and hominy. Postpaid. Pkt. 10c; lb. 45c.

Hybrid Field Corn

PRICES—Unless noted are uniformly: Postpaid. Pkt. 10c; lb. 45c. Not prepaid, lb. 40c; 10 lbs. @ 25c lb.; 50 lbs. @ 20c lb.; 100 lbs. or more @ 19c lb.

*IDAHO HYBRID (Grain Type) — Same season as Minn. No. 13. The extensive root system keeps the plants erect throughout the season, producing extra long ears and a heavy yield of grain. Good for grain or ensilage.

*IDAHO HYBRID (Silage Type) — Same as grain type, except bred for a longer growing season in order to produce a heavier crop of silage material.

*OREGON HYBRID No. 525—A splendid yellow dent hybrid ripening in a little over 100 days. Uniform, large ears; heavy yielding for grain or ensilage.

OREGON HYBRID No. 100—One of the earliest varieties of hybrid field corn. Ears 12 to 16 rows, kernels rather short and flat. Stalks about 6 ft. and nearly free of suckers. Especially valuable for grain.

-12-

SWEET CORN

CULTURE — Prices paid for first early corn will pay the grower to take chances on early planting. For this planting use 4 to 5 seeds per hill and cover one inch deep. Space hills 28 to 36 inches, and rows 3½ feet, allowing two stalks to the hill or as some prefer, and we think this gives the best results, plant 12 inches between hills, and thin to one stalk; this gives all the stalks an even show. April 1 to May 1 is a good season for early corn, of course, depending on the weather. May 15th to 25th is good for the later sorts, as they do not resist damp, cold weather as well as the early varieties.

Corn will not fill well unless the patch planted is blocked out; those planting small quantities should make the patch square, or nearly so. This will permit the pollen to blow down on the silk, pollenizing the ears. Early corn may be planted in succession up to July 5 in the Portland area.

Open Pollinated Varieties

PRICES—Unless noted are uniformly: Postpaid. Pkt. 10c; ½ lb. 25c; lb. 45c. For 4th zone and beyond, 50c. Not prepaid, lb. 40c; in any one variety, 5 lbs. @ 32c; 10 lbs. @ 30c; 25 lbs. @ 25c lb.

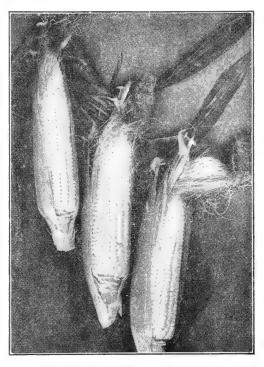

GOLDEN MIDGET—A miniature sweet corn that has found a place in small city gardens. The stalks grow only $2\frac{1}{2}$ to 3 feet tall, bearing several small golden ears about 4 to 5 inches long. The quality is very good and it matures very early. It takes very little room in the garden compared to standard varieties. Postpaid. Pkt. 15c; $\frac{1}{2}$ lb. 35c; lb. 60c.

*GILL'S EARLY GOLDEN SWEET—Earliest of the golden varieties. Ears average about the same size as Improved Bantam with stalks four feet tall. We recommend this for market and home gardens. The sweetest first early variety we have tested. The best and earliest high quality sort. Our own introduction. We have increased the size.

*GILL'S IMPROVED GOLDEN BANTAM — Superior to the original Golden Bantam in quality and nearly twice the size, also one week earlier. Nearly all ears carry 12 rows of deep, rich golden yellow kernels set close upon the cob. Do not compare this with the original strain, as it is far superior in every respect.

It has no superior for quality markets, table, canning or drying. Remember, we are the originators of this improved strain and continue our careful stock seed selections each year. We have received many letters of praise for this corn and many of our customers will have nothing else. We consider this the best quality of any sweet corn to date. It represents over 30 years of careful selection by ourselves directed toward quality and size.

*GILL'S GOLDEN EARLY MARKET—The earliest large, true sweet corn of golden color. It is a cross between our Improved Golden Bantam and Early White Market. According to our own trials and reports from all over the country, is earlier and larger than Golden Sunshine. It is the outstanding early corn and is a money-maker for gardeners. For home use or market, be sure to plant this variety. It matures about a week earlier than Improved Golden Bantam. Large, golden ears, tightly filled with large sweet grains of high quality. Originated by our firm.

Corn, Golden Cross Bantam-Page 14

Yellow Sweet Corn Collections

OPEN POLLINATED VARIETIES No. 1

We offer one packet each of Early Golden Sweet, Golden Early Market and Improved Golden Bantam for 25c; ½ lb. each for 65c; 1 lb. each for \$1.20. Postpaid. Beyond 4th zone add 15c extra on the pound collection. This makes a splendid succession if planted at the same time. They are all of high quality.

HYBRID COLLECTION No. 2

This offers a good rotation in Hybrid varieties. One packet each of Spancross, Carmelcross and Golden Cross for 25c; ½ lb. of each 90c; 1 lb. of each \$1.60. Postpaid. Beyond 4th zone add 15c extra on the pound collection. By planting both collections you will have sweet corn for a long season.

We offer high grade sweet corn seed.

Hybrid Sweet Corn

PRICES—Unless noted are uniformly: Postpaid. Pkt. 10c; ½ lb. 35c; lb. 65c. For 4th zone and beyond, lb. 70c. Not prepaid, lb. 60c; in any one variety 5 lbs. @ 50c lb.; 10 lbs. @ 40c lb.

*BARBECUE (New Hybrid) — Long, slender ears especially fine for freezing whole ears. Tender grains, exceptionally sweet and of rich golden yellow color. Mid-season. The high quality makes it ideal for home gardens and market sales. Postpaid. Pkt. 15c; ¼ lb. 40c; lb. 75c.

*IOCHIEF — A new yellow hybrid. Claimed to have top rating for yield and cutting percentage. Excellent performance under drought. Very good flavor and tenderness. Stalks 7-7½ ft. and nearly free of suckers. Ears 8½-9 inches long, cylindrical, filled to the tips; 16-20 rows of deep, narrow grains. Good rich color and clean silker. Good husk color and ears hold well in prime condition. Market gardeners like the large ears of fine quality. Pkt. 15c; ½ lb. 40c; lb. 75c. Postpaid. Not prepaid, lb. 70c; 5 lbs. @ 65c.

F. M. CROSS—A new hybrid with large, golden ears which are earlier than Golden Cross. Compares with Carmelcross for earliness and with ears larger than Golden Cross. Grains deep and of high quality. It promises to be satisfactory for canning and freezing and is popular with market gardeners. Pkt. 15c; ½ lb. 40c; lb. 75c. Postpaid. Not prepaid, lb. 70c; 5 lbs. @ 65c.

*WHITE CROSS BANTAM — Recommended in place of Stowell's Evergreen. A valuable white hybrid of outstanding quality. Strong stalks 6 to 7 feet tall, producing large ears with 18 to 20 rows per ear. Pure white grains, somewhat small but deep. We find it equal in sweetness and tenderness to the finest yellow varieties. Season about the same as Golden Cross Bantam.

GOLDEN GRAIN — Two weeks later than Golden Cross Bantam. Vigorous tall stalks, 7 to 8 feet high; productive of large, plump ears, one-third larger than Golden Cross, containing 16 to 20 rows of narrow, deep yellow grains. Ideal for large, late hybrid corn of fine quality. Postpaid. Pkt. 15c; ½ lb. 40c; lb. 70c. Not prepaid, 5 lbs. @ 60c per lb.

TENDERMOST — Ears are somewhat larger and longer than Golden Cross. Plants 6 inches taller and a few days later. Very productive. Grains quite deep and of very fine quality. Exceptionally sweet and tender.

*SPANCROSS — A good first early hybrid for home or market. Very resistant to disease. Large ears, golden yellow, tender and sweet. An extra early hybrid.

*GOLDEN CROSS BANTAM — A hybrid sweet corn especially valuable where Stewart's disease (wilt) makes it impossible to grow ordinary varieties. Excellent for market gardeners and canners. 12 row ears, more resistant to worm damage and heaviest yielding of any standard yellow sweet corn variety. Matures very uniformly. Ideal for freezing.

*MARCROSS—A little later and larger than Early Marcross. Fine quality and very popular with market gardeners. Yellow grains of fine quality.

*EARLY MARCROSS—An early yellow hybrid with 12 row ears, longer than Golden Early Market and about one week later. Good quality.

*CARMELCROSS — Large, uniform golden ears, 12 to 14 rows, about one week later than Early Marcross. Very fine quality and a good producer. A fine market variety and very popular where Golden Cross Bantam is too late.

*LINCOLN—A fine hybrid sweet corn. Vigorous, well foliaged plants with ears 12 to 16 rowed. Bright yellow kernels of fine quality. A valuable late variety for market, with large perfect ears. Because of heavy production of fodder and ears this variety is also popular for dairy feed.

EARLY GOLDEN HYBRID — One of the newer varieties maturing a few days ahead of Early Marcross. High quality and a good producer.

*IOANA—Very productive, highly resistant to drought and wilt. Very valuable for gardeners and canners. Ears 7½ to 8 inches long, 12 to 14 rows; well filled with medium-narrow, light yellow kernels. Tall, sturdy plants with broad leaves. Very high quality.

GOLD RUSH—A first early yellow hybrid with strong great vigor and productiveness. The stalks are 6 feet tall and sturdier than regular Golden Bantam and generally two ears to the stalk. Ears 8½ inches long, 12 to 14 rows and with tight husks. Kernels yellow, tender and sweet. Postpaid. Pkt. 15c; ½ lb. 40c; lb. 70c. Not prepaid, 5 lbs. @ 55c lb.

GOLDEN NUGGET—Outstanding for canning and freezing. High yielding yellow hybrid of extra fine quality. Stalks 8 feet, ears borne well up from the ground. Easy snapper; 8 to 8½ inches long; 12 to 16 uniform rows and excellent husk covering. Grains medium yellow, of good depth. Very tender and among the very sweetest yet known. Eighty-nine days to maturity.

ERIE—Nine-inch yellow ears, mainly 12 to 14 rows, maturing in 88 days. Plants wilt resistant and vigorous, 6½ feet tall. High quality.

Northwest grown seeds are indicated in this catalog with a star (*). Quality, not price, is the first consideration in buying seed.

Pop Corn

MINHYBRID 250 HULLESS—This hybrid pop corn is extra early. It pops about one-third more than old varieties. The finest for quality, flavor and crispness. Postpaid. Pkt. 15c; ½ lb. 40c; lb. 75c.

*AUSTRALIAN HULLESS (Improved White Rice)—Small, sharp pointed, white grains. Extra fine quality. Postpaid. Pkt. 10c; ½ lb. 25c; lb. 40c. Not prepaid, 10 lbs. @ 25c lb.

*SPANISH PEARL — Large, round, smooth, white grains. Fine commercial sort. Postpaid. Pkt. 10c; ½ lb. 25c; lb. 40c. Not prepaid, 10 lbs. @ 25c lb.

Florence Fennel

This fine Italian vegetable should be planted more generally. Use like celery or for flavoring. For best results plant July 15 to August 15 in rows 2 feet apart and thin to 1 foot apart. It is not difficult to grow on good, rich soil. Postpaid. Pkt. 15c; oz. 35c; ¼ 1b. 95c.

Herb Seeds---For Planting

ANISE—Used as a cordial and for garnishing and flavoring. Seeds have an agreeable aromatic taste. **Pkt. 15c.**

BASIL (Sweet)—For soups, stews and highly seasoned dishes. Pkt. 15c.

BORAGE — Star-shaped blue flowers. Leaves and flowers have a cucumber flavor, for salads and cold drinks. **Pkt. 15c.**

CARAWAY—Used for flavoring of bread, pastry, etc. **Pkt. 15c.**

CATNIP—Used for seasoning. It also makes an excellent bee pasture. Pkt. 15c.

CHERVIL (Annual) — Parsley - like leaves for flavoring salads, Pkt. 15c.

CHIVES — Leaves used in salads and for flavoring soups and stews. Pkt. 15c.

CORIANDER—The seeds are used for flavoring and confectionery. **Pkt. 15c.**

HOREHOUND—For flavoring. Pkt. 15c. MARJORAM (Sweet)—Leaves and tender shoots are for seasoning in summer and are also dried for winter use. Pkt. 15c.

SAGE (Broad Leaf) — Perennial for seasoning. Pkt. 15c; ½ oz. 85c; oz. \$1.50.

SUMMER SAVORY—A hardy annual. The dried stems, leaves and flowers are extensively used for flavoring in dressings and soups. **Pkt. 15c.**

THYME—Used for seasoning. Pkt. 15c.

FLOWER SEEDS

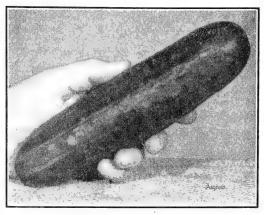

We have a very complete flower seed list.

Annuals and Perennials are listed separately.

Annual Flower Seeds begin Page 34.

Perennial Flower Seeds begin Page 46.

We publish a special price list for Commercial Florists, which may be had upon request. Please give your license number.

Cucumber, Cubit, Page 16.

CUCUMBERS

CULTURE—Plant 4 feet each way in rich, loamy soil, from May 1 to July 1; 8 to 10 seeds to a hill; thin to two or three good vines. Cover seed one inch deep and press soil fairly firm.

PRICES—Unless noted: All cucumber prices listed are postpaid. Pkt. 10c; oz. 30c; ½ lb. 80c; lb. \$2.25.

COLONIAL—We discovered this remarkable cucumber growing in a market garden but this is the first time we could produce seed enough to catalog it. The cucumbers at market stage average 8 to 10 inches long, dark green and straight. The quality and appearance are both outstanding. The plants are exceptional vigorous with large deep green foliage and long vines producing heavy crops. Pkt. 15c; oz. 40c; ¼ lb. \$1.00; lb. \$3.00.

NIAGRA — New dark green, mosaic resistant cucumber that bears throughout a long season. Long, nearly cylindrical blunt ended fruit with glossy dark green color. Very valuable, especially where mosaic is a threat. Pkt. 15c; oz. 40c; ¼ lb. 95c; lb. \$2.75.

EARLY SURE CROP HYBRID (All-America Bronze Medal, 1951) — Fruits slender, blunt ends, 8 to 9 inches long, 2½ inches in diameter, holds its dark green color well after picking. Flesh is crisp, white and unusually delicious. Small seed cavity.

Vines outstandingly vigorous, with large protective leaves. Its resistance to Mosaic and Downy Mildew keeps the vines alive and productive long after most varieties have wilted. Suitable for market grower, greenhouse, as well as home garden use. May be used for both pickling and slicing. Pkt. 30 seeds 30c; ½ oz. \$1.65; oz. \$3.00.

STRAIGHT EIGHT—For home, shipping and market gardens. Fruit uniformly cylindrical, rounded at ends, medium green. Earlier than most sorts.

DELCROW—A splendid novelty with rich dark green cucumbers with rather smooth surface and white spines. It holds its color well and has small seed cavities. Suited for outdoor, frame or greenhouse culture. Maturity mid-season. **Pkt. 15c**; **oz. 50c**; ½ **lb. \$1.50**; **lb. \$3.50**.

SWEET WHITE—If you have a prejudice against white cucumbers it will be overcome by this splendid creamy white variety. Long, slender cucumbers, often 12 inches long, with brittle flesh and small seed cavity. It is the most free from bitterness of any variety we have tried. It does best in quite rich soil, Unexcelled for slicing and ideal for bread and butter pickles. Because of its tenderness half grown cucumbers can be used without peeling. Our introduction. Pkt. 15c; ½ oz. 40c; oz. 75c; ¼ 1b. \$2.25.

CUBIT — A prolific, white spined variety distinguished by unusually uniform, dark green exterior color and long blunt ends, cylindrical shape, so much so that it has been compared to a rolling pin. The interior has smooth, crisp texture with small seed area and it is admirably adapted for slicing. It does not quickly "flag down," but holds its fresh quality well, a very important factor for market growers. A valuable new variety. Pkt. 10c; oz. 35c; ¼ lb. 90c; lb. \$2.50.

MARKETER—A very popular variety for home gardens and markets. Smooth, long cucumbers of intense deep green. About 8 inches long with small seed area, of finest quality. Pkt. 10c; oz. 35c; ½ 1b. 90c; lb. \$2.50.

IMPROVED EARLIEST OF ALL—Vigorous grower. Dark green, desirable for slicing and pickling.

THE VAUGHAN or LONGFELLOW—Among the best slicing cucumbers to date for market purposes. The cucumbers are long, straight and of even diameter. When ready for slicing they will average a foot long and about one and one-half inches in diameter. They are a very deep green and the quality is extra fine. Pkt. 10c; oz. 35c; ¼ lb. 90c; lb. \$2.50.

DELTUS—This has high quality and is desirable for slicing; also valuable for greenhouse forcing. It holds its seedless period longer than most sorts. It averages 10 inches long and 3 inches in diameter; smooth, white spined, rounded ends; white, firm flesh; dark green color. **Pkt. 10c; oz. 35c; 14 lb. 95c; lb. \$2.65.**

BURPEE'S HYBRID — Most outstanding, disease resistant slicing cucumber; vines extremely vigorous, long lived, bearing a big crop of long, straight fruits of finest quality. Pkt. (30 seeds) 25c; ½ oz. \$1.25; oz. \$2.25.

DAVIS PERFECT—A strong, vigorous grower, producing heavy crops of uniform, long, dark green cucumbers. A good variety for pickles and slicing.

COLORADO — Very attractive market and shipping variety. Fruit dark green, cylindrical and with small seed cavity. Ideal for uniformity, texture and appearance. Pkt. 10c; oz. 35c; ¼ lb. 95c; lb. \$2.65.

LEMON CUCUMBER — Resembles a lemon, both in color and form. Splendid for pickling or slicing. This variety is outstanding in quality. Free from bitterness and ideal for family use. **Pkt. 10c**; **0z. 35c**; ½ **lb. 95c**; **lb. \$2.65**.

ARLINGTON WHITE SPINE—Considered the best strain of White Spine.

Pickling Cucumbers

PRICES—Unless noted are: Postpaid. Pkt. 10c; oz. 25c; ¼ lb. 70c; lb. \$1.75.

MAGNOLIA—New black spined pickling cucumber. It is claimed to be more resistant to hot weather than other sorts. Postpaid. Pkt. 15c; oz. 35c; ¼ lb. 90c. lb. \$2.50.

DOUBLE YIELD—A new prolific pickling cucumber. It produces enormous quantities of pickles of the most desirable shape and color, often producing twice as many as any other variety. Black spines. It is very early, producing fruit of medium length, very straight with blunt ends and of deep green color. Pkt. 10c; oz. 35c; ¼ lb. 90c; lb. \$2.50.

NATIONAL PICKLING—Ideal for pickling; fruit deep green, symmetrical with thick walls; full ended; slightly shorter than Chicago Pickling.

BOSTON PICKLING—A popular pickling sort, medium sized and vigorous.

SNOW'S PERFECTION—A very popular pickling cucumber. Heavy yielder.

CHICAGO PICKLING — A vigorous grower; medium green cucumbers with nearly square ends; very prolific; well warted at pickle stage.

SMALL GHERKIN — A small, round, prickly variety used only for pickles. Pkt. 15c! oz. 35c; ¼ lb. 85c; lb. \$2.50.

Horse Radish

Plant in the spring 18 to 24 inches apart. Set the roots small end down. Postpaid. Doz. 65c; 100 for \$3.35. Write for prices on quantities.

Kohl Rabi

EARLY WHITE VIENNA—Kohl Rabi should be grown more, as it is a delicious vegetable, cooked like turnips. Transplant like cabbage in July; rows 2½ feet wide and 1 foot in rows. Can be sown in rows and thinned. Postpaid. Pkt. 10c; ½ oz. 40c; oz. 65c; ¼ lb. \$1.65.

PURPLE VIENNA — D warf plants; green leaves with purple stems. Shape globular, purple with white, tender flesh. Prices same as Early White Vienna.

HEAD LETTUCE

CULTURE—Can be planted almost any time of the year. Give head varieties plenty of room, at least 14 inches apart each way. Cover one-half inch deep. Referring to head lettuce, it is generally agreed among large growers that some aging of the seed produces earlier and firmer heads, besides making them more sure heading.

New York Strains

PRICES ON NEW YORK STRAINS—Unless otherwise noted are: Postpaid. Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 45c; $\frac{1}{4}$ lb. \$1.00; lb. \$3.15.

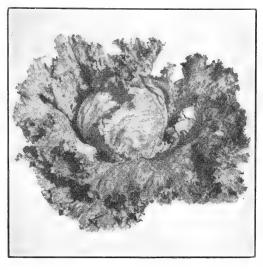

We have a very large trade with market gardeners and sell New York seed to plant thousands of acres each year. Do not gamble with your crop by buying cheap lettuce seed. Intensive selection has resulted in many strains of New York, several of which we list below. Market gardeners require many different types to cover the various seasons and climatic conditions. For home gardeners we recommend New York Supreme, Improved B. Pennlake, and any of the Great Lakes varieties.

PENNLAKE—A cross between Great Lakes and Imperial 847. Large, solid heads of better quality than Great Lakes. Crisp, dark green foliage, showing more refinement than the Original Great Lakes and without the ribbiness of that variety. Valuable for early spring and late summer plantings but not best suited for cutting in hot summer weather. A splendid variety for home and markets. Pkt. 15c; ½ oz. 45c; oz. 75c; ¼ lb. \$1.75; lb. \$4.25.

EARLY GREAT LAKES—This fine new strain is earlier and more uniform than the original Great Lakes. It is more refined with less fringes and the quality is better. In size, about the same as the regular Great Lakes, but equally resistant to heat and tip-burn. The underside leaves are darker green, making them more attractive when packed. It has shown up exceedingly well for spring, summer and fall cutting. The solid heads are brittle and sweet. Market gardeners have tested it out and are enthusiastic about it. Pkt. 15c; ½ oz. 45c; oz. 75c; ¼ 1b. \$1.75; lb. \$4.50.

GREAT LAKES—A large, sure heading variety exceedingly resistant to warm weather. Especially valuable on higher soil and in dry weather conditions. What chiefly distinguishes Great Lakes from other varieties of the Imperial type is its increased resistance to tip-burn injury and great ability to produce solid heads under adverse conditions. The leaves are large, relatively thick, folding well over the heads so that when unwrapped they give large sections desirable for salad. Large solid heads of fine quality, and also very sure heading. It is adaptable for good heads almost nation-wide. This has also proved excellent for the early fall crops. Pkt. 10c; ½ oz. 40c; oz. 75c; 1/4 lb. \$1.75; lb. \$4.50.

NEW YORK "B" (No. 199)—Resembles No 12, but has better leaf coverage, is larger and more burn resistant. Desirable for early spring and fall cutting.

Lettuce, Pennlake, This Page.

LATE GREAT LAKES—A new strain of Great Lakes which matures about one week later than the regular Great Lakes. The heads are darker green than Great Lakes with a light green exterior at the base. They are very sure heading and uniform. Very resistant to heat. A fine lettuce deserving a good trial. Pkt. 15c; ½ oz. 45c; oz. 75c; ¼ lb. \$1.75; lb. \$4.75.

CORNELL 456—Valuable for growers in Eastern States and some sections of the Pacific Coast. Slightly earlier than Great Lakes. Heads very firm but smaller than Great Lakes. Pkt. 10c; ½ oz. 40c; oz. 65c; ¼ lb. \$1.50; lb. \$3.50.

IMPERIAL "44" — Medium sized, firm heads with few outer leaves. Fine for August and early September cutting in the Pacific Northwest. Recommended for general use in Eastern locations. Exceptionally fine for low, dark soils.

NEW YORK No. 12—Large, compact, medium green heads, adapted to early spring and early summer cutting.

IMPERIAL "847" — Large, dark green heads, desirable for spring, summer and fall cutting. Tip-burn resistant. Black seed. Especially valuable for fall crops.

IMPROVED 615 (No. 101) — An improved selection that has given fine results. Quite similar to Imperial 615, but more uniform. It makes large solid heads that are very important for fall cutting.

IMPERIAL "152"—Medium sized solid heads. Quite hardy, very sure heading, also resistant to brown blight. Especially desirable for fall cutting.

—17—

HEAD LETTUCE—Continued

NEW YORK SUPREME No. 55—A true New York strain making solid, attractive heads. The earliest N. Y. strain and notable for its excellent table quality. Besides this it is fine for early spring and fall lettuce. Fine for home gardeners.

SUMMER GREAT LAKES — Another strain of refined Great Lakes producing uniform, solid heads of fine quality. It is generally rated as resistant to summer heat and is very good for early summer and for fall crops. It showed up exceptionally well for fall cutting. Pkt. 15c; ½ oz. 45c; oz. 75c; ¼ lb. \$1.75; lb. \$4.50.

PROGRESS — A cross between Imperial No. 44 and other New York strains. Leaves thick, dark green and savoyed. Relatively resistant to tip burn. Usually adapted to the same areas as Imperial No. 44, and of better quality. Large, solid head of very attractive appearance when packed. Pkt. 15c; ½ oz. 45c; oz. 75c; ¼ lb. \$1.75; lb. \$4.25.

PREMEIR GREAT LAKES—A refined, uniform strain of Great Lakes and slightly earlier than the original. It makes large heads of good quality. Pkt. 15c; ½ oz. 45c; oz. 75c; ¼ lb. \$1.75; lb. \$4.25.

LETTUCE

Other Than N. Y.

CULTURE—This group contains loose leaf and soft heading varieties. They have the advantage of quick and easy culture. They also contain more vitamins. Loose leaf lettuce can be grown more thickly than New York types.

PRICES, unless noted: Postpaid. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. 85c; lb. \$2.25.

SALAD BOWL (Gold Medal All-America)—Tender loose leaf type. Irregular leaves resembling Endive. Slow bolting. Ideal for home gardens. Larger than Oak Leaf. Pkt. 15c; ½ oz. 45c; oz. 85c; ¼ lb. \$1.75; lb. \$4.50.

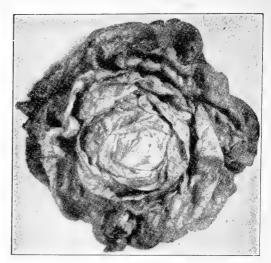

BRONZE BEAUTY—All-American winner 1947. A splendid lettuce. A bronze counterpart of Oak Leaf. It possesses all the fine points of that variety and is really a beauty; also valuable for decorations. Very tender and sweet. Pkt. 15c; ½ oz. 35c; oz. 60c.

OAK LEAF—Forms a bunch or indefinite head of medium size and light green. Excellent quality, and being free from bitterness, is ideal for summer use.

BIBB—A small butter-head type, with thick, tender leaves; deep green outside and creamy yellow inside.

SLOBOLT—A long standing lettuce with crisp, loose green leaves. It will stand 2 or 3 weeks longer than older sorts, forming rather dwarf, compact plants. Good for all seasons. Pkt. 15c; ½ oz. 40c; oz. 75c; ¼ lb. \$1.75; lb. \$4.25.

ICEBERG—Produces large heads, very tender and brittle. Withstands hot weather better than most sorts.

Lettuce, White Boston, This Page.

BLACK SEEDED SIMPSON — Large plants with very tender, loose green leaves. Dependable, quick growing and a popular old favorite.

WHITE BOSTON—An excellent butterhead type. Hardy for early planting.

TOMHANNOCK or PRIZE HEAD—A beautiful quick growing loose leaf lettuce. Leaves large, bordered reddish brown; very tender and sweet.

GRAND RAPIDS—The standard hothouse lettuce for forcing; also does fine in the open ground. Loose leaves with light fringed edges.

COS, PARIS DARK GREEN (Romaine)
—It forms a fairly firm head, which is light green and white at the heart.

CHICKEN LETTUCE — A rough, tall, loose plant for feed only. Grows 4 feet high and supplies abundant green feed. Fine tonic for laying hens.

Egg Plant

Start in hot beds like tomatoes. Set 2 feet apart in the rows and 3 feet between.

EARLY BLACK—A small extra early variety from Japan. Fine quality. **Pkt.** 15c; ½ oz. 75c; oz. \$1.25.

BLACK BEAUTY—The earliest and best of the large fruited varieties. Color rich, lustrous purplish black. Postpaid. Pkt. 10c; ½ oz. 40c; oz. 75c; ¼ lb. \$2.25; lb. \$8.00.

NEW HAMPSHIRE HYBRID—An extra early variety maturing in 70 days. Fruit round to olive shape. The best variety where seasons are short. Also suited for market gardeners who wish to market early crops. Postpaid. Pkt. 15c; ½ oz. 75c; oz. \$1.25; ¼ lb. \$3.00.

GOOD LETTUCE SEED

It is very important to plant good lettuce seed. We sell several thousand pounds to market gardeners trade each year.

MUSKMELON

CULTURE—Loam soil is best, fertilized with rotted manure and a complete commercial fertilizer. Plant 4 to 6 feet, giving more room for larger varieties. Use 8 to 10 seeds to the hill; cover 1 to $1\frac{1}{2}$ inches deep. Turn vines with row to permit cultivation. Plant May 1st to 25th.

PRICES—Unless noted: Postpaid. Pkt. 10c; oz. 35c; ½ lb. 90c; lb. \$2.00.

*OREGON DELICIOUS—An improved Spear Melon. We introduced this exceptional melon for quality, size and earliness. They usually weigh 6 to 8 pounds but sometimes up to 12 pounds. The shape is oblong, slightly ribbed and with a creamy slate green color when ripe. The flesh is salmon, very thick and of wonderful quality. The melons are quite heavily netted and of attractive appearance. It is a selection from the Spear melon. Postpaid. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.00; lb. \$2.50.

FAR NORTH—A new Canadian variety claimed to be the earliest cantaloupe—two weeks ahead of any good kind. Melons salmon fleshed, round and lightly netted. They have a definite pomegranite odor along with fine quality. Valuable for early gardens in the Northern states. Melons green, mottled with yellow spots. Pkt. 15c; oz. 50c; ¼ lb. \$1.50; lb. \$3.50.

NEW YORKER—This melon has great promise for home and market gardeners. A large melon, bigger than Bender with rind very strong or hard, covered with heavy netting. It is slate colored, turning to light yellow gray when fully matured. The thick, brilliant flesh has a very high sugar content and the texture is soft and of delicious quality. A better shipper than Oregon Delicious.

EXTRA EARLY KNIGHT—A very early green-meated melon. Fruit oblong, weighing around 2 pounds; flesh thick, green, juicy and sweet. One of the earliest for the Pacific Northwest.

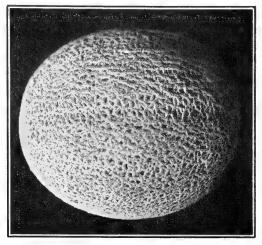

HEARTS OF GOLD — Grown extensively for local markets. Fruit nearly round; weight about 3 pounds; distinctly ribbed, deep green with fine gray netting. Flesh thick, deep salmon; tender, juicy, sweet and aromatic.

EARLY BENDER — A large, highly flavored, round melon; very early. Delicious, deep orange flesh. Very popular, high quality variety for home gardens.

HONEY DEW (Green Flesh) — A round-oblong shaped melon with almost white rind. Flesh thick, light green and sweet as honey.

GOLDEN RIND HONEY DEW (Green Flesh)—Also called Golden Honeymoon. About ten days earlier than regular Honey Dew. Same shape, thick flesh, good flavor and carries well in shipping.

BABY PERSIAN — A small type of Persian well suited for packing.

Hale's Best Early Melon No. 936, This Page.

cornell delicious—New. An early, large, high quality melon. The flesh is thick, very attractive and deep orange. A very fine melon, well suited where earliness is a factor. Pkt. 15c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50; lb. \$4.50.

JUMBO HALE'S BEST or TRIUMPH—Early, very heavily netted, no ribs, and 25 to 30% larger than the regular Hale's Best. Thick, bright orange flesh and extremely small seed cavity.

HALE'S BEST EARLY "936" — A selected strain a little larger than No. 36. Fruit $6\frac{1}{2}$ by $5\frac{3}{4}$ inches; heavily netted. Flesh deep salmon and of fine quality.

HALE'S BEST No. 36—About one week earlier than No. 936, 53/4 by 51/4 inches. Uniform, heavily netted and fine quality. 85 days to maturity.

RESISTANT No. 45—Wonderful shipping melon and very popular among shippers. Fruits slightly oblong, well netted and with solid, deep salmon flesh. A mildew resistant strain with vigorous vines producing melons 6½ by 6 inches. Fine quality. 88 days to maturity.

IMPERIAL No. 5 — Mildew resistant. 88 days to maturity. Vigorous vines producing heavily netted fruit. This melon promises to be a leading shipper. Extremely high sugar content.

MEDIUM PERSIAN — Large, round, heavily netted melon without ridges. Thick orange flesh of delightful flavor. Usually averages about 7 to 8 lbs. weight.

Buy a MERCHANDISE CERTIFICATE from us for use as a gift. State amount needed.

Casaba Melon

CRANSHAW — This melon is very popular in the local markets of Central California. Some of the main restaurants claim it is their best seller. It is a hybrid casaba maturing about the same season as Golden Beauty Casaba. The flesh is thick, of light salmon color and of fine quality. It is not the best for shipping, but is well suited for nearby markets and stands. Postpaid. Pkt. 10c; oz. 40c; ½ 1b. \$1.00; 1b. \$3.00.

GOLDEN BEAUTY—Bright yellow, almost globular in shape and the first to ripen. They will mature in most localities where melons can be grown. Postpaid. Pkt. 10c; oz. 35c; ¼ 1b. 95c; 1b. \$2.50.

WATERMELON

CULTURE—Plant 8 to 10 seeds in hills 6x6. Thin to 2 best vines. Turn vines with the rows. Plant May 1st to 20th.

PRICES: Postpaid. Pkt. 10c; oz. 35c; ½ lb. 65c; lb. \$1.75.

CONGO—New. Tough rind and firm, fine grained flesh makes this variety well adapted for shipping. Fruit oblong, blocky, dark green faintly striped with lighter green. Melon weighs 30 to 35 lbs. Seed white with black tips and edges. It has resistance to anthracnose. Pkt. 15c; oz. 40c; ¼ lb. \$1.00; lb. \$3.00.

NEW HAMPSHIRE MIDGET—A new early, All-America winner of small size, well suited for home gardens. Somewhat smaller than a Honey Dew; color light green with broken veining. Rind very thin and brittle. Red meated and sweet. One of the best ice box type. Pkt. 15c; oz. 45c; ¼ lb. \$1.25; lb. \$3.25.

ICE BOX—A fine, red fleshed, extra early and hardy home garden melon of excellent flavor. Being about six inches in diameter, it will fit in refrigerators.

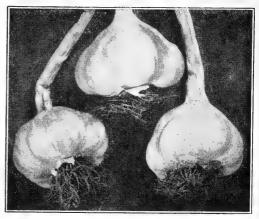

EARLY ARIZONA — Medium sized round melons with dark green rind and deep red flesh. Dark brown seed. About 30 days earlier than Klondike. One of the best first early melons.

EARLY CANADA—A high quality extra early variety. Rather round shape, weighing about 10 pounds. Matures in about 80 to 90 days.

KLONDIKE No. 7 (Wilt Resistant) — This special strain is exceptionally sweet and fine. The flesh is very brittle and the fruit oblong with deep green rind.

STRIPED KLONDIKE, BLUE RIB-BON — Wilt resistant strain with thin, hard, tough rind. Weight 20 to 25 pounds; flesh deep, rich red and sweet.

PRESERVING CITRON—Round green fruits distinctly marked with irregular stripes. Used for preserves and candied fruit. RED SEEDED or GREEN SEEDED.

Garlie, Silverskin, Page 22.

WATERMELON—Continued

STRIPED KLONDIKE No. 11—Ready in 90 days. The highest in sugar content of the striped Klondike strains. Flesh bright red. It often carries three or four mature melons at one time that easily attain a size of 25 to 30 pounds.

BLACK SEEDED ICE CREAM—Round shaped melons with thin, ivory colored skin. Pink meated and of fine quality. It will keep late into the winter. Very prolific. Matures very early.

KALE, Edible

Culture — Same as that of Cabbage.

DWARF BLUE GREEN CURLED—This is a green shade similar to the common cabbage blue hue. The leaves are not so subject to turning yellow during the winter. Well curled foliage. Pkt. 15c; ½ oz. 35c; oz. 55c; ¼ lb. \$1.50; lb. \$4.00.

*TALL GREEN SCOTCH CURLED — Tall and finely curled leaves. We recommend this sort because the edible leaves are carried off the ground away from mud spattering. Postpaid. Pkt. 10c; ½ oz. 35c; oz. 55c; ¼ lb. \$1.50; lb. \$4.00.

HALF DWARF MOSS CURLED—Medium height; fine curled. Pkt. 10c; ½ oz. 35c; oz. 55c; ¼ lb. \$1.50; lb. \$4.00.

GEORGIA COLLARDS — Valuable greens for table use and stock feeding. They grow 2 or 3 feet tall and form loose, open cabbage-like plants. They withstand our winters and can be used all winter long. Postpaid. Pkt. 10c; oz. 30c; ¼ 1b. 85c; 1b. \$2.25.

Kale for Feeding

*JERSEY KALE (Improved Thousand Headed)—Large, heavy, massive plants, with giant, broad leaves. This variety produces by far the largest crop. We offer seed of our own growing. Postpaid. Pkt. 10c; oz. 25c; ¼ lb. 50c; lb. \$1.35.

-20-

ONIONS

CULTURE — A rich loam is best, fertilized with well rotted manure and commercial fertilizer. Sow seed in February or March if the condition of the ground and the weather will permit. Sow with drill in rows 14 to 16 inches apart; cover half-inch deep. Hoe with wheel hoe as soon as they are up, but do not more than scrape the surface as onions do not stand deep cultivation. Thin them to about 6 plants to the foot. It requires 3 to 4 lbs. of seed to the acre. Onions do well year after year on the same ground.

Seed of the white onions can be planted in the spring, summer or fall for green onions. Those planted in the fall, about September 1st, will produce green onions to winter over for early spring use.

PRICES—Unless noted are uniformly: Postpaid. Pkt. 10c; $\frac{1}{2}$ oz. 40c; oz. 75c; $\frac{1}{4}$ lb. \$2.00; lb. \$5.00.

***IOGLOBE**—An extra fine keeper of high quality. It is claimed that it is one of the best yellow globe types. A vigorous, heavy producer of attractive appearance.

*SELECT OREGON YELLOW GLOBE DANVERS—One of the main sorts for producing the famous Oregon, long keeping onions. The onions are a rich coppery yellow with rather heavy outer skin. They are large and nearly globe shaped, with small necks. Early, heavy yielding and outstanding for long keeping onions. White flesh with high quality.

*DOWNING'S YELLOW GLOBE (Long Keeper Yellow Globe)—One of the best keeping onions. Brownish yellow exterior, medium large, and fine quality. It has proven very successful here in Oregon as a long keeping, quality onion. It is a cross between Australian Brown and Yellow Globe. Popular in West Oregon.

YELLOW GLOBE DANVERS — We offer a good strain of this popular old variety. Skin orange yellow; flesh pure white. A good keeper. Postpaid. Pkt. 10c; ½ oz. 35c; oz. 60c; ¼ lb. \$1.25; lb. \$3.50.

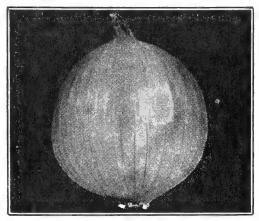

EARLY YELLOW GLOBE — Considered the best early market onion for either muck or upland soils. It is early, large and a good keeper. Nearly globe shaped; color deep yellow.

UTAH SWEET SPANISH—A giant globe shaped yellow onion with small top; mild sweet flesh. This development of the Riverside strain is an outstanding improvement. Growers who have tried it demand it again. More resistant to thrip and the skin does not break as easily as other strains we have tested. We offer a very fine strain, carefully selected. Postpaid. Pkt. 10c; ½ oz. 35c; oz. 65c; ¼ lb. \$2.00; lb. \$5.25.

RED TORPEDO—Very large, torpedo shaped onion, usually planted in the fall to winter over for early summer harvest. Flesh soft and very mild. Pkt. 15c; ½ oz. 45c; oz. 85c; ¼ lb. \$2.65; lb. \$7.50.

SOUTHPORT RED GLOBE—Bulbs large, globe shaped; skin thick, very bright deep purple-red; flesh white with tinge of pink. Excellent keeper.

COLORADO YELLOW SWEET SPAN-ISH No. 6—A large, heavy yielder in the Sweet Spanish type. Considered a good keeper by comparison; color a little darker than Utah Sweet Spanish. Pkt. 15c; ½ oz. 45c; oz. 85c; ¼ lb. \$2.25; lb. \$6.00.

Onion, Utah Sweet Spanish, This Page.

WHITE ONIONS

PRICES—Unless noted are uniformly: Postpaid. Pkt. 10c; $\frac{1}{2}$ oz. 40c; oz. 75c; $\frac{1}{4}$ 1b. \$2.00; 1b. \$5.75.

CRYSTAL WAX BERMUDA—An early white onion, very flat, very sweet.

WHITE PORTUGAL or SILVERSKIN
—A medium early sort with flattened
shape and clear white skin. Extensively
planted by gardeners for green onions,
pickling and sets, and is quite hardy.

SELECT SOUTHPORT WHITE GLOBE
—Handsome globe-shaped white onions
noted for keeping qualities and heavy
production. A fine strain for growing
commercial onions.

WHITE GLOBE—The regular type of Southport White Globe which we sell mainly for green bunching onions. The long white color is ideal for bunching. Pkt. 10c; ½ oz. 40c; oz. 70c; ¼ lb. \$1.75; lb. \$4.75. Not prepaid, 5 lbs. @ \$4.50 lb.

WHITE LISBON—Grown extensively, mainly for green bunching onions. Quite resistant to cold weather.

JUMBO WHITE SWEET SPANISH—Considerably larger than the regular White Sweet Spanish and valuable where heavy yields are desired. Popular also for dehydration. Pkt. 10c; oz. 75c; 1/4 lb. \$2.00; lb. \$6.00.

WHITE SWEET SPANISH—A large white onion. Bulbs globular with small neck, pure white skin and mild flesh.

WALLA WALLA FRENCH

Crop failed. Write us for summer planting.
Seed available in August.

-21-

ONION SETS

*BOTTOM SETS—Small onions grown from seed planted too thickly to reach mature size. They produce green onions in a short time, or if left to grow they will produce nice, large dry onions earlier than those grown from seed. It is best to use the smallest sets to provide dry onions and larger ones for green onions. Postpaid. ½ lb. 25c; lb. 40c; 3 lbs. for \$1.00. Beyond 4th zone add 5c per lb. postpaid. Not prepaid, 5 lbs. @ 32c; 10 lbs. @ 30c per lb.

YELLOW MULTIPLIER or SHALLOTS—Popular perennial that multiplies each year. Desirable for early crops. Brown skin, mild, white flesh. Postpaid. ½ 1b. 30c; 1b. 55c.

EGYPTIAN or TOP SETS—Popular, old-fashioned perennial onion. Often planted along a fence. Available for green onions most of the fall and spring. It is best to plant them in the early fall; however, they can be set out in the early spring. Postpaid. ½ 1b. 35c; 1b. 60c.

POTATO ONION SETS—This old-fashioned type of onion sets is very scarce. They are grown very much like shallots and usually planted in the spring. They may be left in the ground year after year or dug and cured in the latter part of August. Valuable as dry onions and as such are long keepers. Postpaid. ½ lb. 40c; lb. 70c.

MUSTARD

PRICES—Unless noted are: Postpaid. Pkt. 10c; oz. 25c; ¼ lb. 55c; lb. \$1.50.

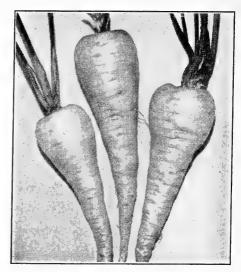

FLORIDA BROAD LEAF—Large, upright plant; leaves exceptionally large and thick, bright green. Leaves smooth with toothed edges.

FORDHOOK FANCY — A handsome, vigorous growing, mild variety, standing a long time before going to seed; leaves bright green, intensely curled and fringed.

GIANT SOUTHERN CURLED (Long Standing Strain)—Very popular. Leaves long and wide, light green, heavily crumpled and curled at edges. Best suited for fall crops.

TENDER GREEN — Sometimes called mustard spinach. Rapid growing Oriental greens producing immense yields. It is suited for early spring or fall sowing. Mild mustard flavor, smooth leaves.

BOK TOY SPECIAL — A Chinese variety of large size and mild flavor. Plant in rows or sow broadcast in mid-August or early September. Commercial growers transplant the seedlings in very rich soil. Special selected seed from a successful Chinese grower. Pkt. 20c; ½ oz. \$1.25; oz. \$2.00; ¼ lb. \$7.00; lb. \$25.00.

Parsnips, Gill's Success, This Page.

PARSNIPS

 ${f CULTURE}$ — Same as carrots, except time of planting, which should be about May 1st.

PRICES (Seed of our own growing)—Postpaid. Pkt. 10c; oz. 30c; ¼ lb. 70c; lb. \$1.60.

*GILL'S SUCCESS—Longer roots than the Tender Heart variety and better adapted to market purposes, as it is not so thick at the crown and will bunch better. The smooth, white roots cook tender and sweet.

*GILL'S TENDER HEART — On account of the superior quality of this parsnip, our family has retained this seed annually for over 60 years. Unlike other parsnips, the heart is tender, never tough; roots are smooth, hollow crown, thick and heavy at top, tapering abruptly, making it easy to dig. An early sort good for early and late crops. We are the originator.

*HARRIS MODEL—Quite long, very smooth and white and remarkably free from small roots and prongs. Recommended for market gardeners who wish a long straight parsnip well suited for packing full length in lug boxes.

Garlic

CULTURE — Garlic does best when planted in the fall in late October and in November or in the spring as early as possible. Place rows 18 inches apart and space the garlic sections 4 inches apart in rows. Leave the tip of the sections just barely covered.

*SILVERSKIN — Large, late keeping variety. Postpaid. ½ lb. 35c; lb. 65c. Not prepaid, 5 lbs. @ 50c lb.

*LARGE FRENCH — An early, large sort. ½ lb. 40c; lb. 70c. Postpaid.

---22---

GARDEN PEAS

CULTURE—Plant as early as the ground can be worked in the spring. Peas will not reach perfection if planted after May 1st, although they will make a fair crop. They should be well rooted before warm weather begins. If planted during February and March, they will mature before the aphis get started. Our Northwest grown seed is acclimated and will give better results. Pea seed planted in winter months should be treated with Semesan. Where peas have not previously been grown on the land it is valuable to use NITRAGIN. For seed treatment we recommend Spergon, if Nitragin is used.

PRICES—Unless noted are uniformly: Postpaid. Pkt. 10c; ½ lb. 25c; lb. 45c. For 4th zone and beyond, lb. 50c. Not prepaid, lb. 40c; 5 lbs. of one variety @ 35c; 10 lbs. @ 32c per lb. Write for prices on quantities.

Tall Varieties

EARLY ALDERMAN—An early strain of Alderman equal in size, quality and production. Excellent for home and market gardeners. Tall vines.

*FREEZONIAN — Exceptionally sweet and delicious. A little larger than Thomas Laxton with vines about 3 feet tall. Hardy and wilt resistant. Dark green, uniform pods. Ideal for freezing and canning. Heavy producer.

*WORLD'S RECORD — An improved Gradus, being earlier and more dwarf. Darker green pods containing 7 to 9 peas of high quality.

*SURPRISE—Very early. Vines 3 feet. Pods 2½ inches. Fine quality and flavor. Excellent canning variety. Sweeter than Alaska. A small seeded variety.

*GRADUS—A large, deep green podded sort, popular with gardeners. It matures extra early and is quite productive.

*IMPROVED TELEPHONE (Dark Green or Alderman strain)—Dark green vines and pods. Vigorous growth, 5 to 8 feet tall, producing enormous crops. Pods 4½ to 5½ inches long, containing 8 to 11 peas of high quality. Excellent for home gardens, market gardens and shipping. Our strain is prized by market gardeners.

*THOMAS LAXTON—An early, medium large podded pea of high quality. Vine 3 to 3½ feet. Dark green pods 3½ inches long with 7 to 8 peas. Ideal for market, canning and freezing. Heavy production. Exceptionally sweet and tender. Especially good for freezing.

*ALASKA—An extra early, smooth seeded pea. Vines about 2½ feet tall. Well filled pods of medium size, filled tight with small light green peas. It can also be used for pea soup when ripe.

*MAMMOTH MELTING SUGAR (Edible pods)—The large, broad pods are 5 or 6 inches long and are cooked like snap beans. Pkt. 10c; ½ lb. 35c; lb. 60c.

Bottle Mushroom Spawn

Grown in sterile bottles which are removed and the spawn then packed in cartons. One carton of spawn sufficient for 40 sq. ft. of bed. Produces fine white mushrooms. **Postpaid. Per carton, \$1.45.**

Peas, Improved Telephone, This Page.

Dwarf Varieties

*LITTLE MARVEL — Superior to the American Wonder with 3-inch pods and of better quality. Very popular.

*PACIFIC MARKET (No. 40) — A splendid dwarf variety for shippers and market gardeners. Plants are dark green, stocky and branching, resistant to Fusarian wilt. Pods round, dark green, plump, pointed, curved at tips and containing 8 to 10 large peas of finest quality, suited for market, freezing or canning. Vine 28 inches, pods 5 inches long.

IMPROVED STRATAGEM—Valuable late variety. Ideal for late planting and most resistant to summer heat.

*LAXTON'S PROGRESS or IM-PROVED LAXTONIAN — Pods larger than Hundredfold and a few days earlier. Vines medium dark green; pods handsome dark green; peas large and extra sweet. Very popular with home and market gardeners. Extra fine for canning and freezing.

*MORSES' PROGRESS (No. 9)—A new type of Laxton Progress popular with market gardeners. Pods slightly larger, maturing a few days earlier than Laxton's Progress. Crop matures very evenly.

*GIANT STRIDE — Heavy yielding; high quality. Pods same size and shape as Alderman. Same season. Vines about 2 feet. Recommended for market and home gardens.

-23-

*SWISS or CHINA PEAS — Dwarf bushy plants producing short, wide pods carrying 2 or 3 wedge shaped peas of light cream color. These are used for baking and soup. We have finally produced a limited amount of this pea so many have been asking for. Postpaid. Pkt. 15c; ½ lb. 50c.

Succession Pea Collection

We offer the following suited for home gardeners who wish a variety of peas running from early to late. Postpaid. 1 Pkt. each. Little Marvel, Laxton's Progress, Giant Stride, Improved Telephone and Improved Stratagem. Worth 50c for 40c; ½ lb. each for \$1.10, or 1 lb. each for \$2.00. Add 20c to each pound collection, 4th zone and beyond.

Okra

CULTURE—Okra is easy to grow. Plant May 20th to June 20th. Try planting some of this fine vegetable.

PERKIN'S MAMMOTH LONG GREEN—Medium early, very productive. Pods 7 to 8 inches long, slender, meaty, tapered and ribbed. Postpaid. Pkt. 10c; oz. 25c; ½ lb. 45c; lb. \$1.10.

EARLY DWARF GREEN — Very productive of short, deep green pods. Pkt. 10c; oz. 25c; ¼ lb. 45c; lb. \$1.10.

ONION PLANTS

WHITE BERMUDA, UTAH SWEET SPANISH, WHITE SWEET SPANISH, WALLA SWEET, WHITE PORTUGAL, and DOWNING'S YELLOW GLOBE—These will grow early onions of mild flavor. (Ready late February.) Plant in the spring as soon as weather permits. Prices postpaid. 1 bundle, about 75 to 100 plants, 35c; 2 bundles, 65c; 5 bundles, \$1.30; 10 bundles, \$2.35. Shipments beyond 4th zone not recommended. Write for prices on crates of 60 bundles.

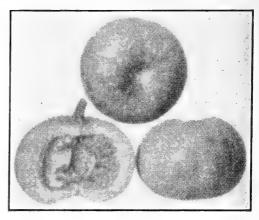

SWEET POTATOES

CULTURE—Set out in rows 3½ feet apart and 15 inches apart in row, about May 15th to June 20th. Use sandy loam soil in a warm location. Acclimated fresh dug plants are very essential. We do not supply tubers. Each year there is a steady increase in home garden planting of Sweet Potatoes. They are quite easy to grow.

PRICES ON PLANTS—Strong, healthy plants of local growth. Postpaid. Doz. 65c; 3 doz. \$1.35; 100 for \$2.50.

NANCY HALL—Produces good sized tubers of medium length and quite thick in diameter. The flesh is of a rich orange color and very sweet. It is more like a yam than a sweet potato.

PORTO RICO—A large, reddish skinned sort. Strong, vigorous grower, producing heavy crops.

Pumpkin, Orange Winter Luxury, Page 25.

Parsley

CULTURE—Plant in early spring, covering about $\frac{1}{2}$ to 1 inch deep. Can also be planted up to July 15th with later plantings 1 inch deep.

TRIPLE MOSS CURLED—Dark green moss-like leaves. Postpaid. Pkt. 10c; oz. 25c; ¼ lb. 50c; lb. \$1.50.

PLAIN—Leaves plain; dark green, deeply cut, but not curled. Pkt. 10c; oz. 25c; ¼ lb. 50c; lb. \$1.50.

HAMBURG or TURNIP ROOTED— For flavoring soups and stews. Postpaid. Pkt. 10c; oz. 30c; ¼ lb. 75c.

PEANUTS

Many home gardeners have been quite successful growing peanuts here at Portland, thus indicating they can be grown successfully in this climate. Plant in corn planting weather, either shelled (leave brown skin on kernels) or in shells. Postpaid. Pkt. 15c; ½ lb. 45c; lb. 75c.

Leek

Easy to grow and will stand through the winter without injury from freezing. It is ideal for soups and stews. It can be planted in rows from seed or it can be transplanted when the plants are small. Plant from early spring up to June 1st. If bleaching is preferred cover with soil except a little of the tip leaves.

MUSSELBURG—Vigorous, large sort, suited for market or home use. Pkt. 15c; $\frac{1}{2}$ oz. 35c; oz. 60c; $\frac{1}{4}$ lb. \$1.50; lb. \$4.00.

POTATOES

We can supply seed of most leading sorts, such as Earliest of All, Early Rose, Netted Gem, Burbanks, White Rose and Bliss Triumph. Write for our current price list, including varieties available.

PRICES ON SMALL LOTS—Postpaid. 2½ lbs. for 60c. We do not send potatoes C.O.D. Except for the small lots quoted above, be sure to instruct about shipping. If by parcel post allow for postage.

-24-

PEPPERS

CULTURE—Start plants in a hot bed or in pots in a warm room in February or early March. Transplant to open ground May 10th to 20th, rows 3 feet apart, 2 feet in rows.

PRICES—Unless noted are uniformly: **Postpaid.** Pkt. 15c; $\frac{1}{2}$ oz. 60c; oz. \$1.00; $\frac{1}{4}$ lb. \$3.00; lb. \$9.25.

OAKVIEW WONDER—A week earlier than California Wonder; slightly smaller, but thicker and more symmetrical. It has the same high quality. Yields heavy and very uniform.

FLORAL GEM—Very hot, heavily productive early pungent pepper. Fruit ¾ to 1 inch thick and 2 inches long; bluntly conical; waxy green turning to scarlet.

CALIFORNIA WONDER — This fine pepper has the heaviest meat of all. Large, blocky fruit, exceptionally mild and sweet. Fruit mostly upright, crimson, measuring $4\frac{1}{4}$ inches long by 4 inches in diameter. Season medium.

HARRIS EARLY GIANT — Valuable where season is short; also where ripe, red fruit is desired. Large, sweet peppers on dwarf, upright plants. Deep green, changing to bright red; very mild. Two weeks earlier than California Wonder.

AVALON—A miniature sweet pepper of even smooth form, rather button shaped and about 2 inches wide by 1 inch in diameter. This uniform size and shape makes them ideal for canning, pickling or salads. Fruits bright glossy red, thick and sweet, juicy, crisp and delicious. Pkt. 15c; oz. 85c; ½ oz. \$1.50; oz. \$2.50.

LONG RED CAYENNE—Long red peppers; extremely hot. **Postpaid. Pkt.** 10c; ½ oz. 30c; oz. 50c; ¼ 1b. \$1.60.

PIMIENTO—Large plants, erect, prolific. Fruit heart shaped, bright red, thick meated and sweet. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.60.

PUMPKIN

CULTURE — Plant May 10th to 20th in rows 8 feet apart and 6 feet in the row, about 8 to 10 seeds to hill, thinning to two good plants. Turn vines with the row to permit cultivation. Use 200 pounds Land Plaster to the acre, plowing it in; also 750 to 1000 pounds 5-10-10 Fertilizer.

PRICES—Unless noted are uniformly: Postpaid. Pkt. 10c; oz. 25c; ½ lb. 70c; lb. \$1.60.

*ORANGE WINTER LUXURY — This improved strain of our own introduction is far better than the original. The skin, a rich golden orange, is covered with a fine netting, while the meat is very thick, fine grained and of rich golden yellow. It is by far the best pumpkin. Simply cook it done and it is ready for use in making pies. It requires less sugar and eggs than other varieties. Extra early and of medium flattened shape. A splendid keeper that has no equal in quality or appearance. Seed of our own growing.

Radish, Cherry Belle, Page 26.

PUMPKIN—Continued

CHEYENNE BUSH—A new variety of bush growth. This is valuable for home gardens where space is important. A little smaller than Winter Luxury but without nettings. It produces 3 or 4 rich, golden pumpkins right around the crown of the plant. Fine quality. Pkt. 15c; oz. 35c; ¼ 1b. 85c; lb. \$2.50.

CONNECTICUT FIELD or JACK O'-LANTERN—The common field pumpkin grown for stock feeding and Jack o'Lanterns. Rich, orange colored skin.

SMALL SUGAR — Rather round fruit of small size, 5 to 7 inches in diameter. Smooth skin of bright orange color. Fine quality for pies. Early maturity.

KING OF MAMMOTH—A giant, often weighing 200 pounds; suited for feeding and exhibition. Not suited for Halloween.

Rapa

An Italian vegetable valuable for greens. Sow broadcast in mid-August for early fall use. Sown in mid-September, it provides fine greens very early in the spring. Foliage resembles turnips. The young, tender leaves surround a small head of fine, deep green buds. Both are cut for greens. If you like turnip greens, you will be pleased with this. Very nutritious and easy to grow. Pkt. 15c; oz. 35c; ¼ lb. 85c; lb. \$2.50.

FLORIST PRICE LIST

This will be mailed upon request. Please send license number with your request.

-25-

RADISH

CULTURE—Radish can be planted almost the year around, except during cold weather months. They can be planted in the fall as late as October 15th. They are then available during winter months.

PRICES—Unless noted are uniformly: Postpaid. Pkt. 10c; oz. 20c; ¼ lb. 40c; lb. \$1.00. Write for prices on larger quantities.

PERNOT (The Fire Cracker Radish)—A wonderful new radish that is very striking in color. A slender radish about 3 inches long, bright red with a distinct white tip. It is very early and of fine flavor. Ideal for home or market. Pkt. 10c; oz. 25c; ¼ lb. 55c; lb. \$1.25.

HALF LONG RED WHITE TIPPED—A long radish of soft red, tipped white. Exceptionally mild and fine flavored. This radish was imported from Europe and is especially valuable for home gardeners. Early maturity.

CHERRY BELLE—All-America. Bronze Medal '49. Attractive cherry red and very brilliant. Crisp, round radishes that keep well without going pithy. Top rather short making it ideal for planting outside for summer crops, also for forcing inside. Pkt. 15c; oz. 25c; ¼ lb. 55c; lb. \$1.25.

COMET — Ball shaped, bright scarlet; small tap roots. Splendid quality. Will remain crisp and solid when other early radishes have become pithy. Very popular with home and market gardeners.

SPARKLER WHITE TIP—The lower third is white with bright red on upper portion. Popular for home use and market gardeners.

EARLY SCARLET GLOBE — Medium tops. Beautiful scarlet globe-shaped radish, of quick maturity and exceptionally fine flavor. Very fine market sort.

CRIMSON GIANT—A crimson, turnipshaped radish that combines large size with superior quality. Popular for late spring and summer use.

WHITE ICICLE—A splendid white radish of long shape and with mild flavor. Very popular.

PHILADELPHIA WHITE BOX — Medium early. White variety for forcing or outside. Round roots, crisp and mild.

Oriental Radish

NERIMA—Often grows 15 to 18 inches long and 1½ to 2½ inches in diameter; skin pure white. They can be dug and covered with soil, keeping throughout the winter. Sow in rows 2½ feet apart about August 1st and thin to 1 foot apart. Plant in rich, well-drained soil. Pkt. 15c; ½ oz. 35c; oz. 60; ¼ lb. \$1.65; lb. \$4.50.

SEE WINTER RADISH ON NEXT PAGE.

SPINACH

CULTURE—Sow in drills 16 to 20 inches apart, thin to 3 inches. For early use, sow in the fall, or sow in early spring for late spring or summer use. Good fall spinach can be grown by planting seed August 20th to September 1st, and winter spinach can be planted until October 15th.

PRICES—Unless noted are uniformly: Postpaid. Pkt. 10c; oz. 20c; ¼ lb. 40c; lb. 90c. Not prepaid, lb. 75c; 10 lbs. @ 70c lb. Write for prices on quantities.

AMERICA (All-America Winner, Silver Medal 1952) — A cross between Bioomsdale Longstanding and Viking. Plants 6 to 8 inches high and 10 to 12 inches wide. Very thick, glossy dark green leaves. America is the best long standing, heat resisting, heavy yielding, savoyed leaved spinach on market today. Pkt. 15c; oz. 30c; ¼ lb. 75c; lb. \$1.50.

GIANT CAVALLIUS—A giant, valuable for greenhouse culture; also for outside planting during late fall or winter in mild climates near the coast. It is claimed to produce 3 to 6 times more than standard varieties. In greenhouses it develops its greatest production during a maximum day length of 10 to 11 hours. The plants are tall with smooth leaves of bright green color. Ift planted during spring and summer it will grow about like ordinary spinach. Therefore it should be planted in greenhouses for growth during the dark winter months. Prickly seeded. Pkt. 15c; oz. 50c; ¼ lb. \$1.25; lb. \$3.00.

ADVANCE—A new giant from Holland. Large heavy leaves of dark green. Ideal for home or market. Prickly seeded.

*GIANT LEAF or NOBEL—The largest and the most productive of any sort we have tried. Plants 20 inches across are not uncommon on good soil. The leaves are simply immense and deep green. Very heavy, brittle and tender. It is very slow to run to seed and is especially valuable for spring, summer and fall cutting.

*IMPROVED THICK LEAF or VIRO-FLAY—This variety is very popular and we have a fine strain of seed. The leaves are broad and smooth and of medium deep green. It will stand more cold weather than any other sort and is very popular for fall sowing and early spring.

New Zealand Spinach

A good summer vegetable which resists the heat and can be cut throughout the season. Plant seed after the ground becomes warm. It differs in appearance from the regular spinach but is prepared in the same manner. Postpaid. Pkt. 10c; oz. 30c; ¼ lb. 65c; lb. \$1.50.

If you buy for commercial market gardens write for our Market Gardener Price List.

Winter Radish

Prices on both: Postpaid. Pkt. 10c; oz. 20c; ¼ lb. 40c; lb. \$1.00.

SCARLET CHINA — Roots of bright scarlet color. Fine quality. Sow in late August for winter use.

WHITE CHINESE—Long, white, stump rooted radish, solid, crisp and mild.

Radish Collection

We will mail one packet of each of the 9 varieties of radish listed in the opposite column (not including Nerima), plus the 2 varieties of winter radish listed above, worth \$1.15 for 70c.

RUTABAGA

CULTURE—Sow in drills, 3 feet apart; thin to 6 inches apart. May be planted from June 15th to July 15th. The later sowings produce the best quality. Can be sown broadcast in mid-July.

IMPROVED PURPLE-TOP YELLOW (Regular Strain) — Produces smooth, globe-shaped roots of good size. Flesh deep yellow and fine grained. Postpaid. Pkt. 10c; oz. 20c; ¼ lb. 40c; lb. \$1.25.

*GOLDEN NECKLESS (With purple tops)—Similar to the above except it is short necked like a turnip. Exterior skin golden yellow under ground with high quality yellow flesh. Our strain is very popular with market gardeners to whom we supply large quantities of seed. Postpaid. Pkt. 10c; oz. 20c; ¼ lb. 40c; lb. \$1.25.

LAURENTIAN—A new neckless type. Roots purple topped, clean, well shaped; skin thick and a good keeper. Flesh light yellow or cream color, fine grained and excellent quality. Pkt. 10c; oz. 20c; ¼ lb. 35c; lb. \$1.00.

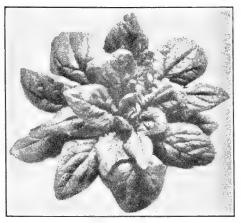

SUMMER SQUASH

PRICES—Unless noted are uniformly: Postpaid. Pkt. 10c; oz. 25c; ¼ lb. 70c; lb. \$1.75.

CASERTA (All-America Gold Medal, 1949) — From one or two weeks earlier than Cocozelle and much more prolific. Bush form. Skin color is more yellow and less regularly striped green than the Cocozelle. Its principal values are earliness and quality. Pkt. 15c; oz. 35c; 1/4 lb. \$1.00; lb. \$2.85.

COZINI — Prolific, new, early variety. Squash very smooth, dark green, straight and blocky, firm fleshed and remaining edible over a long period, also with fine cooking quality and flavor.

YANKEE HYBRID—This hybrid cross is similar in appearance to Early Prolific Straightneck but is extra early. Market gardeners are using it with fine success. Postpaid. Pkt. 15c; ½ oz. 40c; oz. 75c; ¼ 1b. \$2.00; lb. \$6.00.

Spinach, Giant Leaf, Page 26.

SUMMER SQUASH—Continued

ZUCCHINI (Italian Squash)—It should be used quite young, when 3 to 6 inches long. The color is mottled deep green.

BLACK ZUCCHINI — Like Zucchini, except that it is of much darker green.

COCOZELLE or ITALIAN MARROW
—Dark green when young, changing to
lighter green as it matures. One of the
earliest kinds and of high quality.

GIANT SUMMER CROOKNECK — Grows larger than the common sort. Golden yellow and thickly warted.

EARLY S U M M E R CROOKNECK — Smaller, earlier and much more prolific than Giant Crookneck. Deeper gold color.

A selection from the Crookneck strain. More uniform thickness and packs better. Well warted and good quality.

MAMMOTH WHITE BUSH SCALLOP—Early; large, pure waxy white skin; somewhat flattened in shape.

BENNING'S GREEN TINT BUSH SCALLOP — Uniform, prolific squash of pale green, favored in the markets.

EARLY GOLDEN PROLIFIC STRAIGHTNECK—The fruits are of medium size or smaller than the Giant Straightneck but the color is a little deeper golden. The plants are much more productive than Giant Straightneck and about 10 to 15 days earlier.

Salsify

(Vegetable Oyster)

MAMMOTH SANDWICH ISLAND—A good sort and most generally planted. Cultivate same as carrots. Postpaid. Pkt. 10c; ½ oz. 30c; oz. 55c; ¼ lb. \$1.35; lb. \$3.75.

Northwest grown seeds are indicated in this catalog with a star (*). Quality, not price, is the first consideration in buying seed. Considering quality, our prices are reasonable.

SQUASH---Winter Type

CULTURE—Plant from May 10th to 25th in rows 10 feet apart, spacing hills 3 feet apart, using 8 to 10 seeds to the hill. Thin to one or two strong vines. Sow 200 pounds of land plaster to the acre and plow in. Write us for our squash Bulletin. Use plenty of fertilizer.

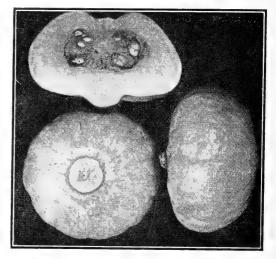

PRICES—Unless noted: Postpaid. Pkt. 10c; oz. 30c; ¼ lb. 80c; lb. \$2.00.

SUGAR HUBBARD (See Back Cover) -Our new squash for 1953. A cross between selections of Sweet Meat and True Hubbard. It contains most of the good qualities of both and we believe will become a splendid addition for home and market gardeners. It has the fine grain and sweetness of Sweet Meat plus the large size and shape of the Hubbard. The flesh is golden like a good Hubbard and more moist than Sweet Meat. It has wonderful keeping qualities and we have held them in common warehouse storage, in fine condition, for one year. The flesh is very thick and the skin is blue-grey with slightly darker color than Sweet Meat. It will easily reach 40 pounds in weight. The skin has no hard shell resembling Sweet Meat in that respect. We are proud of this new Squash of our origination. The seed is limited this year. Packets only at 20c each.

NEW GOLDEN PIPPIN (See back cover) — Another fine new squash by Gill Bros. Seed Co. All seedmen know how hard it is to develop and fix the type on a new variety of squash. We have worked on this variety for ten years and the shape is not completely fixed yet, but color and quality are well established. The heavy meated little squash are ideal to serve. Bake and serve onehalf squash to each person. The average weight is about 1¼ to 1½ pounds, and they average $3\frac{1}{2}$ to 4 inches in diameter and $4\frac{1}{2}$ to $5\frac{1}{2}$ inches long. The flesh is deep yellow, fine grained and of mild, sweet flavor. The flavor is much milder than the Table Queen varieties. When fully ripe they are good keepers and are also ideal used as a summer squash when picked in the young stage of about 2 inches in diameter. In this stage they are nearly white in color. Ideal for home use and destined to become a popular market variety. Don't miss this fine new squash. Pkt. 20c; ½ oz. 40c; oz. 75c; 1/4 lb. \$2.25.

*UMATILLA MARBLEHEAD—Selected by the Eastern Oregon Experiment Station for resistance to blight. It is very uniform in shape and color and a very heavy producer of large, thick meated squash. The meat is golden yellow and of fine quality. The squash are rather oblong and often weigh 30 to 40 lbs. each. The seeds are yellow brown. Seed crop very short. Postpaid. Pkt. 15c; oz. 45c; 1/4 lb. \$1.25; lb. \$3.50.

GENEVA DELICATA (Sweet Potato)
— Small, weight 2 to 3 pounds; striped cream and dark green. Excellent quality.

New Squash, Sweet Meat, This Page.

*SWEET MEAT—Reports from all over the Nation commend this squash. Many report it as the best squash yet introduced. We have no hesitation about featuring this squash. Its name tells part of the story, for it is the sweetest squash we have ever seen and it is also the longest keeper. We kept six squash in good edible condition from crop to crop. The texture of the meat is very fine grained and as sweet as the finest sweet potato. The meat is very thick, making a squash surprisingly heavy. They are not very large, being of a good family size, and averaging about 8 to 12 pounds each. They are shaped like the turban type but the indentation or knob at the blossom end is smaller than most of the turban type. The color is slate with slight greenish cast. The variety is well fixed in type.

An unusual feature is its long keeping qualities and also the fact the flavor and sweetness increase with age for at least six months from harvest. It is a very vigorous grower and unusually free from disease. The squash are very uniform in size, color and shape. We have received more recommendations for this than for any variety we ever handled. Its high quality is winning great favor all over the nation. Pkt. 15c; ½ oz. 30c; oz. 50c; ½ lb. \$1.35; lb. \$3.50.

*YAKIMA MARBLEHEAD—Large slate colored variety of fine quality. It produces heavy yields of thick meated squash. Popoular shipping variety. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00.

*JUMBO TABLE QUEEN—About onefourth larger than the Table Queen but of like shape and quality.

--28--

*GILL'S GOLDEN DELICIOUS — We take great pride in offering this remarkable squash of our own origin. This variety and Sweet Meat excel for quality. However, these two varieties have different flavors. It is the finest squash for pie, and when picked young as a summer squash its quality is outstanding. The flesh and skin are a rich golden orange with no trace of green near the rind. The flesh is two to three inches thick. It cooks extra dry, fine grained and sweet. Many of our friends say, "It is better than a sweet potato." The skin is thin without a hard shell, but it is a fine keeper for winter use. On account of its high quality and attractive color, it has created a sensation with canners and freezers and those who tested it claim it has the highest starch content of any variety they have tried. It grows very vigorously and produces heavy crops. We are continually improving this variety.

ORANGE BANANA (New) — A deep orange red. Large, long squash of finest quality. A long keeper. Very attractive. Pkt. 15c; oz. 40c; ½ lb. \$1.00; lb. \$3.00.

*BLUE HUBBARD—Superior quality, great production and attractive appearance make this a favorite, especially in New England. Thick flesh; very hard blue-gray rind, weight 12 to 15 pounds.

GOLDEN HUBBARD — Orange red Hubbard type but earlier and smaller;

fine quality.

BUTTERCUP—A small turban shaped squash weighing about 3 to 4 lbs. Rind thin and tough, dark green with narrow gray stripes. Adapted to home gardens and a very good keeper. Pkt. 15c; oz. 40c; 1/4 lb. \$1.00; lb. \$2.80.

BUTTERNUT—A fine squash suited for winter use. 10 to 12 inches long with thick orange colored flesh of fine table quality. Do not confuse with Buttercup. Small seed cavity in one end of the long, pear-shaped squash. Pkt. 15c; oz. 40c; ½ 1b. \$1.00; lb. \$2.85.

A golden strain which we have selected and developed out of Table Queen. Thicker meated, better quality and more attractive for table use when baked. Also delicious used as a summer squash when the fruits are 2" to 2½" long.

DELICIOUS — An extra sweet, fine-grained, dry cooking squash. Medium size, top shaped with greenish-black skin; flesh very thick, orange colored and with small seed cavity.

BANANA — This squash is in great demand and we have a very fine strain. The exterior of the skin is grayish-green color, while the meat is a rich orange. The average size is from 24 to 30 inches in length and 8 inches in diameter. It is claimed to be resistant to blight.

*TABLE QUEEN or ACORN or DAN-ISH—A miniature squash growing about 7 inches long and 4 to 5 inches thick. Thin skin of dark green; early maturing. Desirable for home and market garden, also for shipping. It is hard to secure true types, therefore, we have made selections for many years and offer one of the best strains to be had. We have a large trade with market gardeners who ask for our strain. Seed of our own growing.

*BABY HUBBARD — They average about 6 to 8 pounds. Well suited for crating and popular for home gardens. Fine quality and good keepers. Nearly round in shape. Postpaid. Pkt. 10c; oz. 30c; ¼ lb. 85c; lb. \$2.50.

BOSTON MARROW — Orange colored squash of large size used by canners.

PINK BANANA—Same as above except the skin is pinkish orange.

*TRUE HUBBARD — Selected strain, and while we do not consider it equal to Delicious in flavor, it is a heavier yielder and better known in the market. We have a true stock of seed carefully selected for color, shape, and quality.

Sunflower

MAMMOTH RUSSIAN—This is one of the heaviest yielders and produces extra large heads, well filled with large, plump seed. Postpaid. Oz. 10c; lb. 60c. Not prepaid, lb. 50c; 10 lbs. @ 40c lb.

Tampala

TAMPALA (Regular) — A new green vegetable, the leaves of which are used like spinach. It retains its tenderness for a long period and is suited for warm weather. It can also be used as a fresh salad. The leaves have more body, more flavor and more food value than spinach. It should be planted in fairly warm weather. Postpaid. Pkt. 15c; ¼ oz. 35c; oz. \$1.00.

RED TAMPALA—Same as above except that foliage has a red tone. **Pkt. 15c**; 1/4 oz. 75c; oz. \$2.25.

Tobacco

CONNECTICUT SEED LEAF—The earliest maturing sort for the Northwest. Pkt. 15c; ½ oz. 50c; oz. 90c.

WHITE BURLEY—Long, broad leaves. Very prolific. Pkt. 15c; ½ oz. 50c; oz. 90c.

SEEDS SMALL PART OF COST

Why prepare and cultivate a garden with the cheapest seed? A few cents additional in cost of seed may spell the difference between success and failure. Our vegetable seeds are very popular with market gardeners. Cheap seeds are usually dear at any cost. Yet, with all, our prices are reasonable and still maintain quality.

 -29^{-2}

TOMATOES

CULTURE—Plant seed in box inside or in hotbed from February 15 to March 15. Transplant May 10 to 25; rows 6 feet apart and 4 to 6 feet in rows; use light, loamy soil; fertilize with 3-10-10.

PRICES—Unless noted are uniformly: Postpaid. Pkt. 10c; $\frac{1}{2}$ oz. 45c; oz. 85c; $\frac{1}{4}$ lb. \$2.10; lb. \$6.75.

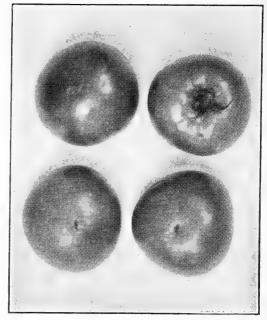

*GILL'S ALL-PURPOSE --- Our 1947 introduction and originated by Gill Bros. This grand tomato is just like its name implies and is fine for all the main purposes. Field trials indicate that this variety produces its main crop as early as Select Earliana. Ideal for canning or juice, also splendid for home gardens and market gardens. It is a cross between Wasatch Beauty and the Pepper tomato and retains the best qualities of both. Outstanding for yield, appearance, quality, flavor. It produces heavy yields of large, uniform fruit on self-terminate vines. The fruit is bright red, possessing the solid, deep red interior of the Pepper tomato and with its fine flavor. On account of its excellent flavor and solid meat it is ideal for slicing. Fruit free from large cores and of half globe shape. The blossom ends of the fruit are ideal and free from so-called "monkey faces." Vines vigorous and healthy and unusually resistant to disease. Fruit of large size, but not as large as the Wasatch Beauty. They pack well and stand shipment better than most sorts. Pkt. 15c; $\frac{1}{4}$ oz. 80c; $\frac{1}{2}$ oz. \$1.50; oz. \$2.35; $\frac{1}{4}$ lb. \$6.50; lb. \$15.00.

VICTOR—An extra early variety with self topping vines which are rather small and suited for home gardens. Heavy cropper of medium sized fruit. Pkt. 15c; ½ oz. 40c; oz. \$1.25; ½ lb. \$4.00.

*GILL'S SELECTED EARLIANA—For years we have given personal selection to this strain and we now have one of the best, extra large, smooth Earliana strain. The fruit is of bright deep red color, rather thick from stem to blossom and unusually solid. Owing to the fact that it is a shy seeder we must ask more for the seed than other sorts. Do not confuse this with the ordinary strains of Earliana. Reports from large growers claim this is the best strain of Earliana they have tried. Do not fertilize with any kind of manure in growing Earliana strains as it will produce rough fruit. Use 3-10-10 fertilizer. Postpaid. Pkt. 15c; ¼ oz. 25c; oz. 90c; 1/4 lb. \$2.75; lb. \$8.50.

PEAR TOMATO — Popular for preserves and matures heavy yields quite early. We offer both **red** and **yellow**.

SAN MARZANO (Italian Paste Tomato)—For preserves, puree and solid pack canning. Two celled fruit 3½" long and 1½" thick. Color deep red; very little juice and mild in flavor. Pkt. 15c; ¼ oz. 40c; oz. \$1.25; ¼ lb. \$3.75.

Tomato, Gill's All-Purpose, This Page.

*IMPROVED PEPPER TOMATO—We have selected this for several seasons and now have heavy yields of large, smooth fruit, ideal for market. It is very resistant to rain cracks, practically every fruit is smooth, generally of near globe shape, and they are exceptionally solid, containing very little seed. The fruit is red with a pink tone and the sweetest of any we have tried, being unusually free from acid. Ideal for tomato juice and by far the best for slicing. Every year this variety has gained rapidly in popularity. Many home gardeners will have nothing else. Postpaid. Pkt. 15c; ¼ oz. 35c; ½ oz. 60c; oz. \$1.00; ¼ lb. \$3.50; lb. \$12.00.

*IMPROVED WASATCH BEAUTY—In 1939, we introduced this remarkable tomato and we have improved it each year. It is early in maturity and very heavy bearing. The branches terminate in a cluster of fruit, making a compact plant and more plants may be set per acre. The fruit is half globe shaped, firm and smooth; a beautiful red color, and borne in clusters of three to six good sized tomatoes. It is an especially good shipping and canning variety. Both market and home gardeners should try this outstanding tomato. One of the best producers for commercial canning. Postpaid. Pkt. 15c; ¼ oz. 60c; ½ oz. \$1.00; oz. \$1.60; ¼ 1b. \$4.00; lb. \$12.00.

*PORTER TOMATO — A very sweet little tomato of pinkish red color. One tomato is a mouthful and can be eaten without getting juice on clothing. It is ideal for lunches and munching between meals. A heavy cropper and little subject to cracking. Round globe shape and very uniform. Diameter about ¾ to 1 inch. Pkt. 15c; ¼ oz. \$1.00; oz. \$2.50.

---30---

EARLY HYBRID — A new hybrid of early mid-season, or 70 days. A main crop tomato well suited for home gardens, markets or canning. Earlier and better yielding than Marglobe or Rutger's; quality and flavor outsanding. Fruit globular, very smooth, medium to large size, scarlet red in color. High yielding from mid-July to frost. It has outstanding keeping qualities and is free from hard cores. Free from tough skin but with good solid flesh. It ripens evenly and holds up very well. Pkt. of 35 seeds 35c; $\frac{1}{16}$ oz. \$2.00.

*WASHINGTON FORCING—This new forcing tomato was originated by the Washington State Experiment Station and our seed was started from seed supplied from that station. Fruit medium large, sub-acid and fiery red. The fruit ripens with even color from blossom end to stem. Growth habit is similar to Seattle Best of All but fruit average about 25% larger. Pkt. 25c; 1/8 oz. 70c; 1/2 oz. \$2.50; oz. \$4.00.

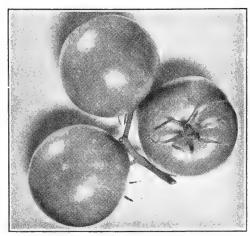

*SEATTLE BEST OF ALL—This strain has been developed by a Seattle market gardener who started his selections from the Best of All greenhouse variety. It is larger and more productive than the original and is suited for either greenhouse or open field culture. The fruit, borne in clusters of 6 to 9, are very uniform and of bright scarlet red color. Exceedingly heavy yields. Seed of our own growing. Postpaid. Pkt. 10c; ½ oz. \$1.00; oz. \$1.65; ¼ lb. \$4.50; lb. \$12.50.

BEEF STEAK—Large, bright red type of Ponderosa. **Pkt. 15c**; $\frac{1}{4}$ **oz.** 35c; $\frac{1}{2}$ **oz.** 65c; oz. \$1.00; $\frac{1}{4}$ 1b. \$3.25.

EARLY CHATHAM (Certified)—Extra early; bright red fruit of medium size on rather small plants. The branches terminate in dense clusters of fruit. The heavy production on small plants make it ideal for home gardens of limited space. Pkt. 15c; ½ oz. 45c; oz. \$1.25; ½ lb. \$4.00.

*JUBILEE—Bronze Medal in 1943 All-America trials. Large globe-shaped fruit of deep orange color. The flesh is very solid, deep orange in color and of fine flavor. Good for slicing, canning or juice. This variety has attained rapid popularity. Selected seed of our own growing. Postpaid. Pkt. 15c; ½ oz. 80c; oz. \$1.50; ½ 1b. \$4.50.

VALIANT—This tomato is becoming very popular with market gardeners. A half-brother of Stokesdale, it develops a deep Marglobe type tomato and ripens within 3 days of Earliana. It is 4 days earlier and often 2 ounces heavier than Stokesdale. A valuable tomato for market. Our sales have steadily increased on this variety. Postpaid. Pkt. 10c; ¼ oz. 45c; oz. 85c; ¼ 1b. \$2.75; lb. \$8.25.

Improved Pepper Tomatoos, Page 30.

PONDEROSA — Fruit of inviting flavor; very large, flat, purplish pink, somewhat rough; solid with small seed cells. Matures rather late. **Pkt. 15c**; ¼ **oz. 35c**; ½ **oz. 65c**; **oz. \$1.10**; ¼ **lb. \$3.25**.

BREAK O'DAY — Ten to twleve days earlier than Marglobe. Solid fruit of bright scarlet; very few seeds. Wilt resistant. Desirable for home canning. Outstanding in flavor and next to Improved Pepper in sweetness.

MASTER MARGLOBE (Certified Seed)—A very popular market and shipping tomato. Average weight 6 ounces, ratio depth to width 90%. A second early, thick meated, bright red tomato.

JOHN BAER — Extra early, large, bright scarlet fruit, smooth and firm. Extra heavy producer. Ideal for market.

THE PRITCHARD, CERTIFIED (Scarlet Topper)—In earliness similar to Break O'Day. Exterior and interior color intense scarlet. Fruit of half globe shape and very solid. A tremendous cropper and very popular with market gardeners.

STOKESDALE—An outstanding variety, very popular with growers for local markets and shipping. Matures along with Bonny Best. Bright red fruit that is smooth and uniform.

RUTGER'S — Notable for high yield and uniform ripening of medium to large fruits of fine quality. Shape similar to Marglobe. Especially recommended for commercial canning and juice.

SCARLET DAWN — An early variety with medium vines, very prolific. Medium large fruit, smooth, globular; attractive bright scarlet. Fine quality and flavor. A fine early tomato.

IMPROVED PEARSON — Scarlet tomatoes of medium size and smooth flattened globe shape. Vine self-topping; plants vigorous. Season medium late. A good shipper. Pkt. 10c; ½ oz. 50c; oz. 85c; ¼ 1b. \$2.75; lb. \$8.00.

-31-

TOMATOES—Continued

colorado special — A new large strain of Earliana. It has performed very well for market gardeners. Uniform, smooth fruit maturing early. Pkt. 15c; ½ oz. 50c; oz. 90c; ¼ lb. \$2.75; lb. \$8.00.

BONNY BEST — We carry an extra fine strain of this early variety. Medium sized, uniform fruit of bright scarlet.

SUGAR or GRAPE TOMATO — Fruit the size of a Concord grape, set thick in long clusters. Very ornamental and good for preserves. **Pkt. 15c.**

GROUND CHERRY—Prized for preserves, pies or sauce. Will keep into the winter. Fruit yellow. Pkt. 10c; ½ oz. 40c; ½ oz. 65c; oz. \$1.00.

Hotkaps

Hotkaps protect growing plants, increase yields, mature crops 2 to 3 weeks earlier; insure premium prices. Order now. Prices prepaid: Pkg. 25 for \$1.00; 100 for \$3.50; 250 for \$6.40. Not prepaid: 1000 for \$18.35. Weight 33 lbs. Write for prices on quantities.

Cyclone Seeders

Small crank seeders; sows any kind of seed; adjustable. Postpaid to and including 4th zone: \$4.50. Extra postage beyond.

TURNIPS

CULTURE — Sow broadcast from August 1 to September 1 for late turnips. Milan varieties can be sown as late as October 1.

PRICES—Unless noted: Postpaid. Pkt. 10c; oz. 25c; 1/4 lb. 45c; lb. \$1.25.

EXTRA EARLY PURPLE TOP MILAN—Among the earliest; roots flat, white with purple top. The best for early planting and late fall sowing.

WHITE MILAN — Extra early; tops small; roots medium small, white, flat and of fine quality.

EARLY SNOWBALL—An extra early, round turnip, snow white, and crisp.

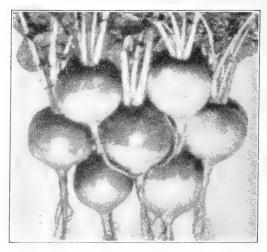

POMERANEAN WHITE GLOBE — Good either for stock or table and resists the worms the best. Splendid keeper.

*PURPLE TOP WHITE GLOBE—The best all-around turnip for fall and winter use. Its beautiful color, pure white with purple top, combined with its smooth globe shape, fine sweet flavor and its wonderful productiveness put this turnip in the top class for market or home use. Postpaid. Pkt. 10c; oz. 25c; ¼ lb. 40c; lb. \$1.00.

WHITE EGG—Pure white, egg shaped, early. Often used for bunching.

COW HORN — A large, long-rooted, white turnip for feeding purposes.

SHOGOIN (Foliage Turnip) — An oriental variety, very popular for greens. The leaves grow upright about 2 feet high. Roots semi-globe, pure white, tender and sweet.

Turnip, Purple Top White Globe, This Page.

Yellow Fleshed Turnips

PETROWSKI—Extra early, flat turnip of rich golden color. The flesh is light orange and of fine quality. This fine old variety is a very good keeper. You will like this fine turnip.

*ORANGE JELLY or GOLDEN BALL
—The best yellow sort for market or family use. Roots medium sized, round and smooth, with yellow skin and flesh. One of the best for winter keeping.

PURPLE TOP YELLOW ABERDEEN— Extensively grown for stock feeding.
Good keeper. Extra large.

YELLOW BORTFELDER — A heavy cropping, long keeping variety; very popular for dairy feed.

Lawn Mowers

We handle high grade hand and power mowers. Write for prices.

Canadian Peat Moss

(HORTICULTURAL)

Bales (about 100 lbs.), \$4.00 each. Not prepaid. Give shipping instructions. Write for quantity prices. Carton containing about 2 bushels when loosened, \$2.35 each. Postpaid. Beyond 4th zone additional postage required.

Field Seeds

We are located in the Willamette Valley, Oregon, where many varieties of field seeds are grown. We handle high grade seed and will be glad to send you our current price list anytime. Prices are subject to change at all times and F.O.B., Portland, Oregon. In case you need field seeds in a hurry send in funds and we will fill your order at the current price. In ordering, please give shipping instructions.

Rubber Knee Pads

for weeding, planting or working in the garden. They find a ready sale, indicating general satisfaction.

Price: \$2.50 per pair. Postpaid to 4th Zone.

HIGH GRADE LAWN GRASS

WRITE FOR PRICES ON QUANTITIES. We supply grasses for golf courses and other large planting. We will gladly quote you. All prices quoted are subject to market change.

We specialize in high-grade lawn grass seed. During the past few years, we have supplied lawn seed for some of the largest institutions in the Pacific Northwest. Whether it is a small lawn or a large one, we can supply the seed and we will be glad to quote you for quantities either on mixtures or separate grasses. Many of the lawn grass mixtures on the market contain rye grass seed. We consider rye grasses too coarse and too rapid of growth to be included in mixtures and therefore do not use them in our mixtures. In estimating the ground to be planted figure on one pound to 300 square feet of surface. If interested in lawns, write for free bulletin on "Lawn Culture" by Ray W. Gill.

In Western Oregon, Washington and California, September and October are ideal for sowing lawns. There is more moisture and annual weeds are killed by winter frosts. Be careful to plant early enough so that the roots will be established before hard frost might lift and break off the young roots.

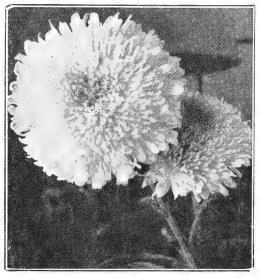

GILBRO SPECIAL — This super mixture is composed of the finest bladed grasses which are selected on account of their great endurance. It will make a soft velvety lawn of uniform texture and appearance. All varieties in this mixture tolerate acid soils, thus they respond rapidly with acid fertilizers which in turn reduce the weed menace. We have many reports from our customers, who are highly pleased with this mixture. It is adapted to shade or sun. If white clover is desired in the mixture please mention when ordering. This mixture contains 25% creeping bent, making it necessary to ask the following prices: Postpaid. Lb. \$1.55. Not prepaid, 5 lbs. or more @ \$1.45 per lb.

PACIFIC COAST LAWN MIXTURE—Climatic and soil conditions have much to do with the selection of varieties in lawn mixtures. This mixture is especially adapted to locations along the Coast and West of the Cascade Mountain range. It contains varieties which will respond in soils which are somewhat acid due to heavy winter rains. It is a very good mixture made from high grade grasses. It does not contain any rye grasses. It makes a hardy, fine bladed turf well suited to the average soil. If white clover is desired in the mixture please specify when ordering. Postpaid. Lb. \$1.35. Not prepaid, 5 lbs. or more @ \$1.25 per lb.

SWEET SOIL LAWN MIXTURE — There is the advantage of having a high grade mixture of lawn grasses for soils that are sweet or rather alkaline. We offer here a good mixture of fine bladed grasses which will respond in this type of soil. We secure the best success where the grass varieties are suited to the climate and soil. Postpaid. Lb. \$1.35. Not prepaid, 5 lbs. or more @ \$1.25 per lb.

RED CREEPING FESCUE—Rich, fine bladed foliage, making a splendid turf for shade or sun. Especially suited to sandy soils, banks, and terraces. One of our finest grasses. Many very fine lawns have been seeded with this alone and give splendid satisfaction. Postpaid. Lb. \$1.35. Not prepaid, 5 lbs. @ \$1.25 per lb.

CHEWING'S FESCUE—Extensively used for lawns and golf courses. It makes a fine, close turf, very resistant to tramping. Postpaid. Lb. \$1.35. Not prepaid, 5 lbs. @ \$1.25 per lb.

Aster, Princess Anne, See Page 34

BLUE GRASS and WHITE CLOVER—Well proportioned mixture. Postpaid, Lb. \$1.40. Not prepaid, 5 lbs. @ \$1.30 lb.

ASTORIA BENT (Blue Tag Grade) — A native acclimated sort grown in Oreg*n. Besides creeping on the surface of the soil it has jointed roots that creep under ground. It is the best bent grass for high, well-drained soils and is very resistant to drought. It is often found growing in almost pure sand. It makes a thick, close turf, with fine leaf blades. Postpaid. Lb. \$1.65. Not prepaid, 5 lbs. or more @ \$1.55 per lb.

A native, acclimated variety, largely grown in Coos County. It creeps on the surface of the ground. Postpaid. Lb. \$1.65. Not prepaid, 5 lbs. @ \$1.55 per lb.

KENTUCKY BLUE GRASS—A splendid general purpose grass for lawns, with hardy growth and fine, close turf. 25 lbs. per bushel grade. It does best on sweet soil. Postpaid. Lb. \$1.35. Not prepaid, 5 lbs. @ \$1.25 per lb.

WHITE CLOVER — Often used for lawns. We offer a fancy grade of seed for this purpose. Postpaid. Lb. \$1.35. Not prepaid, 5 lbs. @ \$1.25 per lb.

POA TRIVIALIS—Valuable lawn grass for shaded locations. In appearance it resembles Blue Grass. **Postpaid. Lb. \$1.45. Not prepaid, 5 lbs. @ \$1.35 per lb.**

---33---

ANNUAL FLOWER SEEDS

Annual flowers are those which grow, bloom, seed and die in one season. They are attractive in the garden—some for bedding, some for borders, some for rock gardens, some for climbing or trailing and others for their foliage effect only. Many are invaluable for cutting. There are annual flowers for every purpose; all are lovely and with proper selection, blooms can be had from early summer until frost. See page 45 for Perennial Flowers.

ASTERS

† Marked are asters of the wilt-resistant strains. We aim to supply the very best asters that can be grown or purchased, and the most up-to-date varieties and types will be found in our list. Asters are one of the best cut flowers that can be grown. Sow seed in boxes inside or in frames, about February 25th to March 15th, and transplant during May. Splendid blooms can be obtained by planting the seed in the open about May 1.

Princess Aster

An ideal type for florists, 3" to 3½" flowers on longstems, with crested centers that remain full when flower is completely open, surrounded by multiple rows of guard petals. Fine for home gardens because of high wilt resistance Plants 2 ft. to 2½ ft. tall, branching habit, blooms in late August. Prices unless noted: Pkt. 25c.

*NANCY (New)—Salmon Pink. Pkt. 50c.

†PAT-Bright crimson. Pkt. 30c.

*MARGARET-Florist rose.

†ELIZABETH—Pure white.

†SUSAN—True deep blue.

†BARBARA—Orchid.

*ANNE—Peach blossom.

*BONNIE—Soft Salmon pink.

*GOLDEN SHEAF—Yellow self.

†MARSHA—Cinnabar scarlet.

†MIXED—All above colors in mixture.

†GIANT CREGO—Immense fluffy flowers averaging 4" to 5" across. The plants produce an abundance of large flowers on good stems. SHELL PINK, ORCHID, WHITE, CRIMSON, AZURE BLUE, PEACH BLOSSOM, DEEP ROSE, MID-BLUE, PURPLE and MIXED. Pkt. 15c; ½ oz. 35c.

CALIFORNIA GIANT SUNSHINE—Blooms 4" to 5" across, having a single row of loose, outer petals with contrasting yellow, quill-like center disc. Plants 2' to 3' high. MIXED. Pkt. 20c; ½ oz. 50c.

†AMERICAN BEAUTY—September bloomer, 2½' to 3' tall, large, compact, semi-globular flowers. Very good stem. Especially good for cut flowers. WHITE, SHELL PINK, CRIMSON, AZURE FAIRY, MIXED. Pkt. 15c.

†EARLY GIANT PEACH BLOSSOM—White flushed lavender pink. Pkt. 20c.

*EARLY GIANT LIGHT BLUE— Clear rich light blue; extremely large. Pkt. 20c.

Aster, Super Giant Los Angeles, This Page.

†SUPER GIANT SANTA MARIA—The largest and most fully double pure white Aster we have ever seen, producing flowers over 6" with long lacy, white petals, curling from a fine interlaced center. Mammoth blooms are carried on stout 2½-ft. stems, branching from the base. Suited for florist and gardener trade. Pkt. 25c.

†SUPER GIANT EL MONTE—Deep glowing crimson; flowers large and fluffy. Pkt. 20c.

†SUPER GIANT LOS ANGELES—Pure shell pink, fully double. Excellent cut flower. Pkt. 20c.

†EARLY BEAUTY MIXED—Blooms with Crego type. Pkt. 15c; 1/8 oz. 55c.

†HEART OF FRANCE—A beautiful rich dark red, $1\frac{1}{2}$ to 2' branching plants. Pkt. 15c; $\frac{1}{8}$ oz. 45c.

†CALIFORNIA GIANTS—Immense flowers, often 5" to 6" across. Vigorous habit and long stems with Crego type of bloom. WHITE, PEACH BLOSSOM, LIGHT BLUE, DEEP ROSE, PURPLE, CRIMSON and MIXED. Pkt. 15c; ½ oz. 50c.

SINGLE RAINBOW UPRIGHT MIXED—Attractive medium-sized daisy like flowers on long stems. Plant may be cut as a bunch.Pkt. 15c; 1/8 oz. 50c.

—34—

SINGLE RAINBOW BRANCHING—Attractive flowers on long stems. Fine for continued cutting. Mixed. Pkt. 15c.

IMBRICATED POMPON—Mixed colors. Pkt. 25c.

FANCY MIXED—A mixture of all colors and types. Pkt. 10c; $\frac{1}{4}$ oz. 35c.

SPECIAL ASTER COLLECTION

We offer 6 packets of Asters, your choice of those priced at 15c Pkt.; postpaid for 75c.

Acroclinium (Everlasting)

MIXED—Double and semi-double daisy-like flowers with strawy petals of silky appearance. Nice to dry for winter bouquets, for which purpose cut the flowers before they fully open. Pkt. 15c.

African Daisy

Sow seed same as asters and plant in sunny location. They bloom all summer.

HYBRIDS MIXED—Shades of white, yellow, orange and salmon zoned with black disc. **Pkt. 10c.**

Agrostemma

MILAS—A quick and showy annual for early sowing. Wide flowers of lilac toned violet, upface on graceful swaying spreads of long slender stems. Pkt. 15c.

Ageratum

Annual, for boxes, pots and borders. **MIDGET BLUE**—Dwarf, 2" to 3"; fine foliage, with blue flowers. **Pkt. 15c.**

BLUE PERFECTION—Dwarf, deep blue. Pkt. 10c.

FAIRY PINK—Soft salmon rose pink, 5". Pkt. 25c.

Alyssum

ROYAL CARPET—Top award winner, all America for 1953. As a neat edging for the flower bed, this new companion for carpet of snow will grow only a few inches high but 10" across, flowering when only a few weeks old until end of the season. Purple flowers. Pkt. 25c.

COMPACTUM VIOLET QUEEN—Deep rich violet. Neat habit, free flowering. Pkt. 15c.

LITTLE DORRIT—Miniature white. **Pkt. 10c.**

IMPROVED CARPET OF SNOW—Plants 2" high, massed with white blossoms. Pkt. 10c.

COMPACTUM YELLOW—Dwarf. Pkt. 10c.

LITTLE GEM—Dwarf, compact, 4" high with white blossoms. Pkt. 10c.

LILAC QUEEN—Dwarf, compact habit; flowers deep lavender. **Pkt. 10c.**

Amaranthus

Brillant foliage, growing 3' to 5' high. CAUDATUS—Blood red, drooping. Pkt. 10c.

Arctotis (African Daisy)

GRANDIS—2 ft. high. White petals with light lilac reverse; sky-blue eye with yellow halo. **Pkt. 10c.**

Batchelor's Button (Cornflower)

DWARF JUBILEE GEM—Compact plants, covered with large double blue flowers. Splendid for borders and cutting. **Pkt. 15c.**

DOUBLE BLUE, RED or MIXED—An excellent strain. **Pkt. 10c.**

Balsam

CAMELLIA FLOWERED MIXED—Double. Grows 2' high. Plant in hot-bed in March; move after danger of frost. May also be planted in open. Pkt. 10c.

Beans, Scarlet Runner

A fine annual climber. The beans are edible. Pkt. 10c; $\frac{1}{2}$ lb. 40c; lb. 70c.

Bells of Ireland

MOLUCELLA LAEVIS—The several branching stems are closely set in elongated Hyacinth fashion with big bell-calyxes of pale translucent green. Within each calyx lies a curiously formed little white flower. Full sun. Thrives in drought. It cuts well as a fresh flower. 30 inches high. Pkt. 25c.

Brachycome

SWAN RIVER DAISY—9 in. high. Mixed. Several Colors. Pkt. 15c.

Calendula, Pot Marigold

ORANGE FANTASY—Crested, coppery orange, petals edged mahogany red. **Pkt. 10c.**

ORANGE SHAGGY—Rich orange; petals long and deeply fringed. Pkt. 10c.

ORANGE KING, FLORIST STRAIN— Large double blooms of orange red, with darker centers. Pkt. 10c; ¼ oz. 25c.

DOUBLE MIXED-All colors. Pkt. 10c.

Calliopsis

Showy blooms all summer. Sow in April.

CHOICE SINGLE MIXED—Pkt. 10c. DOUBLE MIXED—Pkt. 15c.

Cardinal Climber

HYBRIDA—Graceful, quick growing, covered all summer with fiery scarlet blooms, **Pkt. 15c.**

California Poppy

Plant during spring, summer or fall. Fall sowings bloom in the spring.

GRANDIFLORA GIANTS MIXED—Pkt. 10c.

DOUBLE MIXED-Pkt. 10c.

Canary Bird Vine

A quick growing annual climber, bearing curiously cut yellow flowers with curved green spurs; vaguely resembling a canary. It is ideal for covering trellises, often reaching a height of 15'. Pkt 15c.

Candytuft

Fall sowings flower in early spring; April sowings in June.

GIANT HYACINTH—A selected strain, producing 6 to 7 large, erect white spikes. Pkt. 10c.

FLESH PINK - Nice shade. Pkt. 10c.

 ${f LAVENDER}$ —Soft rose lavender. Pkt. 10c.

CRIMSON-Rich shade. Pkt. 10c.

ALBA - White. Pkt. 10c.

MIXED-All colors. Pkt. 10c.

Canterbury Bells

ANNUAL MIXED—Shape of flowers and form of plants are the same as the well known biennial Canterbury Bells, but this variety blooms in six months from seed. Pkt. 15c.

Castor Beans

RICINUS—Ornamental plants valuble for tropical effects. Use in large beds or borders along paths and drives. Pkt. 10c; oz. 25c; ¼ lb. 75c.

Celosia

Sow inside in March, transplant or sow outside in May. Very free flowering.

GOLDEN FLEECE—Clear golden yellow plumes are huge and dense, on long cutting stems. Pkt. 20c.

FIRE FEATHER—Dwarf, compact plants, 15 to 20 branches, with bright red, silky plumes. Pkt. 15c.

EMPRESS (Cockscomb)—Very wide crimson combs. Pkt. 15c.

PLUMOSA MIXED (Improved Feathered Type)—3', pyramidal growth. Pkt. 15c.

Centaurea

AMERICANA (Basket Flower)—Grows 3'. Sturdy in habit, producing broad blooms frequently 5" to 6" across. Charming both in garden and as a cut flower. Pkt. 15c.

ROYAL SWEET SULTAN—Beautiful sweet-scented, fine cut flowers. Sow early in Spring. Finest mixed. Pkt. 10c.

Chrysanthemum

SINGLE MIXED—Grows 2 ft. high; blooms in mid-summer. A good mixture. Pkt. 10c.

DOUBLE MIXED — A good mixture. **Pkt. 10c.**

Clarkia

Easily grown double flowers; 2', fine for cutting.

ALBA-White. Pkt. 10c.

MAY BLOSSOM—Deep pink. Pkt. 10c. SCARLET QUEEN—Orange scarlet. Pkt. 10c.

DOUBLE MIXED—All shades. **Pkt.** 10c.

Cleome (Spider Flower)

GIANT PINK QUEEN—Hardy. 3' high; abundant blooms of salmon pink at top of spike, fading to flesh pink. For backgrounds or cutting. Blooms all season. Pkt. 15c.

SNOW CROWN—Flowers of purest, snowy white. A long bloomer. **Pkt. 15c.**

GIANT ROSE—Stately plants, with stem branches ending in large clusters of brillant rose flowers. **Pkt. 15c.**

Cobaea

SCANDENS—Climbing plants that are rapid growing, free flowering, producing large, graceful bells, that grow readily from seeds. Best results are obtained by setting the large flat seeds on edge. It takes about 15 days to germinate. Start early inside in pots, ready to set out when all danger of frost has passed. Pkt. 20c.

Coleus

MIXED—Attractive foilage, easily grown. Pkt. 35c.

Coral Flower (Talinum Paniculatum)

A distinctive and good annual flower, that produces exquisite, jewel-like daintiness. Even the dark green, succulent foliage is decorative. Many slender, 30" stems bear hundreds of little 5-pointed stars in a luminous rosy pink, these followed by many long-hanging capsules like polished coral beads. Desirable for mixing with bouquets. Pkt. 15c.

Corn

ORNAMENTAL INDIAN—Multicolored kernels in an endless number of shades. In great demand for autumn and winter decorations. **Pkt. 15c.**

STRAWBERRY POPCORN—Attractive, tiny 2" ears of rich, shiny mahogany, contrast with the straw-colored husks when folded back. Grand for decorative arrangements. Pkt. 20c.

---36---

Cosmos

Plant after danger of frost; blooms in the summer and fall.

FIESTA, Top Award Winner for 1952 (New Klondike Type)—An early, heat loving, compact $2\frac{1}{2}$ plant, blooming profusely all summer. Flowers are semidouble, ruffled and true scarlet in color. Pkt. 25c.

SENSATION RADIANCE—Deep rose petals overlaid with large, well defined zone of rich crimson. **Pkt. 25c.**

SENSATION DAZZLER—Large flowers of deep amaranth crimson, with petals fluted and slightly overlapping. Tall stems. **Pkt. 20c.**

SENSATION SINGLE MIXED—Large, blooms in ten weeks. Pkt. 10c.

PEERLESS MIXED—New type. Produces a large 2" crested center; a double form of the Sensation type. **Pkt. 20c.**

KLONDIKE YELLOW—Rich golden yellow; 3' to 4' tall; free blooming. Slightly later than Orange Flare. **Pkt. 15c.**

EARLY KLONDIKE ORANGE FLARE—Early; bright orange. **Pkt. 15c.**

EARLY DOUBLE CRESTED MIXED—Single outer row of large petals with dcuble center of short petals. **Pkt. 15c.**

MAMMOTH EARLY FLOWERING MIXED—Plant in open; blooms in 60 to 90 days. Flowers 4" to 5" across. Pkt. 10c.

Cynoglossum

FIRMAMENT—It is dwarf, free blooming over a long season; flowers of bright indigo blue. It is recommended for growing in dry, even poor soil. 16". Pkt. 15c.

Cut Flower Garden Mixture

A mixture of hardy annuals blended to give a succession of flowers from early summer until fall. 2 to 3 ft. tall. Pkt. 15c; $\frac{1}{4}$ oz. 30c; $\frac{1}{2}$ oz. 50e; oz. 95c.

Datura

WRIGHTI—Trumpet flowers, 6" long, 5" across; plants 2' to 3' high; white with purple sheen. **Pkt. 15c.**

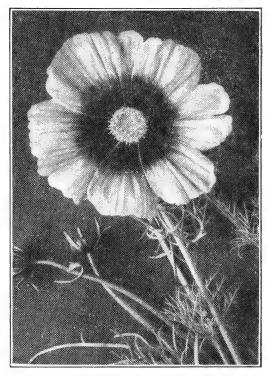

Dianthus, Pinks

WESTWOOD BEAUTY—Single flowers 1½ to 2¼ inches, lacinated. Various shades with red and white edges. Height almost 16 inches. Pkt. 15c.

DOUBLE MIXED—1' high. Pkt. 15c. GAIETY SINGLE MIXED—1' high. Pkt. 15c.

Didiscus, Lace Flower

COERULEUS—Branched plants 18" high. Clusters of tiny, lacy flowers. Exquisite light blue. Pkt. 15c.

New Cosmos, Sensation Radiance-Page 37.

Dolichos (Hyancinth Beans)

Very decorative vine. Flowers stand upright like hyacinth blooms followed by attractive seed pods. Mixed. **Pkt. 15c.**

Euphorbia

Suitable for beds and borders.

VARIEGATA (Snow on the Mountain)—Attractive green foliage veined white; 2'. Pkt. 15c.

Flowering Kale

Decorative and colorful for garden. Produces a variety of shades and useful for flower arrangement. Pkt. 20c.

Four o'Clock

MIXED—Free flowering, does well anywhere. Very easy culture. Pkt. 10c.

Gourds - Ornamental

Easily grown, but pick fully ripe.

LARGE FRUITED DIPPER—Pkt. 15c. DISH CLOTH—Pkt. 15c.

CAVEMAN'S CLUB—Pkt. 15c.

LARGE FRUITED BOTTLE—Pkt. 15c. LARGE FRUITED PIPE—Pkt. 15c.

SMALL WARTED MIXED—Pkt. 15c; ½ oz. 20c; oz. 35c.

SMALL MIXED—Main small sorts in mixture. Pkt. 15c; ½ oz. 20c; oz. 35c.

LARGE MIXED—Main large sorts in fine mixture. **Pkt. 15c**; ½ oz. 20c; oz. 35c.

-37-

Gaillardia

INDIAN CHIEF—Single, bronze red. Pkt. 15c.

Gilia

MICRANTHA, FAIRY STARS—Tiny, single star-like flowers in pastel shades; useful for borders and rockeries. Pkt. 15c.

Godetia

Free flowering annual which does best in rather poor soil. Easy growth and fine for cutting.

DWARF SINGLE MIXED—All shades. Pkt. 10c.

TALL DOUBLE MIXED—Various shades. Pkt. 10c.

Gypsophila (Baby's Breath)

ELEGANS ALBA—Small white clusters for mixing in bouquets. Pkt. 10c; oz. 40c.

Helichrysum

STRAW FLOWER MIXED—Fine everlasting flowers; bright colors for winter bouquets. Pkt. 15c.

Heliotrope

Start indoors, plant out in May.

MAMMOTH FLOWERED MIXED—
Pkt. 15c.

Hollyhock

INDIAN SUMMER—These are really perennials but are called annual because they bloom the first season from seed if started early. Fully double in pastel shades. Pkt. 25c.

Impatiens

HOLSTII HYBRIDS (Often called Busy Bee or Busy Lizzy)—Long a favorite house plant, it is easily raised from seed. It has waxy bright-rose colored flowers. Also makes an excellent border plant, forming a good bushy growth about 15" high with abundance of bloom. Pkt. 25c.

Kochia (Burning Bush)

Symmetrical plants, 3' tall, resembling an ornamental evergreen. Fine for hedges. Turns deep red in fall. Pkt. 15c.

Lantana

MIXED—Half hardy greenhouse or bedding plant. Verbena-like flowers of many colors. **Pkt. 15c.**

Linaria

NORTHERN LIGHTS—Like small snapdragons. Brilliant colors. Pkt. 15c.

Linum (Flax)

GRANDIFLORUM RUBRUM (Scarlet Flax)—1½' high. Pkt. 10c.

Lobelia

For pots, edges or hanging baskets. CRYSTAL PALACE COMPACTA—Best dark blue. Dwarf compact plants. Pkt. 15c.

SAPPHIRE (**Trailing**)—Large, blue flowers with pure white eye. **Pkt. 15c.**

SPECIOSA—Dark blue flowers and dark foliage. Trailing. Pkt. 15c.

SNOWBALL—Dwarf, white, Pkt. 15c. PRIMA DONNA—Dwarf, bright purplish mauve, shading crimson. Pkt. 15c. DWARF MIXED—All colors. Pkt. 15c.

Lupines

ANNUAL MIXED—Easily grown; spikes of pea-shaped blooms 2' high. Pkt. 15c.

Larkspur (Supreme)

Five foot, greatly improved Giant Imperial type. Splendid for beds or cutting. Plant September or early spring.

Prices: Unless noted—Pkt. 15c.

DARK BLUE SUPREME—Rich deep blue.

LILAC SUPREME—Clear lilac.

PINK SUPREME—Rose pink.

ROSE SUPREME—Clear deep rose.

SALMON SUPREME—True salmon.

WHITE SUPREME—Without a trace of pink.

SUPREME MIXED—Made from separate colors.

Marigolds

GLITTERS—A.A.S. '51. A new lemon yellow chrysanthemum-flowered African marigold, plants are a little dwarfer and earlier than Mammoth Mum. Pkt. 20c.

REDHEAD—Flowers are single, 2" across, with a crested center composed of many tiny, erect golden petals edged maroon. Plant vigorous grower forming a compact plant 12" tall and up to 20" across. Pkt. 20c; 1/8 oz. 75c.

NAUGHTY MARIETTA—Wide open, single flowers 2½" across; rich golden yellow attractively blotched maroon at the base of petals. Compact plant 1'; early and continuous bloomer. Pkt. 20c; ½ oz. 60c.

MAMMOTH MUM—Large fluffy light sulphur-yellow blooms in true mum form. Stems long and sturdy. Pkt. 20c.

MISSION GIANT GOLDSMITH—Rich golden orange, incurved. Pkt. 15c.

GILL'S "NEVER BEFORE" (See illustration on this page) — A great advance in African Marigolds. Never before such new and unusual forms. Never before so many new shades and colors. Never before such remarkable freedom from the strong marigold odor. A leading florist remarked: "You have changed the Marigold so that with these new colors and forms we can use them extensively for general florist use." Strong, vigorous plants, loaded with large blooms on strong stems. Without disbudding, irrigation or special fertilizing we grew many flowers 5 to 6 inches in diameter. The seed is offered in a blend of colors ranging from light lemon to deepest orange, including many types with wide loose petals, often quilled, cupped or twisted in formation. With disbudding, irrigation and extra fertilizing, blooms 8 inches in diameter can be grown from some types and with long erect stems. In order to include new forms and colors some smaller types are included in our selections. Many flowers in this strain are fragrant and the common strong marigold odor is generally absent. The vigorous plants often stand 4 to 6 feet tall with branching habits and loaded with blooms. Each year we make new and better selections. Be sure to include these wonderful marigolds in your order. More of the lighter shades are included in the seed offered this year. Pkt. 25c; $\frac{1}{16}$ oz. \$1.00; $\frac{1}{4}$ oz. \$3.00; oz. \$8.50.

NEVER BEFORE, ORANGE SHADES
—This selection predominates with orange-colored blooms. Pkt. 25c; \(\frac{1}{16}\) oz. \(\frac{\$1.00}{\$1.00}\); \(\frac{1}{4}\) oz. \(\frac{\$3.00}{\$1.00}\).

NEVER BEFORE, LEMON—Flower of medium size, bushes medium height, some semi-double. Color light lemon. **Pkt. 25c**; $\frac{1}{16}$ **oz. \$1.00**.

MISSION GIANT YELLOWSTONE—Clear golden yellow blooms, 4" to 5" across, resembling an incurved chrysanthemum. Pkt. 15c.

BUTTERBALL—Dwarf double French Harmony type. 2" blooms of butter yellow, lightly tipped with maroon. **Pkt. 15c.**

GIGANTEA POT O'GOLD—Plants grow 12" to 15", bearing 12 or more large blooms. Golden orange. Pkt. 15c.

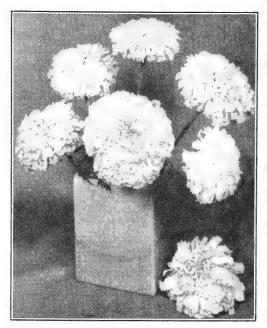

SPRY—Dwarf double French. Very early, 1½" blossoms with yellow crested centers and rows of mahogany guard petals. **Pkt. 15c.**

LILLIPUT YELLOW PYGMY—Dwarf bright yellow, bushy plants growing 6" high. **Pkt. 15c.**

CHRYSANTHEMUM FLOWERED HYBRIDS—Mixed. Pkt. 15c.

SUNNY—Single, bright yellow flowers, about 2" across with attractive wavy edges. Plants grow 15" tall, 16" across. **Pkt. 20c.**

DWARF DOUBLE MIXED—Pkt. 10c.

Marigolds, Never Before, This Page.

DWARF DOUBLE HARMONY—French. Charming Scabiosa-like flowers, golden yellow, bordered with a rich maroon red. Early, bushy plants. **Pkt. 10c.**

SIGNATA GOLDEN GEM—Dwarf single. Pkt. 10c.

LARGE AFRICAN—Double. LEMON, ORANGE, and MIXED. Pkt. 10c.

TALL FRENCH MIXED—Double. Pkt. 10c.

SUNKIST—Dwarf French Harmony type. Rich, deep, golden orange. Early and free blooming. **Pkt. 15c.**

MISSION GIANT GOLDSMITH—Rich golden orange, incurved. Pkt. 15c.

DWARF AFRICAN MIXED—Double. Pkt. 10c.

Matthiola

BICONIS—Night scented stock. A delightful free flowering dwarf plant. Small purple flowers are noted for their entrancing fragrance through the evening hours. **Pkt. 15c.**

Mesembryanthemum (or Ice Plant)

CRYSTALLINUM—A delightful little annual of spreading form; dainty blooms of pinkish white. Easy culture and useful for carpet bedding or rock gardens. Pkt. 15c.

Mignonette

Keep a succession by sowing in April and July.

DEFIANCE MIXED—Extra large spikes, 15" to 18" very fragrant. **Pkt. 15c.**

--39---

Moon Flower (Vine)

BONA NOX and NOTIFLORA MIXED

These Ipomoeas bloom at sunset, fading in late morning. In good soil will grow to 20 ft. with trumpet-shaped, white, pink or blue, fragrant flowers. Soak seed over night before planting. It takes 10 to 12 days to germinate. **Pkt. 15c.**

Morning Glory

DARLING (New)—Striking wine-red scarlet O'Hara type with snowy white throat. **Pkt. 20c.**

BLUE STAR—Light blue with dark blue ribs to form a star. **Pkt. 15c.**

PEARLY GATES—Superb blossoms about 4½" across. Lustrous white, creamy shaded throat. **Pkt. 15c.**

SCARLET O'HARA—Rich dark wine reduction. Blooms in 65 days, prefers sandy soil. Pkt. 15c.

HEAVENLY BLUE—Climber. Pkt. 15c. CLIMBING MIXED—Pkt. 10c.

Nasturtium

Sow in April, thin to 2" or 3".

Dwarf Varieties

CHERRY ROSE—Gem type with semidouble soft cherry-rose blossoms. Pkt. 15c; oz. 60c.

SCARLET GLOBE—Semi-double blossoms. Dark foliage, compact plants. Pkt. 15c; oz. 50c.

SEMI-DOUBLE MAHOGANY GEM—Large, sweet-scented, dark mahogany red. Pkt 15c; oz. 50c.

SEMI-DOUBLE GEM MIXTURE—Compact plants with no runners; excellent for borders. Pkt. 15c; oz. 50c.

FINEST MIXED—All colors. Pkt. 10c; oz. 25c; ¼ lb. 90c.

Tall Varieties

SEMI-DOUBLE GOLDEN GLEAM—Big, sweet -scented yellow. Pkt.10c; oz.40c.

SEMI-DOUBLE GLEAM HYBRIDS—Gorgeously colored, large, sweet-scented blooms. Pkt. 10c; oz. 45c.

CALIFORNIA GIANTS MIXED—All colors. Pkt. 10c; oz. 25c; ¼ lb. 90c.

Nemesia

LARGE FLOWERING MIXED—Suitable for cool places. 1' tall, orchid-like flowers; a good mixture. **Pkt. 15c.**

Nemophila

Hardy annual. Easy culture. Useful for borders.

INSIGNIS BLUE (Baby Blue Eyes)—Pkt. 15c.

Nicotiana (Flowering Tobacco)

DAYLIGHT SENSATION—A brilliant range of colors in an interesting variety of shades. The blooms of this variety stay open during the daytime. **Pkt. 15c.**

Nigella (Love-in-a-Mist)

MISS JEKYLL—Ideal cut flower; of bright blue. Free flowering. Pkt. 15c.

New All Double Petunias

Culture—For seeds of Giant Petunias. They are expensive and the safest method is to start them indoors about eight weeks before the usual outdoor planting time. Plant in a flat box or pan filled with good sifted soil. Press them into the surface rather than cover with soil and place glass over the box to retain moisture. Take glass off after the seed germinates to prevent dampening off. Weak, slow growing plants produce the finest flowers; making good plants with proper care.

BURPEE ORCHID—Is unusually lovely, 4" to 4½" across, of a rich, light orchid color with deep, rosy purple veins; intense ruffling and deep fringing add to the beauty of exquisite blooms. Plants are semi-erect, the main stems growing 18" to 24" tall. Pkt. \$1.00.

MRS. DWIGHT D. EISENHOWER—Flowers grow about 2¾" across. Uniform for doubleness and of a soft mid-salmon shade never before seen in any petunia. Plants are dwarf, bushy, and of good habit. Pkt. \$2.00.

ROSE MARIE—Flowers are a delightful shade of rose-pink, 3" and more across, and freely borne on dwarf, compact plants 18" tall. Excellent for borders and cutting. Pkt. \$1.00.

COLOSSAL SHADES OF ROSE—Giant all double flowers of American origin and the largest yet produced. The beautiful, intensely double blooms are often 5" across, appearing in rich rose shades, salmon-pink through rosy-pink to deep rosy-mauve. Vigorous plants 20" to 24" tall and bearing profusely over a long season. Pkt. \$1.00.

ALLEGRO—Flowers are fully fringed, double, bright salmon, $3\frac{1}{2}$ " to 4" across, on 12" strong and vigorous plants. **Pkt**. (100 seeds) \$1.00.

SONATA—Large fully fringed, double, pure white flowers $3\frac{1}{2}$ " to 4" across. Pinch for more dwarfness and better branching plants. Pkt. (100 seeds) \$1.00.

NOCTURNE—Semi-double, midnight violet-purple flowers, 3" to $3\frac{1}{2}$ " across on vigorous compact plants. Pkt. (100 seeds) \$1.00.

For Perennial Flower Seeds (Beginning Page 46)

New Multiflora Petunia

PINK SENSATION—Plants of this new hybrid are extremely vigorous, 2' tall, as much as 4' in width, and completely covered with rose bengal flowers, 3" across. **Pkt.** 50c.

SILVER MEDAL—3" flowers of bright salmon pink with rose sheen. Vigorous plants. Flowers in 90 days from seed. **Pkt. 50c.**

Other Petunias

COMANCHE—ALL AMERICA WINNER 1953. Its hybrid vigor makes this a grand bedder, standing erect in most weather. Bright red flowers $2\frac{1}{2}$ " to $2\frac{3}{4}$ " across. Pkt. (100 seeds) \$1.25.

BALLERINA—A.A.S. '52. Extra large fringed flowers of soft glowing salmon. Plants are vigorous, free branching, and bloom profusely. **Pkt.** 75c.

LIPSTICK—Dwarf bedding Petunia. Plants are often compact, 12" to 14", early and extremely free flowering, bearing a wealth of crimson rose blooms, overlaid with a touch of salmon; flowering all summer. Pkt. 65c.

TANGO—Bright, deep scarlet-salmon. Flowers $3\frac{1}{2}$ " to 4", beautifully fringed. Plants are strong growing and extremely free blooming, 12" to 15" high with spread of 2'. Pkt. 75c.

FIRE CHIEF—Brillant scarlet red; dwarf habit; medium sized blooms; free flowering. Pkt. 25c.

THEODOSIA—Rose-pink with a clearly defined yellow throat veined purplish black; a fine fringed Petunia. **Pkt. 25c.**

CELESTIAL ROSE—Deep rose on compact plants about 1 ft. high. Pkt. 25c.

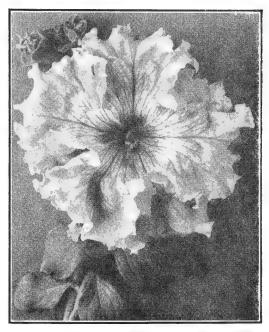

KING HENRY (Dwarf Flaming Velvet)—Large flowers of a rich velvety blood red color. Very free flowering. Dwarf compact habit. Pkt. 25c.

CHEERFUL—Dwarf bedding petunias. Flowers grow 2¾" or more across. Color varying, according to age, from clear salmon-pink to lighter shades of salmon. New habit of growth, being low, spreading close to ground and later forming a dwarf mound 10" high and as much as 2 ft. across; ideal for bedding and wide borders. Pkt. 25c.

PEACH RED—Full-bodied uniform pink, free from fading and vivid rich peach red. Shapely plants 12" tall and with a spread of 18" to 24". Desirable for beds and borders. **Pkt. 25c.**

GLAMOUR—Luscious salmon rose, delicately veined brown in the creamy shallow throat. Plants $1\frac{1}{2}$ tall. Pkt. 25c.

FLAMING VELVET—Brilliant mahogany-red with velvety sheen; plants are covered with many large flowers all season. **Pkt.** 15c.

Petunia, Defiance Largest Flowering, This Page.

DEFIANCE LARGEST FLOWERING—Flowers often 5" wide, fringed with open throats. Desirable colors. **Pkt. 25c.**

ELK'S PRIDE—Immense single; black purple, strong, vigorous grower. Pkt. 25c.

RUFFLED DOUBLE GIANTS PETU- NIAS—Only a portion come double, but are well worth while. Those plants showing the weakest vitality in starting make the best flowers. **Pkt. 40c.**

NANA COMPACTA—This miniature petunia, 5" to 6" high, is recommended for borders and rock gardens. ROSE GEM or MIXED. Pkt. 15c each.

BALCONY—MIXED. Pkt. 10c.

SILVER BLUE (Heavenly Blue) — Pkt. 15c.

ROSE OF HEAVEN—Brilliant rose. Pkt. 15c.

ROSY MORN—Rose, white throat. Pkt. 15c.

BLOOD RED—Pkt. 15c.
SINGLE SPECIAL MIXED—Pkt. 15c.

Poppies

Sow in fall or early spring.

DOUBLE SHIRLEY (Begonia Flowered)—Lovely, satiny flowers; finely cut foliage. PINK or MIXED. **Pkt. 10c.**

Portulaca (Sun Plant)

For beds, edgings or rockeries.

SINGLE MIXED—All colors. Pkt. 15c.

DOUBLE MIXED—Selected. Pkt. 15c.

-41--

Phlox

Massing, beds, borders; sow indoors or outside. Annual Phlox.

MAMMOTH FLOWERING—Drumondi type. MIXED. **Pkt. 15c.**

DWARF NANA COMPACTA MIX—Symmetrical bushes, covered with flowers all the season. 8". **Pkt. 25c.**

Rock Garden Mixture ANNUAL MIXTURE—Pkt. 25c.

Rudbeckia

STARLIGHT—Large semi-double and double flowers. Primrose yellow with base of petals and central zone of rich mahogany. 3 ft. **Pkt. 20c.**

Sanvitalia (Trailing Zinnia)

Golden yellow with dark purple centers. Blooms June till frost. Pkt. 15c.

Schizanthus

(BUTTERFLY OR FRINGE FLOWER)
GIANT FLOWERED HYBRIDS—Quick growing, especially good for shade. Mixed. Pkt. 20c.

Salpiglossis

Plant in open in May.

VESUVIUS—This is a wonderful flower for the home garden with its uniform height of 30", and flowers of gold and silver on a violet purple background. It makes a charming background for other plants. Pkt. 20c.

DWARF GIANT FLOWERING MIXED—Averaging 18" to 20" tall; compact branching habit. Showy, trumpet shaped blooms in rich color tones and velvety texture. Flowers larger than the regular strain. **Pkt. 15c.**

LARGE FLOWERING—2 ft. to 3 ft. MIXED. Pkt. 15c.

Salvia (Flowering Sage)

Sow indoors in February, plant in May. **BLAZE OF FIRE**—Extra early strain, 14" to 16" high, bright scarlet flowers, robust growth. **Pkt. 25c.**

ST. JOHN'S FIRE—The earliest, and most dwarf red strain available. About 12" high. Pkt. 25c.

BONFIRE—Dark green foliage; erect, globular growth with scarlet-red flowers. Pkt. 20c; ½ oz. 85c; ½ oz. \$1.50.

SPLENDENS—Bright scarlet, 3'. **Pkt. 15c**; ½ **oz. 75c**; ½ **oz. \$1.25**.

PATENS-Intense blue. Pkt. 20c.

Scabiosa (Morning Bride)

Sow outside after danger of frost.

IMPERIAL GIANTS, CORAL MOON— Large ball-shaped flowers of broad frilled petals. Salmon-pink shades. Pkt. 25c.

IMPERIAL GIANTS, BLUE MOON—Large, double, beehive shaped flowers. Deep lavender-blue, 4' tall. Pkt. 15c.

ROSETTE—Extra large flowers, long stiff stems. Deep rose suffused salmon. **Pkt. 15c.**

KING OF THE BLACKS—Reddish black. Pkt. 10c.

PEACH BLOSSOM—Large, soft pink Pkt. 10c.

SHASTA—Giant, pure white. Pkt. 10c. GIANT FLOWERED HYBRIDS, MIXED—Large, ball shaped flowers. Pkt. 10c.

Snapdragon

(Rust Proof Maximum Type)

For early flowers sow in the fall, setting out in the spring, or grow the plants in spring in hot beds. **Prices: Unless noted—Pkt. 15c.**

ALASKA-Large pure white.

 $\begin{array}{cccc} \textbf{APPLE} & \textbf{BLOSSOM} \\ -- \text{Light} & \text{rose-pink,} \\ \text{white tube.} \end{array}$

INDIAN SUMMER—Coppery orange scarlet.

CAMPFIRE—Bright scarlet with yellow lip.

YELLOW GIANT—Canary yellow, white tube.

LOVELINESS—Pure soft rose-pink.

RED CROSS—Deep crimson with pure white tube. Striking contrast.

PURPLE KING—Velvety dark garnet.

MAXIMUM MIXED—Giants, closely set on tall spikes. Pkt. 15c; 1/16 oz. 40c.

BLACK PRINCE (Not Resistant)— Nearly black, small dark leaves. Pkt. 15c.

Giant Skyscraper Snapdragon

MIXED COLORS—The tallest. Glorious blend of pastel shades. Pkt. 25c.

Double Snapdragon

FLORADALE—A clear, soft Dresden yellow. On the unopened buds there is a pale rosy blush which disappears as soon as they open. Flowers are fully double, with many open at one time, and closely placed on strong, stiff spikes. A novelty of exceptional merit. 2½'. Pkt. 35c.

Tetra Snaps

Giant Ruffled Tetraploid Snapdragons

The largest flowered of all Snapdragons. Many distinctly and attractively ruffled. Flowers of heavy substance which adds to their keeping value. MIXED. Pkt. 25c; $\frac{1}{16}$ oz. \$1.50.

-42-

Statice (Everlasting) ANNUAL MIXED—Pkt. 15c.

SUWOROWI or RUSSIAN RAT TAIL—Interesting and artistic, slender spikes of rose-pink. May be grown in greenhouse or garden. 30" high. Pkt. 15c.

Star of Texas

XANTHISMA TEXANUM—Single daisy-like flowers with pointed, light canary-yellow petals freely produced in neat, bushy plants, 1½' high and as much across. **Pkt. 15c.**

Stocks (Double Giant Column)

Easily grown from seed. Spikes 2' to $2\frac{1}{2}$ ', fully double, close spaced flowers. Strictly non-branching; especially valuable for florists. Each kind, Giant Column Pkt. 25c.

CHAMOIS ROSE—An excellent color for florists.

BALL ROSE PINK—Deep rose pink.
BALL DEEP APRICOT—Large flowered creamy buff.

BALL WHITE IMPROVED—The best white.

ROYAL PURPLE—Deep purple.

STOCKS

Prices, as listed below, Pkt. 15c.

BEAUTY OF NICE MIXED—Quick growing, early and continuous blooming. Double flowers in many pastel shades.

IMPROVED LARGE FLOWERING TEN WEEKS—Dwarf, compact, branching, fine for bedding. Height 12". MIXED.

DOUBLE EARLY GIANT IMPERIAL

(Imperial Bismark)—Height 25"

BUTTERCUP—Rich yellow.

ELK'S PRIDE—Royal purple.

GOLDEN ROSE—Light golden rose.

SANTA MARIA—Giant white.

GIANT IMPERIAL MIXED—

CUT AND COME AGAIN STOCKS (Double Perpetual Branching)—20" BRILLANT—Blood red.

HEATHEM BEAUTY—Golden rose. **SAPPHIRE**—Violet.

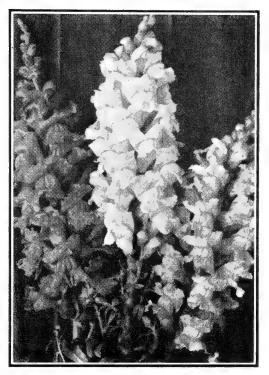

GIANT PERPETUAL MIXED—

Thunbergia (Black Eyed Susan)

FINEST MIXED—Rapid climber, preferring a warm place; useful for hanging baskets, vases, fences. A good mixture. 5'. **Pkt. 15c.**

Tithonia (Mexican Sunflower)

TORCH—A.A.S. '51. Easily grown, thrives on hot weather. It is orange-red, and a good cut flower that blooms from August till frost. Pkt. 20c.

Tetra Snapdragons Mixed, Page 42.

Virginia Stocks

DWARF MIXED—Small red, rose, and white blooms. Plants 6" to 8" tall, excellent for borders. Very fragrant. **Pkt. 15c.**

Sunflower

SUN GOLD—Brilliant golden yellow blooms, 4" to 5". Plants 4' to 5' tall. Colorful for backgrounds. Pkt. 15c.

CHRYSANTHEMUM—Double, golden yellow; immense blooms on strong, tall stalks. **Pkt. 15c.**

RED—Mixed shades of red to yellow. **Pkt. 15c.**

Verbenas

Giant Hybrida Strain—PRICES: Unless noted: Pkt. 15c.

LUCIFER—Brilliant scarlet self.

WHITE-Pure white.

SUTTON'S BLUE—Deep royal blue.

MAMMOTH STRAIN MIXTURE—Excellent large flowers.

BUSH TYPE MIXED—Dense flower heads are closely massed across the flattopped plants. 8 to 10" high. **Pkt. 25c.**

SPARKLE (New)—Bright, scarlet red flowers, with gleaming white eye on 9" plants. Blooms are produced in clusters of 12 to 15 per plant so tightly arranged that the effect is a solid mass of blooms. Pkt. 25c.

43

SPENCER SWEET PEAS

WE OFFER THE LARGEST SELECTION OF SWEET PEAS IN THE NORTHWEST All Sweet Pea Seeds Treated With ROOTONE

Their easy culture, freedom of bloom, artistic appearance and delightful fragrance, combined with their splendid cut-flower qualities make them one of the most desirable flowers for the public.

Spring sowings should be made as early in the spring as soil conditions permit. Here in the coast region they can often be planted in February. They can also be planted in November and with this method they will bloom very early in the spring; in fact, often by Decoration Day.

NEW CUTHBERTSON SPENCER Improved Spring Flowering Spencers

This new race of heat resistant Sweet Peas is also outstanding for vigor and extra large flowers. They have long, strong stems.

PRICES—Unless noted are uniformly: Pkt. 15c; $\frac{1}{2}$ oz. 40c; oz. 75c; $\frac{1}{4}$ lb. \$2.40.

ALICE (New)-Blush cream pink. Pkt. 25c; oz. 90c.

DORIS—Rose.

CAROL—Clear pink. **COLINE**—Scarlet.

DAVID-Bright rose crimson.

EVELYN—Salmon cream pink.

FRANK G-Lavender.

JESSIE—Mauve. JANET—White, black seeded.

JIMMY—Deep scarlet.

KENNETH—Crimson.

KATIE—Rose cream pink.

LOIS-Rose pink.

MARIAN—Cream, black seeded.

TOMMY—Blue.

WILLIAM - Pink picotee on white.

MIXED-A blend of all shades.

CUTHBERTSON SWEET PEA COLLECTIONS

Six packets, our selection, different colors. Worth 90c; sent Postpaid for 70c. 16 packets, including 1 packet each of 16 varieties listed at 15c per pkt., for \$1.50. Postpaid.

Giant Ruffled Spencer

Flowers are duplexed, heavily ruffled and frilled.

PRICES—Unless noted are uniformly: Pkt. 10c; ½ oz. 35c; oz. 60c; ¼ Ib. \$1.50.

RUFFLED BLUE—Large clear blue.

RUFFLED BEAUTY-Lilac pink on amber.

BONNIE RUFFLES—Salmon pink on cream.

RUFFLED CARMINE—Carmine rose. RUFFLED CRIMSON-Rich crimson.

RUFFLED EXQUISITE—Salmon-cer-

ise with four large flowers on long stems.

RUFFLED ORCHID—Soft orchid.

RUFFLED PINK-Deep rose-pink on cream, becoming lighter toward the base.

RUFFLED PRIMROSE—Rich cream.

ROYAL RUFFLES—Scarlet-cerise.

RUFFLED WHITE-Good white.

RUFFLED MIXED—Excellent mixture.

RUFFLED SWEET PEA COLLECTION Six packets, our selection, different colors. Worth 60c; sent Postpaid for 50c.

Giant Flowering Spencer

PRICES—Unless noted are uniformly: Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.50

AVALANCHE—Giant white.

BONNY BRIAR—Large rose pink.

CHEERIO—Begonia rose suffused gold.

CHIEFTAIN—Large, satiny mauve.

ECSTASY—Blush pink.

FLAMINGO—Orange scarlet.

GIGANTIC-Pure white.

GLENEAGLES-Immense pale blue lavender.

GRAND SLAM-Scarlet cerise.

LADY MACBETH—Dazzling red.

MARY PICKFORD-Cream pink suffused salmon.

MASTERCREAM—Large cream.

MISS CALIFORNIA—Salmon pink.

PINKIE—Large rose-pink.

POWERSCOURT—Mammoth layender.

PROLIFIC (Multiflora)—Rose-pink.

RED SUPREME—Bright red.

SWEET AFTON—Deep silvery pink. THE SULTAN—Large, black, velvety. WELCOME—Brilliant scarlet, grand. WINDSOR BLUE-Clear mid-blue.

Early Flowering Spencer

These bloom two weeks ahead of the regular Spencer. Valuable for greenhouse forcing; also outside planting,

PRICES—Unless noted are uniformly: Pkt. 15c; $\frac{1}{2}$ oz. 30c; oz. 50c; $\frac{1}{4}$ lb. \$1.75; 1b. \$6.00.

BOON—Deep salmon pink.

DAPHNE—Soft salmon-pink on cream.

FLORIST BLUE—Clear blue.

FRAGRANCE—Clear lavender self.

GARDENIA—Dense paper white.

MISS SANTA MARIA—Salmon rose.

SEQUOIA-Rich golden cerise.

SHIRLEY TEMPLE—Soft rose pink. SUSANNA—Deep crimson.

TREASURE ISLAND—Golden orange.

WAVES-Mid-blue.

EARLY SUPER MIXED-A very fine mixture. Pkt. 10c; oz. 40c; 1/4 lb. \$1.25; lb. \$4.25.

Mixed Sweet Peas

ZVOLANEK'S MULTI-FLORA MIXED — All have long stems with many flowers on a stem. **Pkt. 20c;** $\frac{1}{2}$ oz. \$1.00.

SHOW GROUND MIXTURE—A remarkable mixture saved from trial grounds, being made up from a long list of new and standard named Spencers. Pkt. 10c; oz. 30c; ½ 1b. 90c; lb. \$3.00.

PROGRESSIVE MIXED—This Spencer mixture contains a splendid assortment of colors, both light and heavy shades, and gives fine satisfaction. Pkt. 10c; oz. 20c; ½ lb. 65c; lb. \$2.00.

CUPID (Dwarf)—Useful for borders and edgings. Pkt. 15c; oz. 40c.

ZINNIAS

These old-fashioned flowers have been highly improved and the new giant sorts are popular. Blooms 5" to 6" across are very common. Best results are obtained by planting where you wish them to grow. This is far better than transplanting, except for early blooms. Plant seed outdoors May 1 to June 15.

PERSIAN CARPET—A.A.S. '52. Like tiny dahlias, the variegated flowers are each the size of a silver dollar. Make the ideal garden edging; dwarf plants begin blooming early and grow into tidy 15" mounds of brilliant color. Pkt. 25c.

BURPEE HYBRIDS—Large, fluffy and ruffled flowers with graceful, curved petals like those of a giant chrysanthemum. Larger than dahlia flowered, they come in a gorgeous range of colors and color combinations. Pkt. 25c.

FLORADALE SCARLET—This is a vibrant scarlet-red zinnia with a new and unusually graceful flower form; blossoms 5'' to $5\frac{1}{2}''$ across; long stems, ideal for cutting. **Pkt. 25c.**

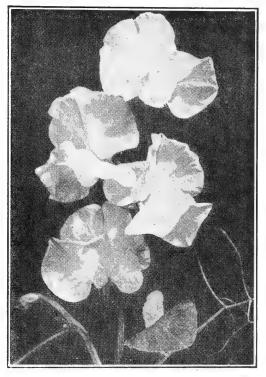

PEPPERMINT STICK—Medium-sized, Pumila type flowers on robust plants. Flower petals are striped in various color combinations. **Pkt.** 25c.

RIVERSIDE BEAUTY—Large, glowing salmon-pink, cactus type flowers with twisted and gaily curled petals on 2' to $2\frac{1}{2}$ plants. Pkt. 25c.

LUTHER BURBANK—A rare blend of delicate pastel or art shades, also unusual two and three-color combinations of soft and light shades. Flowers are deep 5" to 5½" across and composed of numerous petals curled under at the ends. Plants are strong, 3' to 4' tall, well branched so an abundance of long-stemmed flowers are assured for cutting. Pkt. 25c.

ELEGANS PUMILA—This type is between the Giants and Lilliputs in size. Double flowers highly prized for cutting, borders and massing in the garden. MIXED. Pkt. 15c; ½ oz. 45c.

For Perennial Flower Seeds (Beginning Page 46)

Cuthbertson Sweet Pea, Janet, Page 44.

Mammoth Dahlia Type

Improved double Zinnias, gigantic size. **PRICES—Unless noted:** Pkt. 15c; ½ oz. 45c; ½ oz. 75c.

CANARY BIRD—Rich canary yellow. **CRIMSON MONARCH**—Largest and best red shade; often 8" across.

DREAM—Deep lavender turning to mellow purple.

ELDORADO—Large salmon apricot. **EXQUISITE**—Light rose with deep rose center.

METEOR—Rich, glowing red.

ORIOLE—Beautiful orange and gold bicolor.

POLAR BEAR—Large creamy white. **SCARLET FLAME**—Large, bright scarlet with blending of orange throughout the petals.

MAMMOTH DAHLIA MIXED—A fine blending of colors.

California Giant Type

This type has rare and striking colors. **PRICES**—Unless noted: Pkt. 15c; ½ oz. 45c; ½ oz. 75c.

CHERRY QUEEN—Cerise rose.

DAFFODIL IMP.—Canary yellow.

GRENADIER—Bright red.

MISS WILMOTT—Giant, soft pink.

ORANGE KING—Color of Orange
King Calendula.

-45--

CALIFORNIA GIANTS—Continued

PURITY—Giant pure white.

ROSE QUEEN—Opens bright rose with deeper center but develops into a warm, deep rose.

SCARLET QUEEN—Glowing scarlet. VIOLET QUEEN—Deep purple. CALIFORNIA GIANT MIXED—

Bedding Zinnias

PRICES: Unless noted. Pkt. 15c.

SCABIOSA FLOWERED MIXED—Medium sized, resembling Scabiosa.

GAILLARDIA FLOWERED MIXED (Navajo)—Two toned with a ring of deeper color in center.

HAAGEANA DOUBLE HYBRIDS—Small Mexican type. Attractive mixture.

LINEARIS—Dwarf. Single, orange with yellow stripe and dark center.

LILLIPUT TOM THUMB—This mixture is from the most dwarf Zinnia known. Fine for borders.

LILLIPUT DOUBLE—Miniature flowers about the size of a daisy; excellent for borders. Canary Yellow, Crimson Gem, Golden Gem, Lilac Gem, Rosebud, Salmon Rose, White Gem, and Mixed. Pkt. 15c; ¼ oz. 40c; oz. \$1.00.

Fantasy Type Zinnias

Shaggy, medium sized double flowers. Excellent for cutting. It blooms profusely.

PINK FRILLS—Flesh pink. Pkt. 15c. MELODY—Orchid lavender. Pkt. 15c. WILDFIRE—Dazzling scarlet. Pkt. 15c. WHITE LIGHT—Pure white. Pkt. 15c. STAR DUST—Golden yellow. Pkt. 15c. FANTASY MIXED—Pkt. 15c.

Viscaria

BRILLIANT MIXED — Small single flowers on 12" plants. Attractive borders, blooming all summer. **Pkt. 15c.**

Wallflower

DOUBLE EARLY WONDER MIXED—Blooms in 90 days. **Pkt. 15c.**

Wild Flower Garden

A mixture of many wild flower seeds which give splendid results on banks and roadsides. This mixture contains annual and perennial flowers of easy culture. Pkt. 15c; ½ oz. 50c; oz. 95c.

Buy a MERCHANDISE CERTIFICATE from us for use as a Gift. State amount needed.

PERENNIAL FLOWER SEED

Perennial Flowers are the most permanent ones, which live for many years. These plants bloom every year and die down again to the roots. They remain alive but are dormant until the next season. Some perennials will bloom the first year from seed if sown early, and germination will be better than if sown during the heat of the summer. The larger plants will also winter over better. Two seasons are usually required before the plants come into full bloom.

Achillea

THE PEARL—Big clusters of small, dbl., white, everlasting blooms. Pkt. 15c.

Aconitum (Monkshood)

NAPELLUS—Spikes of curious shaped blue flowers. Pkt. 15c.

Alyssum (Basket of Gold)

SAXATILE COMPACTUM—Grows 1' high and makes a mass of small yellow flowers in May. Easy to grow. Pkt. 15c.

Anchusa

DROPMORE VARIETY—Rich gentian blue flowers in drooping sprays. Does well in dry areas with partial shade. Leng blooming season. **Pkt. 15c.**

Anemone (Windflower)

ST. BRIGID—Good range of colors in single, semi-double and double. Pkt. 15c.

Arabis (Rock Cress)

ALPINA—A mass of white flowers very early in the spring. **Pkt. 15c.**

ALPINA ROSEA—Dwarf, with a mass of light pink flowers in May. Pkt. 25c.

Armeria

FORMOSA HYBRIDS—For rockeries and borders. Compact plant with clover-like flowers in pink shades. Pkt. 20c.

Asparagus

PLUMOSUS—Fine greens for bouquets. Fern-like foliage, tender perennial, sow in pots. Pkt. 15c.

SPRENGERI—For baskets and window boxes. **Pkt. 15c.**

Asphodel

Tall spires of crowded golden stars rise from rosette tufts of narrow, silvered leafage. Easily grown, favoring a rich sandy loam, and partial shade. Pkt. 20c.

Asters (Michaelmas Daisy)
PERENNIAL MIXED—Pkt. 25c.

Aubrietia (Rainbow Rock Cress)

LARGE FLOWERING HYBRIDS—Colorful rockery and border plants. Sow in June. Masses of exquisite blooms. MIXED. Pkt. 15c.

--46-

Bellis or Double English Daisy

MONSTROSA MIXED—This giant type far excels the older varieties; flowers are larger, more fully double. Pkt. 15c.

MONSTROSA RED—Pkt. 25c. MONSTROSA ROSE—Pkt. 25c. MONSTROSA WHITE—Pkt. 25c.

Begonia (Tuberous)

DOUBLE CAMELLIA FLOWERED—One of the best strains. Individual flowers 5" to 8" in diameter; resembles camellias and roses in all forms and variations of color. Very small seed. **Pkt. \$1.00**.

Begonia (Fibrous)

LUMINOSA COMPACTA—Dwarf; free flowering; scarlet red. **Pkt. 50c.**

SNOWBANK—Large glistening white flowers are carried on dense growing, uniform plants. Pkt. $50c.\,$

Cactus Seed

MIXED-Many varieties. Pkt. 25c.

Candytuft (Iberis)

SEMPERVIRENS—White candytuft, for bedding or borders. Thrives in all sections. Blooms in late May. **Pkt. 15c.**

Canna

MIXED—They can be successfully grown from seed if planted early. Pour boiling water over the seeds, take them out after 24 hours and sow at once in sand. Give some bottom heat and cover $\frac{1}{4}$ to $\frac{1}{2}$ inch. The seed germinates irregularly in two to four weeks. Pkt. 25c.

Canterbury Bells

Plant in frame in early spring, or outdoors about June 1st. Cover seed lightly; cover with papers until seed germinates.

CUP and SAUCER BELLS, bi—The largest type, with cup and saucer-like flowers. WHITE, LIGHT BLUE, DARK BLUE, ROSE, and MIXED. Pkt. 15c.

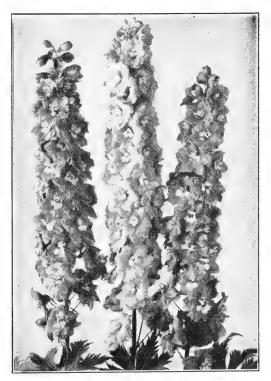

SINGLE MIXED, bi—bell-shaped. Pkt. 15c.

PYRAMIDALIS MIXED (Chimney Bell Flower)—Star-shaped; blooms during August and September. **Pkt. 15c.**

PEACH BELLS, Persicifolia mixed—Saucer-shaped blooms on tall spikes. Pkt. **15c.**

Catananche (Cupids Dart)

COERULEA—Bright lavender blue flowers somewhat resembling cornflowers which may be cut and dried as everlasting. Will bloom the first year from seed if sown early. **Pkt. 15c.**

Delphinium, Pacific Giants, Page 48.

Carnation

Perennial, blooming the first season.

GIANT FLOWERING—ROSE, FLESH, PINK, SCARLET, YELLOW, WHITE and MIXED. Pkt. 15c.

FLORIST'S MIXTURE—A special mixture from florist sorts. Can be used inside or out. Pkt. 35c.

ENGLISH GIANT MIXED—A complete mixture of colors, including the most rare shades yet offered gardeners. Blooms surpassed in size only by the greenhouse type and if disbudded will closely approach that size. Pkt. 35c.

Centaurea (Dusty Miller)

CANDIDISSIMA—Thick silvery white leaves. Should be sown early. Pkt. 15c.

Cerastium (Snow in Summer)

Chrysanthemums

KOREAN HYBRIDS—Gorgeous strain of single, semi-double and double flowers in a wide range of colors. The regular Chrysanthemum type. Bloom in September until frost. Will bloom the first year if sown early. 2' to 2½'. Pkt. 35c.

ANNUAL FLOWERS

See Pages 34 to 46.

__47_

Columbine (Aquilegia)

Beautiful spring-blooming plants of graceful, airy habit; highly prized for the border and cutting. They succeed best in partial shade and light, fairly rich, well drained soil. Start inside or in open and transplant.

BLUE SHADES—Long spurred. Vary from light blue, mid-blue, deep blue to the darkest purple. **Pkt. 25c.**

PINK SHADES—Long spurred. Sepals and spurs are a beautiful shade of soft pink in contrast to the cream-colored corolla. **Pkt. 25c.**

MRS. SCOTT ELLIOTT LONG SPUR-RED HYBRIDS—Excellent range of colors. MIXED. Pkt. 15c.

Cineraria (Biennial)

Beautiful greenhouse, or indoor flower, easily grown from seed. High-grade mixture. **Pkt.** 35c.

Coreopsis

DOUBLE SUNBURST—Deep golden yellow. Excellent cut flower. **Pkt. 15c.**

LANCEOLATA GRANDIFLORA— Large, showy, bright yellow. Pkt. 15c.

Cyclamen

GIANT MIXED—A splendid mixture of brilliant and soft shades, grown from a highly selected strain. It requires 16 to 18 months to produce blooming plants from seed. Pkt. (10 seeds) 35c.

Dahlia Seed

Start like Asters, transplanting about May 1st to 20th.

UNWIN'S IDEAL BEDDING MIXED—Miniature double and semi-double flewers on dwarf bushy plants. Pkt. 25c.

CHOICE MIXED—A mixture of many colors in different types. Pkt. 25c.

MIGNON MIXED—Dwarf single; suited for bedding and cutting. Pkt. 20c.

DECORATIVE MIXED—Seed saved from choice varieties. Pkt. 35c.

DOUBLE CACTUS—Mixture from named sorts. **Pkt. 35c.**

Dianthus, Pinks

DOUBLE DWARF CLOVE PINK MIXED—Early, compact, spicy clove scented. Many will bloom first year if planted early. **Pkt. 20c.**

Digitalis, Foxglove

GLOXINIAEFLORA MIXED, bi— Pkt. 15c.

SHIRLEY MIXED—Immense. Pkt. 15c.

Delphinium (Perennial Larkspur)

IMPROVED BELLADONNA (Special Strain)—Light blue, large single flowers, strong grower. Pkt. 20c.

IMPROVED BELLAMOSUM (Special Strain)—Deep blue. Single, blooms 2½" across. Pkt. 20c.

GIANT PRIZE MIXED—Selected from Pacific Giant strain, single and double flowers in mixed colors. One of the best high grade selections. Pkt. 25c.

THE NEW PACIFIC GIANTS

An outstanding strain originated on the Pacific Coast. Comparatively mildew resistant, nearly 100% double.

BLACK KNIGHT—Dark blue. Pkt. 35c. GALAHAD SERIES—Giant glistening white. Pkt. 35c.

GUINEVERE SERIES—Light pinkish lavender self, white Bee. Pkt. 35c.

KING ARTHUR SERIES—Royal violet, white Bee. Pkt. 35c.

PERCIVAL SERIES—White, black Bee. Pkt. 50c.

SUMMER SKIES SERIES—Clear, light blue, white Bee. Pkt. 35c.

PACIFIC GIANTS MIXED—Splendid blend. Pkt. 35c.

Erigeron

MIXED—Daisy-like blooms with small centers and many long and narrow petals. Pkt. 20c.

Eremurus (Foxtail Lily)

Long, slender leaves spring from the fleshy rope-like roots in dense basal rosettes. Above them rises the stout flower stalk sometimes to 8 ft., clothed from half its length with close-set starry blooms which last for several weeks. A rich, fibrous, well-drained sweet soil containing sharp sand, and a sunny location are essential. Growth of foliage appears quite early in spring and must be protected against frosts. Seed should be frozen before planting, and planted in late fall or early spring. Pkt. 20 seeds 25c.

Fuchsia

MIXED—Fine selection of double and single types. Pkt. 25 seeds 35c.

Gaillardia

DAZZLER—Giant gold with maroon red center. Pkt. 15c.

PORTOLA HYBRIDS—Bronzy red, gold-tipped. Pkt. 15c.

Geranium

ZONALE MIXED—A fine strain of largest and finest. Start indoors. Slow germinating and continue coming up for several weeks. **Pkt.** 35c.

----18--

Gerbera (Transvaal Daisy)

HYBRIDA GIANT, CALIFORNIA STRAIN—Tender perennial. Large daisy-like blooms in yellow to red shades, on long stems. Sow seed singly, point up, cover lightly, water sparingly in hot-bed. Likes sun; protect from rain. Beautiful pastel shades. Pkt. 25 seeds 25c.

Geum

MRS. BRADSHAW—Popular, semi-double flowers, 2" across, brilliant scarlet; fine cut flowers; easily grown. Blooms in June and July. Pkt. 20c.

LADY STRATHEDEN—Double yellow. Pkt. 25c.

ORANGE QUEEN-Orange. Pkt. 25c.

Gypsophila (Baby's Breath)

PACIFICA—These rose-colored flowers bloom first season from seed. **Pkt. 25c.**

PANICULATA—Single. Pkt. 15c.

PANICULATA DOUBLE—Mostly double white flowers. Pkt. 20c.

Heuchera (Coral Bells)

SANGUINEA SPLENDENS—18" high. Coral-red flowers, blooming in July and August. **Pkt.** 20c.

Helianthemum (Sun Rose)
MUTABILE—Rock plant. Pkt. 15c.

Hibiscus

HYBRIDS MALLOW MARVEL MIX—Easily grown giant types; with flowers 3" to 5" in diameter. Blooms in September. This is the perennial type. **Pkt. 15c.**

Hollyhock

CHATER'S DOUBLE—Mixed. Pkt. 15c. SINGLE MIXED—Pkt. 15c.

Incarvillea (Hardy Gloxinia)

GRANDIFLORA BREVIPES—Hardy on the West Coast. Rose flowers on 2' stems. Blooms in June and July. **Pkt. 15c.**

Iris

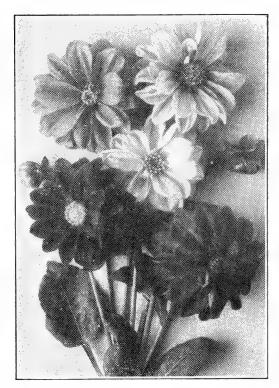

JAPANESE MIXED—Blooms in two years from seed. Pkt. 35c.

Jerusalem Cherry

A small plant whose globular scarlet and yellow fruit make it an attractive pot plant for the house. **Pkt. 25c.**

Kudzu Vine

PUERARIA THUMBERGIANA—Rank growing, hardy climber. This purple-flowered vine covers trellis and fence rapidly. It dies to ground in winter. **Pkt. 35c.**

Unwin Bedding Dahlias-Page 48.

Lathyrus

(Perennial Sweet Peas)

MIXED—Strong growing, hardy climber, easily started from seed. Fine for cutting. Pkt. 15c.

Lavender

VERA (Sweet Lavender)—Fragrant blue-lavender flowers in July and August. **Pkt. 25c.**

Lily

REGALE—Large trumpet-shaped, sweet-scented flowers. Ivory white, tinged pink and purple, with yellow throat. Hardy. Pkt. 15c; ½ ez. 85c; oz. \$2.50.

Graceful in rockeries and borders.

BLUE FLAX—Blue, 2'. Pkt. 15c.

FLAVUM—Golden yellow, 12". Pkt. 15c.

Lobelia

CARDINALIS—Handsome plants with fine spikes of glistening cardinal red flowers in August and Sept. **Pkt. 25c.**

Lunaria (Money Plant)

HONESTY, bi—Silvery, translucent, oval seed pods, prized for winter bouquets. An annual if sown early. Pkt. 15c.

49

Lupinus Polyphyllus

Inoculate seeds with nitrogen. Chill seeds before planting.

RUSSELL'S BLUE SEAL (Originator's Strain)—Pkt. 15 seeds 25c.

LUPIN—Hardy plants with 3' spikes blooming May and June. Mixed. **Pkt. 15c.**

Lychnis (Jerusalem Cross)

CHALCEDONICA—Easily grown, blooms first year with flaming scarlet flower heads. 3'. Pkt. 15c.

Matricaria

CAPENSIS DOUBLE WHITE—2', splendid cut flowers. Pkt. 15c.

Myosotis, Forget-Me-Not

ALPENTRIS BLUE, bi—Compact, upright growing. Easily grown. Pkt. 15c.

ALPENTRIS ROSE, bi—Dwarf, compact plants, with abundance of rose-pink flowers. Pkt. 15c.

INDIGO BLUE, bi—Compact, deep blue, 6". Pkt. 15c.

EVERBLOOMING, bi-Blue. Pkt. 15c.

Nierembergia

PURPLE ROBE—Dwarf, compact, free flowering. Maintains deep violet purple color. For edgings or rockeries. Pkt. 25c.

Oenothera (Evening Primrose)

The big, silky yellow blossoms unfold at dusk, mostly remaining open until well into the next day. Plant in the early fall for best results. **Pkt. 15c.**

Oriental Poppies

Produce splendid cut flowers.

ORIENTAL—Large, orange scarlet, with black blotch on each petal. Pkt. 15c.

PRINCESS VICTORIA LOUISE—Large, soft salmon-rose. Pkt. 20c.

OREGON SUPREME MIXED—From the finest named sorts of our own growing. Many varieties in mixtures. **Pkt. 25c.**

Iceland Poppies ICELAND SINGLE MIXED—Pkt. 15c.

Pentstemon

SENSATION—Gloxinia-like flowers on graceful 2' spikes. A wide range of bright colors. Only half hardy, and should be covered in winter. **Pkt. 15c.**

Peruvian Lily (Alstromeria)

CHILENSIS MIXED — Gorgeous clusters of bright blossoms in pink and tones of rose or red, often with hint of orange, on long stems. Pkt. 25c.

Pansies

Sow early inside or outside in March or August for spring plants. **Prices, unless noted: Pkt. 25c each.**

BUTTERFLY HYBRIDS — A rainbow collection, abundantly ruffled, frilled, fluted, and marked with sun rays and blotches of butterfly sheen metallic jewel tones. Pkt. 50c.

CORONATION GOLD—Largest and best pure yellow pansy.

IMPROVED SEA BLUE—Best blue.
JUMBO MADAM STEELE—Giant velvety purple.

GORGEOUS RED—A deep red pansy with a deeper red blotch.

MOON MOTH—A very beautiful white with the outstanding characteristic of Pay Dirt. Dark blue pencil markings radiate from the center. Pkt. 50c.

PAY DIRT—The largest golden yellow ever produced. Blooms have dark ring or tiny dark faces. Fine habit of growth and resistant to summer heat. Pkt. 50c.

ROGGLI'S GIANTS—An excellent range of color. Giant flowers on long sturdy stems. Compact plant. Pkt. 35c.

MASTER MIXED—Fine mixture of the giant type pansies.

JUMBO MIXED—Wonderful shades. Massive flowers on strong stems. Contains many red and bronze shades. Pkt. 35c.

OREGON GIANTS MIXED — Giants in a good range of color. Pkt. 20c.

FELIX—Many rich colors, each flower is marked with "whiskers" which characterizes the strain. **Pkt. 50c.**

TIGRESS — "Miniature Pansies." The flewers of this European novelty are produced in great abundance, and the effect is most unusual. The striped and blotched arrangements of at least 3 colors create a striking appearance. Pkt. 35c.

Giant Winter Blooming Pansies

These are unusually hardy and bloom very early in spring; where winters are mild they bloom throughout the cold months.

ICE PANSY (Hiemalis)—A complete range of colors in mixture. Pkt. 25c.

Primrose, Hardy

GIANT POLYANTHUS—Large, thick round clusters of orange, purple and crimson flowers. Extra fine colossal strain. Veris Mixed. Pkt. 35c.

POLYANTHUS ALBA—White. Pkt. 50c.

POLYANTHUS LUTEA—Sulphur yellow. Pkt. 25c.

JAPONICA MIXED—Clusters of bright colors. Pkt. 25c.

AURICULA MIXED—6 inches tall. A good mixture. Pkt. 25c.

50`

BELTSVILLE BEAUTY-If autumn sown, this spring following like the usual perennial form, with a much larger range of color. The majority are quite large flowered and bear many stems of large umbles. To insure good germination, seed should be frozen before planting. Many gardeners freeze seed in an ice cube and plant cube and all. Pkt. 35c.

Physalis (Chinese Lantern)

FRANCHETI—Largely grown for its vividly colored scarlet-red, lantern-shaped fruits which, when cut and dried, are widely used for winter bouquets. Does well in sunny locations. Pkt. 15c.

Platycodon (Balloon Flower)

One of the finest hardy perennials, producing showy bell-shaped or star-shaped blue flowers on slender, leafy stems for cutting. Pkt. 25c.

Pyrethrum
ROBINSON'S GIANT HYBRIDS— Large, single daisy-like flowers. A good mixture. Pkt. 25c.

DOUBLE MIXED—Pkt. 25c.

Ranunculus

MAMMOTH DOUBLE MIXED—Compact plants. Double and semi-double flowers. Very attractive in hardy border in early summer. Seed may require from 3 to 6 weeks to germinate and soil must not be permitted to dry out. Pkt. 35c.

Rock Garden Mixture

Wonderful mixture made from choice rock garden perennials. Pkt. 25c.

Rudbeckia

SPECIOSA—Daisy-like blooms of rich orange-yellow with deep brown centers, 3' high. Pkt. 25c.

Salvia

AZUREA—Sky blue. Pkt. 20c.

Scabiosa (Caucasica)

HOUSE'S HYBRIDS—Excellent strain with large flowers in June to September. Lovely shades of blue, mauve, lavender and white on long stems. Pkt. 25c.

Sedums (Succulent)

DWARF HARDY-Right for rock garden, edging or terrace covering. Pkt. 25c.

STATICE

CASPIA—Small lilac blooms on branched stems. 30". Pkt. 15c.

Shasta Daisy

G. MARCONI (Re-selected)—The largest flowered and finest double Shasta Daisy strain. Long stemmed. Pkt. 50c.

GIANT DOUBLE SHASTA DAISY-Large flowers that look like shaggy white asters. Extra long stems. Being a new strain, a few singles may appear. Pkt. 35c.

ALASKA—The popular evergreen, with single glistening, white flowers often 5" across. Pkt. 15c.

Stokesia

CYANEA BLUE—Fine cut flowers; 2' Pkt. 15c.

Sweet Rocket

MIXED—3' tall, fragrant spikes of blooms for May cutting. Pkt. 15c.

Sweet William (Biennial)

NEWPORT PINK-Salmon rose. Pkt. 15c.

ALBUS WHITE—Good white. Pkt. 15c. DWARF SINGLE MIXED—Pkt. 25c. DWARF DOUBLE MIXED—Pkt. 25c.

SCARLET BEAUTY—Large clusters of deep scarlet. Very popular. Pkt. 15c. MAMMOTH MIXED—Gigantic single flowers in a great range of color. Pkt. 15c.

DOUBLE MIXED—Selected. Pkt. 20c.

Thalictrum (Meadow Rue)

DIPTEROCARPUM — Lilac-mauve with yellow anthers, 4' tall. Pkt. 25c.

Tigrida

(Mexican Shell Flower)-MIXED Large triangular shaped flowers in bright colors. Pkt. 25c.

Tritoma (Red Hot Poker)

PFITZER'S HYBRIDS—Easily grown. 4' to 5' tall. Brilliant red. Pkt. 15c.

TUNICA

SAXIFRAGA—A pretty tufted plant with light rose flowers. Used for rockeries or borders. Pkt. 15c.

Viola Cornuta (Tufted Pansies)

JERSEY GEM—Violet blue. Pkt. 25c. ARKWRIGHT RUBY-Dark crimson scarlet. Pkt. 15c.

LUTEA SPLENDENS—A clear chrome yellow. Pkt. 15c.

CHANTREYLAND—Apricot. Pkt. 15c. TUFTED PANSIES MIXED—Pkt. 15c. JOHNNY-JUMP-UPS — Little "pansy" flowers, from spring to late autumn. Wide range of color. Pkt. 25c.

Violets

ODORATA—The popular fragrant "English Violet." Pre-chill before planting. Pkt. 35c.

Wallflower

Half hardy, blooming in the spring. Easily grown from seed.

MAMMOTH DOUBLE MIXED-Giant flowers; mostly double. Pkt. 15c.

SIBERIAN—12" high with bright orange flowers. Pkt. 15c.

-51--

LIST FOR FALL AND SPRING PLANTING

We offer a very complete list of bulbs and plants for fall and spring planting. You will find here many fine flowers not usually listed. It is always our endeavor to secure quality in bulbs and to offer proven varieties. All prices are postpaid unless otherwise noted.

Abyssinian Sword Lily

(Sometimes called the fragrant gladiolus)

A real find from Western Abyssinia. It grows from bulbs or corms which form numerous bulblets or cormels. As easily grown as the gladiolus, it is similarly planted and harvested. It flowers from mid-August to September. It has tall rigid stems, 4 feet or higher, with very sweetly scented flowers. Petals are pure glistening white with a purplish maroon blotch at their base. An excellent cut flower. Flowering size bulbs. Available in February and March. 3 for 30c; doz. \$1.00.

Agapanthus

(BLUE LILY OF THE NILE)

They produce large umbels containing 100 up to 150 buds that bloom all at once, blooming in July and August. The evergreen foliage resembles that of the amaryllis and the flower stems stand sturdy as high as 4 feet. Hardy along the coast and throughout California except in high elevations. In other sections it is best to cover them during winter. Large, single divisions available February to April. Each 65c; 3 for \$1.75; doz. \$6.50. For 5th zone and beyond add 10% to these prices.

Anemones

We carry the Tecolote Strain, noted for large size and brilliant colors. Plant in fall to February inclusive.

MONARCH DE CAEN—A magnificent strain of single poppy anemones with immense flowers. Brilliant and varied colors from pink to beautiful shades of blue and brilliant scarlet. Top size bulbs, Mixture only. Postpaid. 3 for 35c; doz. \$1.00; 100 for \$6.90.

ST. BRIGID "CREAGH CASTLE"—Large, semi-double flower. Brilliant hues and delicate shades including rose, pink, lavender and blue. Top size bulbs. Mixture only. Postpaid. 3 for 40c; doz. \$1.10; 100 for \$7.50.

Amaryllis

CALIFORNIA HYBRIDS—A fine strain of large Amaryllis Hybrids. The bulbs can be potted January to May and flower freely indoors. They can also be grown in the garden and be taken up and stored like Gladioli. A good range of colors in mixture. Large bulbs. Each \$1.00; 3 for \$2.75; doz. \$10.00. Postpaid, For 5th zone and beyond add 10% to these prices.

Azalea Plants

Evergreen, Bedding or Specimen Type. Plants 6 to 12" high. Postpaid. 40c ea.; 3 for \$1.10; dz. \$3.75.

CHAS. ENKE—Medium, single; striped rose and white. Profuse bloomer.

ERIE—Large double pink; variegated border.

HEXE—Red, semi-double; very popular; profuse bloomer.

ORCHID FLORA — Large semi-double; orchid color.

PAUL SCHAME—Large double salmon.
ROSA FLORA—Rose; small rosebud flowered.
VERVAENEANA—Large double white.

Bletilla Hyacinthina

HARDY CHINESE ORCHID—Hardy under all conditions. It bears 7 to 8 orchid shaped flowers on stems 12 inches tall. Also good in pots and frequently used for corsages. Offered in lavender and white. Each 50c; 3 for \$1.40; doz. \$4.75.

Bleeding Hearts

SPECTABILIS — The popular hardy perennial and of easiest culture. Long recemes of graceful heart shaped flowers. Will do well in shade or sun. Postpaid. Each 75c; 3 for \$2.10.

WHITE BLEEDING HEART—Rare native perennial. The clusters of graceful suspended blooms are pure white and bloom from mid-spring until frost. Thrives in rich, humsy, non-acid soil, with plenty of moisture, continuous light, to deep shade. Slender, sturdy, 12-in. stems, excellent for cut flowers and naturalizing. Postpaid. Each 65c; 3 for \$1.75; doz. \$6.50.

Begonia Bulbs

TUBEROUS-ROOTED

They begin blooming in July and are very valuable for summer flowers in shady places. They produce huge flowers in a great range of pastel and bright colors. The enormous blooms, often 6 inches and more across, are held above the broad attractive foliage. They may be started in pots and planted outside. Cultural directions will be sent with each order. Ready February to April. You may order 6 of one kind or of one color at the dozen rate. We offer fine bulbs, that with good care produce a fine display. Not less than 6 of one kind at the dozen rate. Postpaid. Each 30c; 3 for 80c; doz. \$2.90.

DOUBLE CAMELLIA — Giant double flowers, beautifully frilled and fringed on the outer edges. Offered in the following colors: White, Rose, Red, Pink, Yellow, Apricot.

CARNATION OR DOUBLE FRILLED—Large double flowers resembling a carnation in form. The petals are frilled and have serrated edges. Offered in Yellow, Pink, Red, White.

HANGING BASKET TYPE—Double blooms, of medium size, often 100 flowers to a plant. Offered in Apricot, Rose, Red, Scarlet, Orange, Yellow, Pink, White.

CRISPA SINGLE — Produces large, profusely frilled and ruffled single blooms. Offered in Red, Pink, White, Yellow.

 ${\bf CRISTATA}$ ${\bf MIXED-A}$ single type, slightly frilled, with a Coxcomb-like tuft or crest on each petal. Very novel form.

PICOTEE—Camellia type blooms with edges of petals marked in a contrasting color. Offered in Mixture only.

MARGINATA TYPE—Crispa type with distinct margin around the edges. White with pink edges and salmon with scarlet edge.

ROSE BUD MIXED—A double type resembling perfect rose buds. Many blooms have two shades. Offered in a mixture of pastel shades. Postpaid. Each 35c; 3 for 90c; doz. \$3.50.

SPECIAL MIXTURES—Two different mixtures, Upright type and Hanging Basket type. These are in mixtures only. 3 for 70c; doz. \$2.50.

NAMED TUBEROUS BEGONIAS

RED TRIUMPH—A very large, ruffled camellia type with velvety texture. Each 70c; 3 for \$2.00.

AUTUMN GLOW—Extremely large, cristata type, apricot flowers, the tufts of which are deep copper. Blooms often measure 10 inches across. Postpaid. Each 70c; 3 for \$2.00; dozen \$7.00.

SANTA MARGARITA — Large pink ruffled camellia type. Each 75c; 3 for \$2.00; doz. \$7.50.

SANTA MARIA—Large white ruffled Camellia type. Each 75c; 3 for \$2.00; doz. \$7.50.

Doronicum Plants

Daisy-like yellow flowers; early spring bloomer. Postpaid. 40c each; 3 for \$1.00; doz. \$3.50.

-52—

Calla Lilies

Hardy outdoors along the Coast of Oregon, Washington, also in the milder sections of California. Plant 4 inches deep and 2 feet apart. Available January to April. Can be started inside and planted outside in May.

LARGE WHITE CALLA—Strong, vigorous grower with flower stems 3 to 5 feet high. Large roots. Each 60c; 3 for \$1.50; doz. \$5.50. For 5th zone and beyond add 10% to these prices.

YELLOW CALLA—Flowers bright yellow, foliage deep green, spotted white. Plant 1 to 2 inches deep. Postpaid. Each 60e; 3 for \$1.60; doz. \$6.00.

PINK CALLA—Medium sized flowers of rose pink shading to cerise when fully open. Height 10 inches. Postpaid. Each 55c; 3 for \$1.50; doz. \$5.50.

ALBA MACULATA—Dwarf white flower with red markings and blotches in the throat. Quite rare. Postpaid. Each 65c; 3 for \$1.80; doz. \$6.50.

BLACK CALLA—The odorless black Calla. Large tubers. Postpaid. Each 75c; 3 for \$2.00; doz. \$7.50.

Gill's Cannas

Valuable for foliage and their large brilliant flowers. Root divisions may be started in pots and transplanted about May 15 to June 15, depending upon location and seasons. Place about 2 feet apart in rows and 4 feet between rows. In mass beds they may be planted closer.

Prices Postpaid — Any variety; root divisions ready March and April. Each 25c; 3 for 60c; doz. \$2.10. Plants ready May and June. Each 50c; 3 for \$1.25; dozen \$4.75.

KING HUMBERT—Large orange scarlet flower with deep bronze red foliage; 3 feet tall.

THE PRESIDENT—Immense bright red flowers in large clusters. Plants 3½ feet tall. Green foliage.

YELLOW KING HUMBERT—Tall green foliage, yellow flowers, spotted red.

CITY OF PORTLAND—Compact dwarf growth. Luxuriant green leaves, rosy pink flowers.

RICHARD WALLACE—Bright, deep yellow flowers; green foliage.

Colchicum (Autumn Crocus)

A very unusual flower which blooms a few weeks after planting, blooming without foliage. They will also bloom on a shelf or table without water or soil. Flowers shaped somewhat like Crocus but larger and bloom before the foliage appears. It is sometimes called the Autumn Crocus. They bloom early in the fall. You may order previous to that time and we will hold it for delivery in August. Prices postpaid. For 5th zone and beyond add 10% extra to the listed prices.

ALBUM-Large pure white. Each 35c; 3 for 85c; dozen \$3.00.

AUTUMNALE—Large, pale lavender. Each 35c; 3 for 85c; doz. \$3.00.

AUTUMNALE MAJOR—Very large flowers; free blooming. Lilac pink. Each 50c; 3 for \$1.25; dog \$4.50

VIOLET QUEEN—Rich violet color, Each 40c; 3 for \$1,10; doz. \$4.10.

Gerbera (Transvaal Daisy)

CALIFORNIA HYBRIDS—A superior strain of giant single and duplex types with wide open flowers in a well blended mixture of brilliant colors, predominating in salmon, orange, red and pink shades. Delivery February to May. Large 2 to 4 eye root divisions. Offered in mixture only. Each 40c; 3 for \$1.10; doz. \$4.00.

Gloxinias

These brilliant colored flowers are easily grown inside. One of the easiest pot plants to grow. Plant from February to May. One bulb in 5-inch pot, cover bulb about one inch and water sparingly, until sprouted. Offered in mixture only containing scarlet, dark violet, dark crimson and bi-color. Available in February and March. Each 50c; 3 for \$1.25; doz. \$4.75.

Abyssinian Sword Lily-See Page 52.

Day Lilies, Hemerocallis

These hardy perennials are greatly improved, far surpassing the old varieties. Fall and spring delivery. The dozen rate is 10 times the single rate. 6 of one kind at the dozen rate. Prices postpaid.

New Day Lilies

FRANS VERWILT—Brilliant flaming red with golden throat. Late. 36 to 40 inches. Each 90c.

GRATIA MASSIE—Gold reddish mahogany with big golden yellow throat. Fragrant. 40". Each 85c.

HERCULES — Maroon red with red-mahogany overtones and deep yellow center. One of the best reds. **Each \$1.00**.

NIGRETTE—One of the darkest. Flowers deep pansy purple with mahogany overtones. Late. 26 inches. Each 85c.

SUMMER PRIDE—Ruby-red flowers with violet flush and small golden throat. Late. 30 to 36 inches. Each 85c.

	Lacii
BAGDAD—Coppery red and brown	\$.50

GRAF ZEPPELIN—White, vermillion red eye, medium height, mid-season. Each 40c; doz. \$4.00.

PRIME MINISTER—Large salmon pink, darker eye. Each 35c; dozen \$3.50.

RHEINLANDER—Beautiful salmon pink, darker eye, tall, mid-season. Each 35c; doz. \$3.50.

ROSEA SUPERBA—Light soft pink with deeper eye, enormous pyramidal flowers, tall, mid-season. Each 40c; doz. \$4.00.

ROSY BLUE—Rosy blue, nearest to a true blue in hardy Phlox. Each 35c; doz. \$3.50.

RUBY LEE — Large flowers of plum purple, medium height, late. Each 45c; doz. \$4.50.

MIXED-Each 30c; doz. \$3.00.

Ranunculus

TECOLOTE GIANTS MIXED—They can be planted in the fall or early spring. February, March and April plantings are very successful. A great range of color and embracing many new shades. Giant double and semi-double, peony-like flowers, two inches across. Yellows from straw color through all shades to deep golden yellow, red, including dark crimson, scarlet, orange-red, in fact all shades of red and orange-pink. Can be planted outside in the fall in Southern States and along the Pacific Coast in Oregon and Washington, and are usually safe with some protection. They may be grown inside in frames or pots. Flowers are borne freely on stems 12 to 15 inches. In mixture only. 3 for 35c; doz. \$1.25; 100 for \$9.35.

Tigridia or Tiger Flower

Gorgeous colors, produced during the summer. Short lived blooms but very brilliant. Plant 2 to 3 inches deep and 6 to 8 inches apart. We offer a fine range of colors in mixture. Blooming sized bulbs ready in January. Mixed only, shades of scarlet, cream, rose, yellow and orange. Postpaid. 3 for 35c; doz. \$1.25; 100 for \$9.00.

Tritoma

Prices postpaid. For 5th zone and beyond add 10% to these prices.

PFITZER'S HYBRIDS—These new hybrids have a range of color from white to red shades. Hardy perennials blooming August to October. Tall spikes often 3 feet tall. Available February to April. Roots. Each 35c; 3 for \$1.00; doz. \$3.50.

Tuberoses

Lovely, large flowers of thick wax-like texture on graceful, long, strong stems. Valuable in the garden, also for cut flowers. They have a rich exotic fragrance. Plant after danger of frost, 2 inches deep to top of bulb. They prefer well drained soil and sunshine. The flower stems are about 15 to 20 inches tall and bloom in August and September. Near the seacoast they can be left in the ground over winter if protected, but in other sections it is best to dig and store them. Available in February. Offered in double. Postpaid. 3 for 50c; doz. \$1.70.

--54-

Select List Hardy Lilies

Most lilies require well-drained soil. Some shade on the ground is very good but the sun is needed around the upper plant. The soil should be fibrous and rooty; some leaf mold or peat should be added. Plant one foot apart. Charcoal and sulphur sprinkled in planting helps to ward off worm attacks and blue mold. We offer large, blooming size bulbs. Our bulbs will be sent at the proper season. Most of our lily bulbs are grown in Oregon and Washington. Lily bulbs can not be kept too dry or too moist. Most varieties can be planted in the Fall and early Spring. We specialize in lilies.

AURATUM (Platyphyllum) (Gold Banded Lily)—One of the largest and most beautiful of all lilies. The immense blooms are brilliant, sweet scented and artistic. We offer clean, healthy bulbs that will bloom the first season. White petals, dotted with small dark spots with distinct yellow band through the center of the petals. Large bulbs. Available February. Each 65c; 3 for \$1.85; doz. \$6.50.

CAMPFIRE (New Mid-Century Hybrid)—Rich deep fiery Indian red with maroon spots. Rather narrow, pointed petals. 3 to 4 feet tall. Very distinct. Each \$1.75; doz. \$17.50.

CANDIDUM (Cascade)—An improved strain of the old Madonna variety. Larger flowers and taller stalks. Blooms in July. Vigorous in growth. Plant in August and September. Order now for August delivery. Each 55c; 3 for \$1.50; doz. \$5.50.

FORMOSANUM—Long white trumpets on stalks, 4 to 6 feet tall. Fine late lily blooming in September and October. Each 35c; 3 for \$1.00; doz. \$3.50.

HENRYII—Rich apricot yellow with a few brown spots, Very hardy and free flowering, 3 to 5 feet. Each 55c; 3 for \$1.50; doz. \$5.50.

PARALINUM (Sunset Lily)—Masses of blooms with reflexed petals; bright orange, spotted maroon, tipped orange scarlet. Easy culture and very hardy. 6 to 7 feet. Plant 4 inches deep. Each 40c; 3 for \$1.10; doz. \$4.00.

REGALE—Magnificent hardy lily from China; vigorous, 3 to 5 feet, bearing several large, white, fragrant flowers, slightly shaded pinkish brown outside the trumpets. Thrives in any good well-drained soil, preferring full sun. Plant 6 to 9 inches deep. Good flowering sized bulbs. Each 25c; 3 for 65c; doz. \$2.50.

SPECIOSUM RUBRUM (Pink Tiger Lily) — A strong, vigorous grower with stems 3 to 4 feet tall, with bright blossoms which are shaded rose and spotted deep red. Plant 9 inches deep. Available January. Each 55c; 3 for \$1.50; doz. \$5.25.

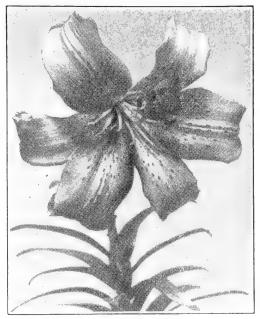

TESTACEUM—Salmon apricot with orange anthers. Does well under the same conditions as Candidum and blooms at the same time. A very unusual lily. Plant in August, 3 inches deep. Order now for August delivery. Each \$1.15; 3 for \$3.25; doz. \$11.50.

Rhubarb

Rhubarb can be planted in October and November, depending upon your locality. Fall planting enables you to have quicker results than spring planting. We offer good, strong divisions with good eyes to start the crowns. For quantities write for prices. Ready for shipment about November 1. Prices quoted are for good divisions. Do not pull any stems the first year after planting. Space 2½ feet apart in the rows and 6 feet between rows. If planting is deferred until spring set them out before May 1. If you are unable to set them out when received plant in moist sand until ready. If the root divisions are planted in soil that is too dry they may fail to grow. On all rhubarb prices add 10% for Zone 4 and beyond.

RIVERSIDE GIANT RHUBARB—Extra large stems of bright crimson. One of the best producers for market. High quality. Each 45c; 3 for \$1.25; doz. \$4.00.

CHIPMAN'S CANADA RED — This variety has very red interior in the stems. The exterior of the stems are bright crimson. The interior is really red throughout whole length of the stem. Not a faint pink but a real red. Somewhat sweeter than most varieties, Postpaid, Each 60c; 3 for \$1.50; doz. \$5.00.

Campfire Lily-This Page.

Strawberry Plants

They can be planted in October and early spring. Always select a well drained location convenient for watering the plants during the summer production. We supply healthy, clean plants. It is not safe to order strawberry plants later than May 25th but they may be planted in October.

NOTE: Because of distance and delay from in-

NOTE: Because of distance and delay from inspections, sale of strawberry plants will be limited to the states of Oregon, Washington and Idaho. Exceptions will be made on lots of 50 or more when shipped by Express. Plants will not be sent C.O.D. Payment should accompany the order.

NEW RED RICH (Everbearing) — Large, solid, rich-red throughout fruit. Planted in early spring,

will bear in June, through summer, into fall. Heavy producer; excellent for table and freezing. In our trials this season this berry is very promising. A strong grower, loaded with blossoms, green and ripe berries. Excellent flavor and striking appearance. This variety patented and Trade Marked. Postpaid. Dozen \$2.95; 25 for \$5.00; 50 for \$8.50; 100 for \$15.00.

ROCKHILL (Everbearing)—Large bright berries produced in quantities all summer and fall. This variety makes very few runners and most of the plants are secured by dividing up the one-year-old plants. This has the advantage of eliminating the second rate producers. Many people believe that the Rockhill berry should not make runners, however this is not true. If given plenty of fertilizer and water they will make some runners. Postpaid. Doz. \$1.25; 50 for \$4.60; 100 for \$8.85.

STREAMLINER (Everbearing)—A variety of delicious quality, producing heavy crops of large berries. This berry originated in Oregon and has made quite a sensation. It bears throughout the season from spring until late fall. Postpaid. Doz. \$1.20; 50 for \$4.35; 100 for \$7.75.

MARSHALL (Standard type, not everbearing)—One of the best for market and home use. Large, dark red fruit with deep red clear through berries. Exceptionally fine quality. Doz. 65c; 50 for \$2.40; 100 for \$4.25 Write for countity prices.

Exceptionally fine quality. Doz. 656; 50 for \$2.40; 100 for \$4.25. Write for quantity prices.

NORTHWEST (New) (Standard type, not everbearing) — Large heart shaped, uniform berries with clear deep red clear through the fruit. Larger and heavier yielder than the Marshall. Vigorous, spring bearing plants producing large clusters on high stems. Ideal for canning and freezing. Midseason. Postpaid. Doz. 90c; 50 for \$3.25; 100 for \$6.00. Write for quantity prices.

VEGETABLE PLANTS

- IMPORTANT NOTICE—We positively will not send any plants C.O.D. Payment on plant orders must accompany the order. For safe shipment we advise that vegetable plant orders be limited to Oregon, Washington, Idaho, Wyoming, California, and Western Montana.
- NOTE—Because there is often confusion in ordering and shipping plants we urge our customer's to put the section number along with the variety.

GILL'S RELIABLE DAHLIAS

Dahlia orders will be filled during March and through April and May, but may be sent any time Dahlia orders will be filled during March and through April and May, but may be sent any time for booking, and will be filled in the rotation received. No dahlia orders will be filled after June 1, except collections, which will be sent up to June 15. All Dahlia prices postpaid. The rate for a dozen of one kind is 10 times the single rate. Six of one kind at the dozen rate.

We publish a bulletin telling how to care for dahlias. This is sent free to all if requested and a copy is included with each order of bulbs. See dahlia collections on Inside Back Cover.

When you receive your dahlia tubers open them very carefully so that the eyes on the tubers will not be injured. Keep them in a cool place, away from frost, until ready to plant. The dahlia tubers we offer are mostly grown in Oregon.

tubers we offer are mostly grown in Oregon.

ORGANIC FERTILIZERS

RAW BONE MEAL—A rather slow acting fertilizer used for many purposes, especially fruit, shrubs and bulbs. Approximately 4-23-0.

COTTON SEED MEAL—A valuable organic fertilizer which many growers use in place of fish. Important for acid loving plants and shrubs.

SHEEP GUANO—Usually runs around 2-1-2. Dry ground sheep manure in scales. High is humper ground sheep.

ground sheep manure in sacks. High in humus, and fine for general purposes.

FERTILIZERS IN MIXTURES

Order by analysis numbers listed below. We can generally supply commercial mixtures with the following analysis: 3-10-20 6 - 10 - 45-10-10

MINERAL FERTILIZERS

Write for prices, stating quantities.
POTASH, MURIATE—Produces color, substance and flavor. 50 to 60% potash.

POTASH, SULPHATE-Also valuable for color, substance and flavor, 50%

SUPERPHOSPHATE—18% grade. NITRATE OF SODA—14 to 16% nitrogen. Soluble in water and valuable for winter and early spring fertilizing on crops where quick leaf growth needed.

SULPHATE OF AMMONIA—This runs high in

nitrogen. Similar use to that of Nitrate of Soda.

AMMONIUM NITRATE—About 34% nitrogen.

AMMONIUM PHOSPHATE—About 11% nitrogen, 48% phosphate also in 16-20.

OTHER ITEMS

LAND PLASTER OR GYPSUM—This contains sulphur in available form and is valuable for legumes and general crops.

LIME, HYDRATED—For extremely acid soils.

VIGORO—The ideal plant food for lawns, flowers gardens, shrubbery and trees Offcord with the content of the co

ers, gardens, shrubbery and trees. Offered in weighed packages as follows: 1-5-10-25-50-100 lbs.

Atlas Fish Emulsion

Is 100% organic—water soluble and easily available to plants. Is safe—no burning—economical. Postpaid. 4 oz. 50c; Pints \$1.25; Quarts \$2.00. Extra postage beyond 4th Zone.

Alaska Fish Emulsion

All-purpose plant food, non-burning, 100% organic, water soluble and easily available. Made of whole fish. It has dog and cat repellent. Postpaid. 4 oz. 50c; 8 oz. 75c; pint \$1.25; quart \$2.00. Not prepaid, gallon \$4.95.

I rain-etts

Weatherized Trellis Netting. Ideal support for Sweet Peas, Garden Peas, Pole Beans, etc. Hung with ease in 5 minutes; no fuss or bother. Use instead of string or wire. (Wire in sun, burns delicate tendrils.) Won't rot like string—lasts several seasons. In 3 sizes: No. 1, 60x72 in., 70c; No. 2, 60x96 in., 90c; No. 3, 60x180 in., \$1.36. Postnaid

Tarred Plant Protectors

(NON-POISONOUS)

Protection from Root Maggots on Cabbage, Cauliflower, Broccoli, Brussels Sprouts, etc. Apply when setting out plants. Rains or cultivation do not de-stroy effectiveness. Protection lasts until plant maturity. Prices as follows, postpaid. Package of 24 for 20c; 72 for 55c; 500 for \$1.85; 1000 for \$3.10. Write for prices on quantities.

BARGAIN COLLECTIONS

These special collections represent real values. They are genuine offers of the same high standard of goods that we supply our regular trade. Seeds and seasonal items will be sent promptly, with dahlias in April and May. Collections are our selection as listed and no changes can be allowed at these special prices. Gladiolus bulbs are sent when weather is favorable. All postpaid unless noted.

Home Beautiful Sweet Peas

Twelve regular sized packets of Spencer Sweet Peas, our selection of named varieties, all different, worth \$1.20, sent postpaid for 75c. Six packets, postpaid for 40c. These will be chosen to give a good range of color. Do not order this collection based on your own selection.

Gladiolus in Mixtures

GILL'S FANCY MIXED—A mixture from named sorts containing more varieties than any mixture we offer. The names are not attached to the bulbs and the varieties are our own selection. Large bulbs, (1½" or more in diameter). 3 for 25c; doz. 85c; 50 for \$3.40: 100 for \$6.50.

JUMBO MIXED—Jumbo refers to size of bulbs being 2 inches or more in diameter. This mixture contains a good range of color and varieties. Made from named varieties in mixture. Their large size increases the cost because of extra weight. 3 for 35c; doz. \$1,20; 50 for \$4.75; 100 for \$9.00.

Florist Gladiolus Offer

Twenty-five bulbs, 1¼ inches up, in a fine mixture, postpaid, for \$1.00. This mixture is made from named standard sorts and newer introductions unlabeled and comprises large flowering varieties, chosen so as to give a good range of color. Our own selection in mixture. These collections are put up in advance and cannot be divided to sell part of a collection. Postpaid, including 4th zone. Beyond 4th zone add 10c to each collection.

Glorious Gladiolus Offer

40 medium size bulbs, 1 to 1¼ inches in diameter, in splendid mixture, postpaid, for \$1.00. These will make fine blooms the first season. You will be surprised at the value you receive. This offer enables everyone to have a fine gladiolus garden. Splendid value. These collections are put up in advance and cannot be divided to sell part of a collection. Postpaid, including 4th zone. Beyond 4th zone add 10c each collection.

Cottage Dahlia Collection

A fine collection of named varieties, all labeled, which will provide a good range of color. Five varieties of our own selection, representing 3 or more classes of dahlias and worth \$2.50, for \$2.00.

Pompon Dahlia Collection

These dainty flowers are ideal for garden and cuttings. We offer, subject to our own selections, properly labeled, 6 Pompon Dahlias with a regular value of \$2.25, for \$1.75. Postpaid. Each variety different and in a good range of color.

Cactus Dahlia Collection

This contains named varieties of Cactus and Semi-Cactus dahlias, our selection of varieties in a good range of color. We do not divide the collection. We offer 6 varieties worth \$3.00 for \$2.50.

Decorative Dahlia Collection

This contains named varieties of Formal and Informal Decorative dahlias in a good range of color. We offer 6 varieties worth \$3.00 for \$2.50. Postpaid.

Miniature Dahlia Collection

This type is very popular for cutting and garden decoration. We offer 6 named varieties labeled, each a different color, which at regular prices have a value of \$2.25 or more, for \$1.75 postpaid. This offer is strictly our own selection.

Squash Names, Back Cover

Beginning at the lower left hand corner and reading clock-wise, the large corner squash is Umatilla Marblehead, next above are two of the new Sugar Hubbard, originated by Gill Bros. Seed Co. At the top Gill's Golden Delicious, then down the triangle 8 specimens of Gill's Golden Pippin offered first last year. Next the Sweet Meat Squash, then Yakima Marblehead. This completes the outer sides of the triangle. In the center, Improved Hubbard, then three Table Queen and 2 more Gill's Golden Delicious.

FOR SQUASH VARIETIES SEE INSIDE THIS COVER
